Quick fact check for story description of you

Diana Shapiro <Diana@prtms.com> Wed, Feb 5, 2020 at 12:52 PM
To: Jill Castellano <jillcastellano@inewsource.org>

Hi Jill – Sorry for delay, I'm visiting a university with my son.

To clarify, I was NOT hired as an employee or contractor at UCSD, I was brought on as a vendor to provide consulting services; my private company, Corporate Cost Solutions, Inc. is a Management Services Organization (MSO) which I have owned and serviced clients nationally since 2002, in CA since 2009.

- I started working as a volunteer for Kevin in a Chief of Staff role in December 2016, no particular entity.
- PeakLogic was formed in February 2017.
- April 2017 I was hired as a UCSD consultant; helped setup the Neuromodulation Center for the clinical trials on a project basis.
- Feb 2017 PeakLogic was formed & registered.
- First investor was August 2017.
- First client was November 2017.

- January 31, 2018 I became a director, COO of PeakLogic.
- I also continue to work for Kevin as Chief of Staff, not specific to any entity other than PeakLogic.

**You have all the documentation via email with Kevin's UCSD Admin staff: Veronica, Eric, Stephanie, and also with Casey, & Dan Weisberg asking how best to set me up as a consultant to help Kevin get the UCSD Neuromodulation Center started.

My last vendor consulting check from UCSD was in June 2018; once the UCSD Neuromodulation Center had the clinical trial staff fully hired we learned that separation needed to be established between PeakLogic (vendor) and UCSD before clinical trial work started.

I hope this is helpful, please let me know if you need anything else…you are welcome to text me and let me know you sent an email. Best, Diana

Diana Shapiro
