Thomas Berman
SharePoint Developer/Architect
July 18, 2017, Thomas was senior to Thomas but didn't manage directly

Thomas Berman is an outstanding and talented young man. When we needed help updating the website for the Women's Clinic of the Antelope Valley (WCAV), a non-profit providing free services for women in need, Thomas jumped in with both feet. He organized, designed, implemented and maintained a fabulous website from 10 time zones away! His incremental development allowed us to provide feedback as he was creating a masterpiece. He was very professional throughout the process and the results were superb. As a professional engineer and executive, I admire his dedication and skill.

Thomas R. Berard, President
WCAV Board of Director
