Taking violent criminals off our streets

Image

From [WPLG Local10](#) in Miami, Florida (emphasis ours):

*[...] After the **fatal shooting** on North Miami Avenue at Northwest 20th Street, [the suspect] ran away. Despite a massive manhunt in Miami's Wynwood-Overtown boundary, [the suspect] was able to escape to another state. Assistant Chief Armando Aguilar said artificial intelligence helped detectives find him.*

*"**Within just over 30 hours**, we had identified [the suspect] and had him in handcuffs in Columbus, Ohio," Aguilar said on Thursday.*

*Aguilar said the Miami Police Department has been testing facial recognition software by **Clearview.AI** [...] Detectives said the system, which has been criticized over invasion-of-privacy concerns, **quickly tracked** [the suspect], who has a "Death Before Dishonor" tattoo on his forehead. [...]*

*[This] case isn't the only one that includes the use of this technology. In the **two months** that detectives have been using the software they have been able to **identify 10***

*suspects who have been tied to felony cases, including **violent crimes**, Aguilar said.
[...]*

<!--[if (!mso)&(!IE)]>

<!--[if (!mso)&(!IE)]>

Solving thefts and fraud

Image

From [WFTV 9](#) in Clermont, Florida (emphasis ours):

*An alleged thief is in jail after two Florida law enforcement agencies used a controversial crime-fighting tool. [The suspect] was wanted for allegedly **stealing nearly \$12,000** worth of items from a Clermont store last month.*

*Investigators said they were able to identify [the suspect] through facial recognition technology. [...] **Within two days**, both Tampa police and Seminole County deputies said they used facial recognition software to tentatively identify the suspect [...]*
*The Sheriff's Office said it is currently testing a facial recognition program called **Clearview AI**. [...]*

Saving children from sexual abuse

Image

From [The New York Times](#) (emphasis ours):

*[...] Investigators say **Clearview's tools** allow them to learn the names or locations of*

minors in exploitative videos and photos **who otherwise might not have been identified**. In one case in Indiana, detectives ran images of **21 victims of the same offender** through Clearview's app and **received 14 IDs**, according to Charles Cohen, a retired chief of the state police. **The youngest was 13.**

"These were kids or young women, and we wanted to be able to find them to tell them we had arrested this guy and see if they wanted to make victim statements," Mr. Cohen said.

Another official, a victim identification officer in Canada, who was not authorized to discuss investigations publicly, described Clearview's technology as **"the biggest breakthrough in the last decade" in the field of child sexual abuse crimes.** [...]

The app is being used by task forces in Florida, Indiana and South Dakota dedicated to investigating child abuse, as well as by the **Department of Homeland Security** and law enforcement in Canada. [...]

Don't take our word for it... hear it from a hero

A federal agent shares her experience with Clearview AI in the field:

*"I love Clearview... I would love to say that Clearview has helped us identify child victims and perpetrators in record time on child exploitation investigations. It's also helped me in financial fraud cases to uncover multiple accounts on suspects. We have used it every day in human trafficking investigations **and it has helped us to identify more victims than any other resource!**"*

<!--[if (!mso)&(!IE)]>

<!--[if (!mso)&(!IE)]>

Available on desktop and mobile

Image

Clearview AI is an Internet search engine for faces. It only takes **one** photo of a suspect's face, **one** quick tap or click on your desktop or cell phone, and **one** second of search time. Get results from mug shots, social media, news articles, and millions of other publicly available sources from the open web.

Clearview AI combines the cutting edge of facial recognition technology with our proprietary database of **over 3 billion images** from the open web. Our software can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo.

It only takes **one minute** to install - and you can start searching immediately.

<!--[if (!mso)&(!IE)]>

<!--[if (!mso)&(!IE)]>

[Sign up now](#) for a **free 30-day trial** with **unlimited** searches and test this cutting edge technology for yourself.

CAUTION: External Email

To our valued customers:

Our primary services are currently experiencing a major outage due to an extended service disruption of a critical external vendor, called Cloudflare, which powers a lot of the internet's websites. We are actively monitoring their status and working to restore our core services as soon as possible.

We apologize for the inconvenience.

- The Clearview AI team

Solving violent gun crimes

Image

From [WPLG Local10](#) in Miami, Florida (emphasis ours):

*[...] After the **fatal shooting** on North Miami Avenue at Northwest 20th Street, [the suspect] ran away. Despite a massive manhunt in Miami's Wynwood-Overtown boundary, [the suspect] was able to escape to another state. Assistant Chief Armando Aguilar said artificial intelligence helped detectives find him.*

*"**Within just over 30 hours**, we had identified [the suspect] and had him in handcuffs in Columbus, Ohio," Aguilar said on Thursday.*

*Aguilar said the Miami Police Department has been testing facial recognition software by **Clearview.AI** [...] Detectives said the system, which has been criticized over invasion-of-privacy concerns, **quickly tracked** [the suspect], who has a "Death Before Dishonor" tattoo on his forehead. [...]*

*[This] case isn't the only one that includes the use of this technology. In the **two months** that detectives have been using the software they have been able to **identify 10 suspects** who have been tied to felony cases, including **violent crimes**, Aguilar said. [...]*

<!--[if (!mso)&(!IE)]>

Solving thefts and fraud

Image

From [WFTV 9](#) in Clermont, Florida (emphasis ours):

An alleged thief is in jail after two Florida law enforcement agencies used a controversial

crime-fighting tool. [The suspect] was wanted for allegedly **stealing nearly \$12,000** worth of items from a Clermont store last month.

Investigators said they were able to identify [the suspect] through facial recognition technology. [...] **Within two days**, both Tampa police and Seminole County deputies said they used facial recognition software to tentatively identify the suspect [...]

The Sheriff's Office said it is currently testing a facial recognition program called **Clearview AI**. [...]

<!--[if (!mso)&(!IE)]>

Saving children from sexual abuse

Image

From [The New York Times](#) (emphasis ours):

*[...] Investigators say **Clearview's tools** allow them to learn the names or locations of minors in exploitative videos and photos **who otherwise might not have been identified**. In one case in Indiana, detectives ran images of **21 victims of the same offender** through Clearview's app and **received 14 IDs**, according to Charles Cohen, a retired chief of the state police. **The youngest was 13.***

"These were kids or young women, and we wanted to be able to find them to tell them we had arrested this guy and see if they wanted to make victim statements," Mr. Cohen said.

*Another official, a victim identification officer in Canada, who was not authorized to discuss investigations publicly, described Clearview's technology as **"the biggest***

breakthrough in the last decade” in the field of child sexual abuse crimes. [...]

*The app is being used by task forces in Florida, Indiana and South Dakota dedicated to investigating child abuse, as well as by the **Department of Homeland Security** and law enforcement in Canada. [...]*

Available on desktop and mobile

Clearview AI is an Internet search engine for faces. It only takes **one** photo of a suspect's face, **one** quick tap or click on your desktop or cell phone, and **one** second of search time. Get results from mug shots, social media, news articles, and millions of other publicly

available sources from the open web.

Clearview AI combines the cutting edge of facial recognition technology with our proprietary database of **over 3 billion images** from the open web. Our software can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo.

It only takes **one minute** to install and you can start searching immediately.

<!--[if (!mso)&(!IE)]>

<!--[if (!mso)&(!IE)]>

[Sign up now](#) for a **free 30-day trial** with **unlimited** searches and test this cutting edge technology for yourself.

If you haven't tried it yet, now's your chance

Clearview AI is an Internet search engine for faces. It only takes one photo of a suspect's face, one quick tap on your cell phone or computer, and one second of search time. Get results from mug shots, online profiles, news articles, and thousands of other publicly available sources.

Hundreds of law enforcement agencies nationwide use Clearview AI to solve crimes and save lives, ranging from local police to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and **rescue a 7-year-old girl**

- Crack a **32-year old unsolved homicide** case
- Bust a **multi-million dollar** credit card fraud operation
- And solve **hundreds** of other cases across the country

Click the button below to [sign up for your 30-day free trial](#) with **unlimited** searches. No strings attached. It only takes **one minute** to install and you can start searching **immediately**.

Important updates below

Image

Welcome to the Clearview AI newsletter.

This is our opportunity to keep you updated on the latest news about Clearview AI.

Thank you for searching with Clearview AI and please keep reading below:

<!--[if (!mso)&(!IE)]>

<!--[if (!mso)&(!IE)]>

Cybersecurity

Image

Security is our top priority, and we continue to fortify and upgrade our cybersecurity systems.

You may have noticed some new changes already, such as our log-in alerts. There will be more coming down the pipeline.

Remember to protect your Clearview AI account with a strong password that includes letters, numbers, and symbols. You can always update your password when you are logged in to Clearview on desktop using the menu on the left-hand side of the screen. Log in to Clearview AI [here](#).

UPDATE: A month ago, someone gained unauthorized access to our organization list. No passwords or any personally identifiable information were revealed. Our servers were not breached. Once identified, the issue was resolved and repaired within 24 hours.

<!--[if (!mso)&(!IE)]>

<!--[if (!mso)&(!IE)]>

Clearview AI is up & running 24/7

Clearview AI operates like search engines such as Google and Bing. The difference is we collect far less data than those global search engines. Clearview AI only indexes public images and their web addresses.

Our database of more than 3 billion publicly available images from the open web continues to grow, and you can continue to search it. Clearview AI does not index private or protected data. Our service remains as broad and fast as it has ever been.

Clearview is working to help government officials understand our technology, addressing all legal inquiries appropriately. Clearview AI operates in accordance with the U.S. Constitution and American law and are confident that nothing will affect your ability to use our product.

You can read our Legal White Paper by former Acting U.S. Attorney General and former U.S. Solicitor General Paul Clement [here](#).

<!--[if (!mso)&(!IE)]>

<!--[if (!mso)&(!IE)]>

Search integrity

Image

Clearview AI continues to develop tools and guidelines for responsible use and integrity.

Like all investigative tools, it's important that Clearview AI is used properly. Remember to read and abide by our Code of Conduct and Terms of Service. Administrators can access full audit logs for their organizations at all times, and can use our audit tools to ensure appropriate use.

The Indiana Intelligence Fusion Center has developed an excellent set of policies that may be

helpful to your department. You can find the IIFC guidelines [here](#).

<!--[if (!mso)&(!IE)]>

<!--[if (!mso)&(!IE)]>

Until next time. Stay safe.

Got questions? Contact your Clearview AI rep or shoot us an e-mail at help@clearview.ai

Alert Text

Try out Clearview for free here: <https://link.clearview.ai/FreeTrial-cd5>

Everyone expects face search to work when you have to compare two high quality headshots. But did you know Clearview can accurately match photos despite age, glasses, and more?

Check out the example images above!

Example 1: a mug shot that is searched with Clearview returns an accurate match from a group photo with a dozen other people in it. The match is at a side angle with part of the face covered. Clearview still matches it accurately.

Example 2: a photo of a man with glasses on is searched with Clearview. Clearview accurately matches a photo of the man without glasses.

Example 3: a blurry screenshot from 2016 CNN footage of a man with glasses is searched with Clearview. Clearview accurately matches the man to a documentary appearance from 1992 - 24 years before! As a bonus, Clearview again accurately matches the photos despite glasses.

No messing around, glasses removal software, or Photoshop required: Clearview does it all automatically.

It's definitely possible for a photo to be too low quality or obscured for a successful Clearview match. But you'd be surprised how powerful the technology can be. Clearview has accurately matched photos despite:

- Age
- Glasses
- Facial hair and hairstyles
- Headwear
- Side angles
- Low or high angles
- Poor lighting
- Group photos
- Mild facial obstruction
- And more.

We invite you to test the limits for yourself: Clearview is available to all law enforcement officers to trial for free with no strings attached. Try it out for yourself right now on desktop or mobile. Just click the link below:

Link: <https://link.clearview.ai/FreeTrial-cd5>

Over 600 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases, including right here on CrimeDex.

You can also click the Clearview banner at the bottom of this alert to try it out for free.

CAUTION: External Email

How it works

Image

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, news articles, and other publicly available sources.

Clearview combines the world's **most accurate** face search technology with the **single largest** proprietary database of facial images from open sources **worldwide** to help you ID a criminal suspect in an instant.

It only takes **one** minute to install and you can start searching immediately. Just click the button below to start your 30-day free trial with unlimited searches - no strings attached.

Try it out for free

Got questions or want to schedule a free webinar? Shoot us an e-mail at help@clearview.ai

Available on iPhone, Android, and Desktop

Image

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide.**

Image

Over 600 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police departments to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Crack a 32-year old unsolved homicide case
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

Solve crimes instantly and save lives

Clearview is like Google Search for faces. It only takes one photo of a suspect's face, one quick tap on your cell phone or computer, and one second of search time. Get results from mug shots, online profiles, news articles, and thousands of other publicly available sources with third-party tested **99% accuracy**.

Over 500 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police to state troopers to federal agencies. Our technology has enabled law enforcement to:

Break up an online child pornography ring and **rescue a 7-year-old girl**

- Crack a **32-year old unsolved homicide** case
- Bust a **multi-million dollar** credit card fraud operation
- And solve **hundreds** of other cases across the country

Click the button below to [sign up for your 30-day free trial](#) with **unlimited** searches. No strings attached. It only takes **one minute** to install and you can start searching **immediately**.

Alert Text

Try out Clearview for free here: <https://link.clearview.ai/FreeTrial-cd4>

Every second counts when the unthinkable happens. You may have seen Clearview's banner here on CrimeDex, but have you seen it in action? Here's a short case study of how Clearview identified an unknown suspect in a bomb scare in just seconds:

1. The suspect was captured on camera at the location of the crime. A still with his face visible was distributed for identification.
2. The still was searched with Clearview and it returned a similar result from an online profile in less than 5 seconds. This similar result was then itself searched with Clearview.

3. The similar result returned a match in seconds from a local news site out-of-state reporting on a crime committed by a man with the same name as the similar result.

Both local news and law enforcement eventually identified the suspect as the same man from both Clearview results. That man is now facing three felony charges of placing a false bomb.

And the best part? Clearview is available to all law enforcement officers to trial for free with no strings attached. Try it out for yourself right now on desktop or mobile. Just click the link below:

Link: <https://link.clearview.ai/FreeTrial-cd4>

Over 500 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases, including right here on CrimeDex.

You can also click the Clearview banner at the bottom of this alert to try it out for free.

Subject: Spam Notification: 1 New Messages
Date: Thursday, October 24, 2019 6:15:37 PM

Dear nicholas.kartes@seattle.gov:

Office 365 has prevented the delivery of 1 new messages to your inbox as of 10/25/2019 12:00:00 AM (UTC). You can review these here and choose what happens to them. You can also get more information about quarantined messages by going to the [Quarantine page in the Security and Compliance Center](#). You'll need to provide your work or school account to log in.

From this email, you can:

- **Preview** the message if you would like to preview the content or header prior to taking action.
- **Download** the message if you would like to review the message and attachments (if any) on your device prior to taking action.
- **Release to Mailbox** if the message isn't spam and you want Office 365 to send the message to your mailbox.
- **Release to Mailbox and Allow Sender** if the message isn't spam and you want Office 365 to add the sender to [your safe senders and recipients list](#) for future emails. Keep in mind that your admin may have other organization wide allow/block configurations that override your safe sender list.
- **Release to Mailbox and Report message to Microsoft** if the message isn't spam and you want to send the message to your mailbox and report it to Microsoft for analysis.
- **Block the sender** if you want Office 365 to add the sender to [your blocked senders list](#).

Subject: Free Trial from Clearview: Solve crimes instantly with Face Search
Date: Tuesday, October 22, 2019 7:05:40 AM

CAUTION: External Email

How it works

Image

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, news articles, and other publicly available sources.

Clearview combines the world's **most accurate** face search technology with the **single**

largest proprietary database of facial images from open sources **worldwide** to help you ID a criminal suspect in an instant.

It only takes **one** minute to install and you can start searching immediately. Just click the button below to start your 30-day free trial with unlimited searches - no strings attached.

Try it out for free

Got questions? Shoot us an e-mail at help@clearview.ai

Available on iPhone, Android, and Desktop

Image

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide.**

Image

Over 400 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police departments to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Crack a 32-year old unsolved homicide case
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

Alert Text

Try out Clearview for free here: <https://link.clearview.ai/FreeTrial-cd3>

You may have seen Clearview's banner here on CrimeDex, but do you know how we get you so many life-saving results so fast? The secret sauce is in the data:

Our proprietary database has nearly 3 billion facial images. Each time you upload a photo to Clearview on your cell phone or computer, our software searches all 3 billion of those images in less than 5 seconds.

Then, it instantly shows you the most accurate matches with names, links, and metadata so you can investigate the new leads. (See attached image #1)

Where do our images come from? 100% of our database is sourced from publicly available, open sources on the web. We're talking literally thousands and thousands of sources, including:

- Mug shot/booking photo databases from all over the country
- Social media sites worldwide
- Work and company profiles
- Local, national, and international news articles
- And much, much more!

It gets better: our database is also rapidly expanding 24/7. Every day, we add 40-50 million new images for you to search with Clearview. If you didn't get a match with Clearview yesterday, you might tomorrow. With our automated alerts system, you won't even need to redo your searches manually.

Nobody else has this unique collection of data (See attached image #2). The only way to search it is with Clearview and we've made it possible to search it instantly an unlimited number of times.

And the best part? Clearview is available to all law enforcement officers to trial for free with no strings attached. Try it out for yourself right now on desktop or mobile. Just click the link below:

Link: <https://link.clearview.ai/FreeTrial-cd3>

Over 400 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases, including right here on CrimeDex.

You can also click the Clearview banner at the bottom of this alert to try it out for free.

Subject: RE: Refer your colleagues to Clearview
Date: Monday, September 30, 2019 6:22:00 AM

Good morning –

Is it possible to speak to someone via telephone regarding Clearview? I have downloaded the application to my phone and done some experimenting with it (often times with great success!), but have some questions relating to the security of the program and of the company itself.

I would love to advocate for the program if all is well, as I have many connections in the Northwest region surrounding Seattle. Before doing so, however, I would like to speak to someone who can assure me of the security aspects of the company and program, as well as provide an overview of the company. Obviously – and I'd assume with great intention – the website is extremely minimalistic, and had I not been directed to it by a colleague from afar, I never would have known about it. That does leave a lot to the imagination, so some additional information about the company as a whole would be great.

I'm extremely thankful that Clearview was brought to my attention, and I'm sure that others will feel the same, if I'm able to advocate on the company's behalf if all proves to be well. I can be reached at my desk at 206-386-1879, of if there is a number for me to call during business hours, please advise.

Thank you,

DETECTIVE NICK KARTES

CAUTION: External Email

Hi Detective Nick Kartes,

Do you know any law enforcement officers who should try out Clearview? Just click or tap "Invite User" on the left-hand side of the screen when you're logged in to Clearview on desktop or mobile to refer them.

We'll get them set up with a free Clearview demo account immediately. Feel free to refer **as**

many officers and investigators as you want. No limits. The more people searching, the more successes.

You can also send them the link to our website at www.clearview.ai and tell them to click the "Request Access" button, or send us their names and e-mail addresses by replying to this email or by sending an email to help@clearview.ai and we'll set them up.

Feel free to reach out to if you have any questions, comments, or feedback. Just reply to this e-mail or contact help@clearview.ai

Best regards,

Date: Saturday, September 28, 2019 6:49:47 AM

CAUTION: External Email

Hi Detective Nick Kartes,

Do you know any law enforcement officers who should try out Clearview? Just click or tap "Invite User" on the left-hand side of the screen when you're logged in to Clearview on desktop or mobile to refer them.

We'll get them set up with a free Clearview demo account immediately. Feel free to refer **as many officers and investigators** as you want. No limits. The more people searching, the more successes.

You can also send them the link to our website at www.clearview.ai and tell them to click the "Request Access" button, or send us their names and e-mail addresses by replying to this email or by sending an email to help@clearview.ai and we'll set them up.

Feel free to reach out to if you have any questions, comments, or feedback. Just reply to this e-mail or contact help@clearview.ai

Best regards,

—Team Clearview

Subject: Can you get to 100 searches with Clearview?
Date: Friday, September 27, 2019 6:48:45 AM

CAUTION: External Email

Hi Detective Nick Kartes,

Your Clearview account has **unlimited** searches. Don't stop at one search. Or ten. **Try to reach 100 searches with Clearview.**

Investigators who do 100+ Clearview searches have the best chances of **successfully solving crimes** with Clearview in our experience. It's the best way to thoroughly test the technology. You never know when a search will turn up a match. It only takes 1-5 seconds to find out with Clearview, unlike other facial identification systems.

The more searches, the more matches. It's a numbers game. The investigators who search the most are the investigators who solve the most cases. Our proprietary database is the biggest in the world and gets bigger every day. Every new day means more potential results from Clearview.

Feel free to reach out to if you have any questions, comments, or feedback. Just reply to this e-mail or contact help@clearview.ai

Best regards,

—Team Clearview

Subject: How to use Clearview
Date: Thursday, September 26, 2019 6:48:28 PM

CAUTION: External Email

Hi Detective Nick Kartes,

You should have a setup email in your inbox shortly. It only takes one minute to install and start searching.

Here are three important tips for using Clearview:

- 1. Search a lot.** Your Clearview account has **unlimited** searches. Don't stop at one search. See if you can reach 100 searches. It's a numbers game. Our database is always expanding and you never know when a photo will turn up a lead. Take a selfie with Clearview or search a celebrity to see how powerful the technology can be.
- 2. Refer your colleagues.** The more people that search, the more successes. We want to make this advanced technology available to as many investigators as possible. If you think your colleagues might want to try Clearview out for themselves, just send their names and e-mail addresses to help@clearview.ai and we'll sign them all up too.
- 3. Get Clearview for the long haul.** If you like Clearview at the end of your trial period and it's helping you solve cases, put us in touch with the appropriate person at your organization who can proceed with procurement.

Feel free to reach out to if you have any questions, comments, or feedback. Just reply to this e-mail or contact help@clearview.ai

Finally, please note the disclaimer at the bottom.

Best regards,

— Team Clearview

You may have seen Clearview's banner here on CrimeDex, but have you seen it in action? We spoke to a local law enforcement officer who identified a possible victim and suspect in a human trafficking case in just seconds using Clearview's face search technology.

Here's how it unfolded:

1. The detective received a photo of a woman that was used to advertise sexual services for

prostitution online (see image #1 above - identifying details in this case study have been pixelated to protect possible victim's identity).

2. The officer searched the photo with Clearview's face search technology and got 17 matches within seconds (see image #2). The matches were immediately corroborated through matching online handles.

3. The matches also led to online profiles featuring the woman and another man using the same moniker in his handle. As the officer said: "From training and experience, many prostitutes use the same moniker of their pimp's name in their social media handles." (See image #3 above.)

4. The detective searched the man with Clearview and instantly got 26 matches, including a mug shot from a previous arrest. The matches were instantly corroborated by extensive matching tattoos. (See image #4 above).

These leads were passed along to the investigating detectives in the local jurisdiction where they were advertising that the woman may be a victim of human trafficking.

The officer said: "Clearview has broken doors down for us with investigations, which would not have been possible to do only a year ago. Clearview is a must-have tool for any investigator to add to their toolbox!"

"By adding Clearview to our toolset, it has become a vital asset for us to complete our daily tasks at work to assist our agency as well as surrounding agencies with their investigations."

Clearview is available to all law enforcement officers to trial for free with no strings attached. Try it out for yourself right now on desktop or mobile. Just click the link below:

Link: <https://link.clearview.ai/FreeTrial-cd2>

Over 300 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases, including right here on CrimeDex.

You can also click the Clearview banner at the bottom of this alert to try it out for free.

Try out Clearview for free here: <https://link.clearview.ai/CrimeDex>

Getting an ID on an unknown suspect can be tough. But now it can take as little as one second using the cutting edge of facial identification software: Clearview. It's like Google Search for faces. You may have seen Clearview's banner here on CrimeDex, but do you know how it works?

The process only takes three simple steps.

Step 1: Find a photo of a suspect's face. (Check out the alert image above.)

A clear, frontal photo works best, but it doesn't have to be perfect. The software can ID a suspect even if he grows a beard, wears glasses, or appears in low light.

Step 2: Upload the photo to the Clearview app.

Using your cell phone or computer, just upload the photo to the app. You can also take a new photo with your camera or screenshot an existing photo. Clearview automatically finds the suspect's face in the photo.

Step 3: Check your search results for a match.

Clearview instantly shows you the best matches from our proprietary database of nearly 2 billion faces collected from carefully vetted, publicly available sources.

Over 120 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases. Clearview has helped solve dozens of cases right here on CrimeDex.

Try it out for yourself right now. Just click the link below to try it out for free with no strings attached.
