

Interviews with 1,017 adult Americans conducted by telephone by ORC International on July 22-25, 2015. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample also includes 898 interviews among registered voters (plus or minus 3.5 percentage points).

This sample includes 615 interviews among landline respondents and 402 interviews among cell phone respondents.

**EMBARGOED FOR RELEASE:
Sunday, July 26 at 9:00 a.m.**

3. We'd like to get your overall opinion of some people in the news. As I read each name, please say if you have a favorable or unfavorable opinion of these people -- or if you have never heard of them. (RANDOM ORDER)

METHODOLOGY

A total of 1,017 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 29% described themselves as Democrats, 22% described themselves as Republicans, and 49% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 3A

We'd like to get your overall opinion of some people in the news. As I read each name, please say if you have a favorable or unfavorable opinion of these people -- or if you have never heard of them.

A. Hillary Clinton
