

FBI research on Complainant Douglas showed that there was no longer proof of life regarding Complainant Douglas. In addition, Detective Montenegro has been in constant contact with his family and to date they have not heard from him.

Suspect Kilpatrick stated that about two weeks after Complainant Douglas' murder, sometime during February 2017, the suspect called the witness and gave him another job to have another individual kidnapped and killed. The suspect provided the witness with a description and location where Complainant Saenz could be located. The same method of operation was used to locate and kill Complainant Saenz. The suspect also told the witness that she was an "informant". Both complainants were taken to the same area where they were shot and killed and dumped in the Trinity River. The suspect agreed to pay the witness \$6000.00; however, the agreed amount was not paid because the witness and his associates were arrested on other Capital Murder offenses.

On October 9, 2019, Detective Montenegro received the preliminary Cell Site Location analysis performed by FBI. The analysis revealed that the suspect's cell phone placed him in or about the area during the time frame of Complainant Douglas' and Complainant Saenz' disappearance and killing.

FBI analysis placed the suspect's cell phone and squad car at the locations where the witness stated they met and planned the kidnapping of both complainants. Due to the sensitive and extensive nature of this case, the entire facts and evidence have not been included in this affidavit.
