Hydroxychloroquine, Azithromycin and COVID-19

OVERSIGHT BOARD'S RECOMMENDATION	FACEBOOK'S RESPONSE
Clarify the Community Standards with respect to health misinformation, particularly with regard to COVID-19. Facebook should set out a clear and accessible Community Standard on health misinformation, consolidating and clarifying existing rules in one place.	Committed to action
Facebook should 1) publish its range of enforcement options within the Community Standards, ranking these options from most to least intrusive based on how they infringe freedom of expression, 2) explain what factors, including evidence-based criteria, the platform will use in selecting the least intrusive option when enforcing its Community Standards to protect public health, and 3) make clear within the Community Standards what enforcement option applies to each rule.	Committed to action
To ensure enforcement measures on health misinformation represent the least intrusive means of protecting public health, Facebook should clarify the particular harms it is seeking to prevent and provide transparency about how it will assess the potential harm of particular content.	Committed to action
To ensure enforcement measures on health misinformation represent the least intrusive means of protecting public health, Facebook should conduct an assessment of its existing range of tools to deal with health misinformation and consider the potential for development of further tools that are less intrusive than content removals.	Committed to action
In cases where users post information about COVID-19 treatments that contradicts the specific advice of health authorities and where a potential for physical harm is identified but is not imminent, Facebook should adopt a range of less intrusive measures.	No further action
Publish a transparency report on how the Community Standards have been enforced during the COVID-19 global health crisis.	Committed to action
Conduct a human rights impact assessment with relevant stakeholders as part of its process of rule modification.	Committed to action
