D. WOULD YOU SUPPORT LITIGATION DIRECTED AT THE FEDERAL GOVERNMENT AND OTHERS SEEKING RESTORATION AND RESTITUTION FOR THE DESTRUCTION OF MONTANA'S GAME HERDS, AFFECTED BUSINESSES & COMMUNITIES AND CRIMINAL AND/OR CIVIL CHARGES TOWARD THOSE WHO ARE RESPONSIBLE FOR THE ENVIRONMENTAL CATASTROPHE BROUGHT ON BY FORCED WOLF INTRODUCTION?

YES  NO

2. Most experts agree that as our population grows along with energy needs, a "kitchen sink" approach to energy development and efficiency must be employed. However, debate rages about handicapping traditional fuels while subsidizing more costly alternatives with taxpayer dollars.

A. WILL YOU OPPOSE LEGISLATION WHICH ATTEMPTS TO CATEGORICALLY LIMIT ACCESS TO AND DEVELOPMENT OF CERTAIN ENERGY RESOURCES?

YES  NO

B. WILL YOU OPPOSE ANY ATTEMPT TO RESTRICT CONSUMER ACCESS TO A MARKET-BASED, LOWEST-COST ENERGY PORTFOLIO?

YES  NO

C. WILL YOU OPPOSE ANY LEGISLATION OR ATTEMPT TO INCREASE TAXES OR TAXPAYER-FUNDED SUBSIDIES FOR "ALTERNATIVE" ENERGY PROJECTS?

privacy and government intrusion. Under the current scheme, this tax is then rebated (if paperwork is properly submitted), but many object to the bureaucratic paperwork and government purse strings for what is a local, private, environmentally friendly energy solution.

**WILL YOU SUPPORT LEGISLATION TO REPEAL THE TAX ON BIODIESEL PRODUCED FOR NON-RESALE, NON-HIGHWAY, ON-SITE USE?**

YES  NO

- 9. The so-called "Clean Water Restoration Act" (H.R. 2421) and its Senate companion bill (S.1870) is now in Congress goes far beyond the original Clean Water Act, whose prosecutorial powers Federal agencies have repeatedly wielded even in cases related to dry, landlocked property (see *Rapanos v. U.S.*). H.R. 2421 would create new, sweeping Federal jurisdiction over all Montana water, including any wetlands, sloughs, prairie potholes, wet meadows, playa lakes, natural ponds, and related impoundments, regardless of proximity to navigable waters, and no matter how small, remote, or where they are located. This jurisdiction would likely extend to ground waters due to the recent Montana Supreme Court *Smith River* decision, which established a "connectivity" doctrine between ground water and surface water.

**WILL YOU SPONSOR, CO-SPONSOR, OR SUPPORT LEGISLATION TO OPPOSE AND/OR NULLIFY H.R. 2421 and S.1870, THE FEDERAL GOVERNMENT'S ATTEMPT TO ESTABLISH JURISDICTION OVER ALL WATER IN THE STATE OF MONTANA?**

YES  NO

- 10. National Forests in Montana have experienced catastrophic forest fires in the recent past due to overgrowth and lack of management, with risk conditions exacerbated by the Pine Bark Beetle devastation. According to a report by University of Maryland forest expert Robert Nelson, one-quarter of Montana's forests were closed in 2007 due to forest fires. A combination of environmental lawsuits and delays in permitting are preventing proper management of the problem.

**WILL YOU SPONSOR, CO-SPONSOR OR SUPPORT A RESOLUTION STREAMLINING PERMITTING OF FUEL REDUCTION PROJECTS IN OUR NATIONAL FORESTS?**

YES  NO

- 11. Opponents of the Mountain States Transmission Intertie (MSTI) power line being built between Townsend, MT, and Twin Falls, ID to transport experimental energy (unreliable and intermittent wind power) object because, among other reasons, this "public" project should use the geographically suitable lands already owned by the "public" and should not further encroach upon the lands of ranchers, farmers, and other landowners. Do you support or oppose the use of eminent domain (a.k.a. "condemnation") of private property to secure rights of way for the MSTI power line?

**WILL YOU SPONSOR, CO-SPONSOR OR SUPPORT A RESOLUTION STREAMLINING PERMITTING OF FUEL REDUCTION PROJECTS IN OUR NATIONAL FORESTS?**

YES  NO *Question does not address comment*

- 12. New York City Congresswoman Carolyn McCarthy's *Northern Rockies Ecosystem Protection Act*, or NREPA (a.k.a. H.R. 980), and U.S. Senator Jon Tester's S. 1470 are only two examples of attempts by radical environmentalists to declare millions of acres of the West as so-called "Wilderness Areas", which virtually bans human activity in these areas. Wheelchairs and bicycles are even prohibited as "mechanized travel" under "Wilderness" rules, as are any recreational vehicles, and even equipment needed to prevent the spread of catastrophic wildfire to these intentionally mismanaged, fuel-laden forests. This ultimately harms wildlife and destroys the peoples' rights to the economic, quality of life benefits of multiple use of these "public" lands.

**WILL YOU SUPPORT LEGISLATION WHICH WOULD BAN THE CREATION OF NEW SO-CALLED "ROADLESS WILDERNESS AREAS", AND WHICH WOULD ASSERT STATE LEGISLATIVE CONTROL OVER FOREST LANDS WITHIN MONTANA'S**

- 13. Many political and public figures who are advocates for "renewable" or "alternative" energy (e.g. wind, ethanol, solar, etc.) have a vested financial or other interest in that industry's success. WTP and other watchdog organizations advocate for disclosure and transparency of the "green" and "carbon trade" industries, since government mandates are the chief driver of demand for these experimental energy schemes.

**WOULD YOU OR ANY IMMEDIATE FAMILY MEMBER OR BUSINESS ASSOCIATE STAND TO GAIN FINANCIALLY OR OTHERWISE, FROM A DECREASE IN AVAILABILITY OF REASONABLE PRICED OIL AND GAS, OR FROM A GOVERNMENT-MANDATED (OR OTHER NON-MARKET-BASED) OR PUBLICLY FUNDED ALTERNATIVE OR RENEWABLE ENERGY PROJECT?**

\_\_\_\_\_ YES  NO

- 14. Radical anti-growth activists, using materials based in part upon the U.N.'s anti-capitalist, anti-sovereignty Agenda 21 "sustainable development" program, have been lobbying county officials across Montana and the U.S. to implement growth policies and zoning ordinances which effectively strip property owners of their rights without due process. Once enacted, these measures may shut down the ability to manage and utilize one's own land for even basic uses such as agriculture, housing, grazing, subdividing, etc. and jeopardize owners' ability to stay on their land.

**WILL YOU SUPPORT LEGISLATION STRENGTHENING THE ABILITY OF LANDOWNERS TO PREVENT AND PROTEST COUNTY GROWTH POLICIES AND ZONING WHICH WOULD LIMIT THE LEGITIMATE USE OF THEIR PROPERTY?**

YES \_\_\_\_\_ NO

- 15. Frustrated by Washington, D.C.'s control over much of their state, Utah's Governor Gary R. Herbert in March 2010 passed a bill allowing the use of eminent domain to take protected land from the federal government, and utilize it as the state sees fit. Approximately 60% of Utah's land mass is controlled by the Federal Government, with the figure at 30% for Montana.

**WILL YOU SUPPORT LEGISLATION MODELED AFTER UTAH'S NEW LAWS AUTHORIZING THE STATE OF MONTANA TO USE EMINENT DOMAIN TO REGAIN CONTROL OF LANDS TAKEN BY FEDS WITHIN ITS OWN STATE BORDERS?**

YES \_\_\_\_\_ NO

- 16. Polls show that, while taxpayers and consumers desire to protect the environment, the vast majority oppose a global warming tax or any such "carbon tax" style penalty.

**WILL YOU SPONSOR, CO-SPONSOR, OR SUPPORT LEGISLATION THAT WOULD NULLIFY THE FEDERAL PASSAGE OF A CARBON TAX, A TAX ON EMISSIONS (SUCH AS A TAX ON THE OPERATION OF DIESEL PICKUPS/VEHICLES), OR ANY TAX OR PENALTY THAT WOULD PURPORT TO OFFSET OR MITIGATE THE EFFECTS OF "GLOBAL WARMING" AND WILL YOU OPPOSE ANY ATTEMPT TO PASS SUCH A PENALTY AT THE STATE LEGISLATIVE LEVEL?**

YES \_\_\_\_\_ NO

**(IF YOUR ANSWER IS YES, PLEASE ALSO COMPLETE AND SIGN THE ENCLOSED "NO GLOBAL WARMING PENALTY PLEDGE")**

- 3. Currently, the judicial system is being manipulated by eco-extremists in order to block responsible energy development, land development and even forest fuel reduction projects, often without establishing *prima facie* justification for their lawsuits. Such legal actions are designed to use legal fees, costs and technical hurdles - rather than merits of the case - to stop the targeted development, with no risk to the plaintiff. A "loser pay" arrangement, where the plaintiff must show sufficient resources to cover legal fees and damages to the developer, would help prevent such frivolous lawsuits by making the plaintiff pay fees and damages in cases of a suit found lacking merit.

**WILL YOU SPONSOR, CO-SPONSOR OR SUPPORT A BILL TO REINFORCE "LOSER PAY" FOR ENVIRONMENTAL LAWSUITS FOUND FRIVOLOUS OR WITHOUT MERIT?**

YES  NO

- 4. Currently, plaintiffs are allowed to cherry-pick "friendly" court venues and jurists (often choosing Helena courts) to stop fuel reduction and development projects - venues far outside the affected area. The judges in these cases do not represent citizens and interests affected by the lawsuits.

**WILL YOU SPONSOR, CO-SPONSOR OR SUPPORT A BILL REQUIRING ENVIRONMENTAL LAWSUITS TO BE HEARD IN THE DISTRICT WHERE THE DEVELOPMENT AND/OR THE ALLEGED DAMAGES OCCUR?**

YES  NO *All ready in Statute HB 387 2003*

- 5. The Board of Environmental Review (BER) is working to change emission standards - which de facto eliminates any new coal-fired electric generation projects in the state of Montana - without legislative approval or review. These policy changes have far-reaching effects on our environment, economy and jobs, and energy availability. The BER is appointed, not elected - therefore, such changes effectively remove the people of Montana from an important public policy process. Many believe that changes to environmental standards should be subject to the accountable, deliberative process in the Legislature.

**WILL YOU SPONSOR, CO-SPONSOR, OR SUPPORT A BILL THAT WOULD REQUIRE CHANGES TO STATEWIDE ENVIRONMENTAL STANDARDS TO BE APPROVED IN LAW BY THE STATE LEGISLATURE, FOLLOWING PROPOSAL BY AN AGENCY?**

YES  NO

- 6. State and local property tax mills are literally driving some Montanans from their homes and ranches. Considering Montana's massive, untapped clean-burning coal reserves, one solution proposed as a long-term fix would decrease statewide/local school-related property tax mills, replacing the revenues with additional severance taxes and royalties derived from increased natural resource production (above the current amount) to school funding. In Wyoming, a similar program pays 90% of all property taxes, providing billions in revenues for schools, infrastructure etc.

**WILL YOU SPONSOR, CO-SPONSOR, OR SUPPORT LEGISLATION THAT WOULD ENCOURAGE INCREASED RESPONSIBLE NATURAL RESOURCE DEVELOPMENT BY REDUCING SEVERANCE TAXES, AND DEDICATE ANY RESULTING INCREASE IN SEVERANCE TAX REVENUES TO OFFSET STATE/LOCAL PROPERTY TAX MILLS FOR SCHOOL FUNDING (WITHOUT HIKING TAX RATES)?**

YES  NO *Majority of O&G taxes  
severance tax already  
goes to County local  
schools*

- 7. According to longstanding policy, Montana has allowed an 18-month tax holiday on horizontal drilling units for new resource extraction equipment (drilling rigs, etc.), and a 12-month holiday for vertical units. This has allowed the capital-intensive process of resource extraction to establish successful operations and wellheads while the companies reinvest in jobs and equipment in Montana, ultimately increasing long-term revenues to the State of Montana through severance taxes and royalties.

**WILL YOU OPPOSE LEGISLATION THAT WOULD RESCIND, REDUCE OR SHORTEN THE TAX HOLIDAY ON OIL & GAS WELLS?**

YES  NO

- 8. Under current law, farmers, ranchers and others who produce biodiesel on private property, and who use the fuel for their own on-farm, non-highway use, are taxed on every gallon. Further, the state asserts the right to enter and inspect the premises of such producers, which raises concerns of

Hello,

As you already know, the 2010 Primary Election is almost at hand. As I have gone down this road for the first time, I have learned a lot. The best part was meeting so many new people. My travels with the Ringling 5 have brought me to all the corners of Montana and I have met many wonderful people. The people of Park and Sweet Grass Counties are no different!

I am running for State Senate District #31 because I can make a difference in Helena. My experience running a ranch for the last thirty years plus my participation in many other organizations will give me a running start in our state legislature. I will bring a common sense approach to this position.

It is time to vote. I thank you for your participation in this year's Primary. I would appreciate your vote! Thank you.

Sincerely,

*Ron Arthun*

2010 Candidate Survey

It is the Right to Work Law provides that no union can be established because of a job, shop, or place of employment or industry. Such a law guarantees that each individual can choose whether or not to join or financially support a union.

WILL YOU OPPOSE ANY ATTEMPT TO IMPROVE A LAW THAT PROTECTS THE RIGHT TO WORK?

YES  NO

2. UNION OFFICIALS HAVE UNLAWFULLY SOUGHT TO GAIN BARGAINING POWER OVER public employees. In seeking such powers, union officials have not sought to bargain solely for those government workers who would join a union. Instead, they also demand the monopoly power to bargain for every person employed under a contract - including those individuals who do not desire union representation. Opp this contract Right to Work guarantees to many our freedom of choice by preventing union officials.

WILL YOU OPPOSE ANY ATTEMPT TO IMPROVE A LAW THAT PROTECTS THE RIGHT TO WORK?

YES  NO

"Agency shop" means a contract bargaining agreement compels workers who choose not to join a union to pay the equivalent of monthly dues to labor unions. Workers are forced to pay the "agency fee" under the threat of dismissal.

WILL YOU OPPOSE ANY ATTEMPT TO IMPROVE A LAW THAT PROTECTS THE RIGHT TO WORK?

YES  NO

3. Currently in Montana, state law authorizes the use of state funds to pay for services, which are provided to all workers under a contract. This is a violation of the Right to Work Law because that most workers are coerced into union and lead to high spending and higher taxes.

WILL YOU OPPOSE ANY ATTEMPT TO IMPROVE A LAW THAT PROTECTS THE RIGHT TO WORK REGARDLESS OF WHETHER OR NOT THESE EMPLOYEES PAY DUES TO A UNION OFFICIAL?

YES  NO

Additional Comments: At no time in our countries history have we see the coercion between large labor and our Executive branch of Govt. This is not our constitutional and legal.

1. 16 years ago the U.S. Fish and Wildlife Service and the National Park Service proposed to the U.S. Congress to introduce 78 - 100 wolves within the Yellowstone Ecosystem. In response, Congress ordered, essentially: "1) Don't harm hunting 2) don't harm ranching 3) don't hurt the local economies, 4) don't have any effect on other endangered species." Furthermore, 87-1-217, MCA, requires the Department of Fish, Wildlife, and Parks to manage large predators, including wolves, with the primary goals to 'preserve citizens' opportunities to hunt large game species, to protect humans, livestock, and pets, and to preserve and enhance the safety of the public during outdoor recreational and livelihood activities.' Dr L. David Mech, Ph.D., H.D.A the top federal wolf biologist testified in his declaration to the federal courts on May 2008 that there are now at least 3,000 wolves instead of the 78 to 100 that was introduced in this "non essential experiment". It is now estimated that up to 2/3 of Montana's elk herd have been destroyed by wolves.

A. WILL YOU OPPOSE LEGISLATION WHICH ATTEMPTS TO CATEGORICALLY LIMIT ACCESS TO AND DEVELOPMENT OF CERTAIN ENERGY RESOURCES?

  X   YES                      \_\_\_\_\_ NO

B. WILL YOU OPPOSE ANY ATTEMPT TO RESTRICT CONSUMER ACCESS TO A MARKET-BASED, LOWEST-COST ENERGY PORTFOLIO?

  X   YES                      \_\_\_\_\_ NO

C. WILL YOU OPPOSE ANY LEGISLATION OR ATTEMPT TO INCREASE TAXES OR TAXPAYER-FUNDED SUBSIDIES FOR "ALTERNATIVE" ENERGY PROJECTS?

  X   YES                      \_\_\_\_\_ NO

3. Currently, the judicial system is being manipulated by eco-extremists in order to block responsible energy development, land development and even forest fuel reduction projects, often without establishing *prima facie* justification for their lawsuits. Such legal actions are designed to use legal fees, costs and technical hurdles - rather than merits of the case - to stop the targeted development, with no risk to the plaintiff. A "loser pay" arrangement, where the plaintiff must show sufficient resources to cover legal fees and damages to the developer, would help prevent such frivolous lawsuits by making the plaintiff pay fees and damages in cases of a suit found lacking merit.

**WILL YOU SPONSOR, CO-SPONSOR OR SUPPORT A BILL TO REINFORCE "LOSER PAY" FOR ENVIRONMENTAL LAWSUITS FOUND FRIVOLOUS OR WITHOUT MERIT?**

YES  NO

4. Currently, plaintiffs are allowed to cherry-pick "friendly" court venues and jurists (often choosing Helena courts) to stop fuel reduction and development projects - venues far outside the affected area. The judges in these cases do not represent citizens and interests affected by the lawsuits.

**WILL YOU SPONSOR, CO-SPONSOR OR SUPPORT A BILL REQUIRING ENVIRONMENTAL LAWSUITS TO BE HEARD IN THE DISTRICT WHERE THE DEVELOPMENT AND/OR THE ALLEGED DAMAGES OCCUR?**

YES  NO

5. The Board of Environmental Review (BER) is working to change emission standards - which de facto eliminates any new coal-fired electric generation projects in the state of Montana - without legislative approval or review. These policy changes have far-reaching effects on our environment, economy and jobs, and energy availability. The BER is appointed, not elected - therefore, such changes effectively remove the people of Montana from an important public policy process. Many believe that changes to environmental standards should be subject to the accountable, deliberative process in the Legislature.

**WILL YOU SPONSOR, CO-SPONSOR, OR SUPPORT A BILL THAT WOULD REQUIRE CHANGES TO STATEWIDE ENVIRONMENTAL STANDARDS TO BE APPROVED IN LAW BY THE STATE LEGISLATURE, FOLLOWING PROPOSAL BY AN AGENCY?**

YES  NO

6. State and local property tax mills are literally driving some Montanans from their homes and ranches. Considering Montana's massive, untapped clean-burning coal reserves, one solution proposed as a long-term fix would decrease statewide/local school-related property tax mills, replacing the revenues with additional severance taxes and royalties derived from increased natural resource production (above the current amount) to school funding. In Wyoming, a similar program pays 90% of all property taxes, providing billions in revenues for schools, infrastructure etc.

**WILL YOU SPONSOR, CO-SPONSOR, OR SUPPORT LEGISLATION THAT WOULD ENCOURAGE INCREASED RESPONSIBLE NATURAL RESOURCE DEVELOPMENT BY REDUCING SEVERANCE TAXES, AND DEDICATE ANY RESULTING INCREASE IN SEVERANCE TAX REVENUES TO OFFSET STATE/LOCAL PROPERTY TAX MILLS FOR SCHOOL FUNDING (WITHOUT INKING TAX RATES)?**

YES  NO

7. According to longstanding policy, Montana has allowed an 18-month tax holiday on horizontal drilling units for new resource extraction equipment (drilling rigs, etc.), and a 12-month holiday for vertical units. This has allowed the capital-intensive process of resource extraction to establish successful operations and wellheads while the companies reinvest in jobs and equipment in Montana, ultimately increasing long-term revenues to the State of Montana through severance taxes and royalties.

**WILL YOU OPPOSE LEGISLATION THAT WOULD RESCIND, REDUCE OR SHORTEN THE TAX HOLIDAY ON OIL & GAS WELLS?**

YES  NO

undecided

8. Under current law, farmers, ranchers and others who produce biodiesel on private property, and who use the fuel for their own on-farm, non-highway use, are taxed on every gallon. Further, the state asserts the right to enter and inspect the premises of such producers, which raises concerns of

privacy and government intrusion. Under the current scheme, this tax is then rebated (if paperwork is properly submitted), but many object to the bureaucratic paperwork and government purse strings for what is a local, private, environmentally friendly energy solution.

**WILL YOU SUPPORT LEGISLATION TO REPEAL THE TAX ON BIODIESEL PRODUCED FOR NON-RESALE, NON-HIGHWAY, ON-SITE USE?**

YES  NO

9. The so-called "Clean Water Restoration Act" (H.R. 2421) and its Senate companion bill (S.1870) is now in Congress goes far beyond the original Clean Water Act, whose prosecutorial powers Federal agencies have repeatedly wielded even in cases related to dry, landlocked property (see *Rapanos v. U.S.*). H.R. 2421 would create new, sweeping Federal jurisdiction over all Montana water, including any wetlands, sloughs, prairie potholes, wet meadows, playa lakes, natural ponds, and related impoundments, regardless of proximity to navigable waters, and no matter how small, remote, or where they are located. This jurisdiction would likely extend to ground waters due to the recent Montana Supreme Court *Smith River* decision, which established a "connectivity" doctrine between ground water and surface water.

**WILL YOU SPONSOR, CO-SPONSOR, OR SUPPORT LEGISLATION TO OPPOSE AND/OR NULLIFY H.R. 2421 and S.1870, THE FEDERAL GOVERNMENT'S ATTEMPT TO ESTABLISH JURISDICTION OVER ALL WATER IN THE STATE OF MONTANA?**

YES  NO  undecided

10. National Forests in Montana have experienced catastrophic forest fires in the recent past due to overgrowth and lack of management, with risk conditions exacerbated by the Pine Bark Beetle devastation. According to a report by University of Maryland forest expert Robert Nelson, one-quarter of Montana's forests were closed in 2007 due to forest fires. A combination of environmental lawsuits and delays in permitting are preventing proper management of the problem.

**WILL YOU SPONSOR, CO-SPONSOR OR SUPPORT A RESOLUTION STREAMLINING PERMITTING OF FUEL REDUCTION PROJECTS IN OUR NATIONAL FORESTS?**

YES  NO

11. Opponents of the Mountain States Transmission Intertie (MSTI) power line being built between Townsend, MT, and Twin Falls, ID to transport experimental energy (unreliable and intermittent wind power) object because, among other reasons, this "public" project should use the geographically suitable lands already owned by the "public" - and should not further encroach upon the lands of ranchers, farmers, and other landowners. Do you support or oppose the use of eminent domain (a.k.a. "condemnation") of private property to secure rights of way for the MSTI power line?

**WILL YOU SPONSOR, CO-SPONSOR OR SUPPORT A RESOLUTION STREAMLINING PERMITTING OF FUEL REDUCTION PROJECTS IN OUR NATIONAL FORESTS?**

YES  NO *what is the question*

12. New York City Congresswoman Carolyn McCarthy's *Northern Rockies Ecosystem Protection Act*, or NREPA (a.k.a. H.R. 980), and U.S. Senator Jon Tester's S. 1470 are only two examples of attempts by radical environmentalists to declare millions of acres of the West as so-called "Wilderness Areas", which virtually bans human activity in these areas. Wheelchairs and bicycles are even prohibited as "mechanized travel" under "Wilderness" rules, as are any recreational vehicles, and even equipment needed to prevent the spread of catastrophic wildfire to these intentionally mismanaged, fuel-laden forests. This ultimately harms wildlife and destroys the peoples' rights to the economic, quality of life benefits of multiple use of these "public" lands.

**WILL YOU SUPPORT LEGISLATION WHICH WOULD BAN THE CREATION OF NEW SO-CALLED "ROADLESS WILDERNESS AREAS", AND WHICH WOULD ASSERT STATE LEGISLATIVE CONTROL OVER FOREST LANDS WITHIN MONTANA'S**

SUPPORT  OPPOSE

13. Many political and public figures who are advocates for "renewable" or "alternative" energy (e.g. wind, ethanol, solar, etc.) have a vested financial or other interest in that industry's success. WTP and other watchdog organizations advocate for disclosure and transparency of the "green" and "carbon trade" industries, since government mandates are the chief driver of demand for these experimental energy schemes.

WOULD YOU OR ANY IMMEDIATE FAMILY MEMBER OR BUSINESS ASSOCIATE STAND TO GAIN FINANCIALLY OR OTHERWISE, FROM A DECREASE IN AVAILABILITY OF REASONABLE PRICED OIL AND GAS, OR FROM A GOVERNMENT-MANDATED (OR OTHER NON-MARKET-BASED) OR PUBLICLY FUNDED ALTERNATIVE OR RENEWABLE ENERGY PROJECT?

\_\_\_\_\_ YES X NO

- 14. Radical anti-growth activists, using materials based in part upon the U.N.'s anti-capitalist, anti-sovereignty Agenda 21 "sustainable development" program, have been lobbying county officials across Montana and the U.S. to implement growth policies and zoning ordinances which effectively strip property owners of their rights without due process. Once enacted, these measures may shut down the ability to manage and utilize one's own land for even basic uses such as agriculture, housing, grazing, subdividing, etc. and jeopardize owners' ability to stay on their land.

WILL YOU SUPPORT LEGISLATION STRENGTHENING THE ABILITY OF LANDOWNERS TO PREVENT AND PROTEST COUNTY GROWTH POLICIES AND ZONING WHICH WOULD LIMIT THE LEGITIMATE USE OF THEIR PROPERTY?

X YES \_\_\_\_\_ NO

- 15. Frustrated by Washington, D.C.'s control over much of their state, Utah's Governor Gary R. Herbert in March 2010 passed a bill allowing the use of eminent domain to take protected land from the federal government, and utilize it as the state sees fit. Approximately 60% of Utah's land mass is controlled by the Federal Government, with the figure at 30% for Montana.

WILL YOU SUPPORT LEGISLATION MODELED AFTER UTAH'S NEW LAWS AUTHORIZING THE STATE OF MONTANA TO USE EMINENT DOMAIN TO REGAIN CONTROL OF LANDS TAKEN BY FEDS WITHIN ITS OWN STATE BORDERS?

\_\_\_\_\_ YES \_\_\_\_\_ NO X undecided

- 16. Polls show that, while taxpayers and consumers desire to protect the environment, the vast majority oppose a global warming tax or any such "carbon tax" style penalty.

WILL YOU SPONSOR, CO-SPONSOR, OR SUPPORT LEGISLATION THAT WOULD NULLIFY THE FEDERAL PASSAGE OF A CARBON TAX, A TAX ON EMISSIONS (SUCH AS A TAX ON THE OPERATION OF DIESEL PICKUPS/VEHICLES), OR ANY TAX OR PENALTY THAT WOULD PURPORT TO OFFSET OR MITIGATE THE EFFECTS OF "GLOBAL WARMING" AND WILL YOU OPPOSE ANY ATTEMPT TO PASS SUCH A PENALTY AT THE STATE LEGISLATIVE LEVEL?

X YES \_\_\_\_\_ NO

(IF YOUR ANSWER IS YES, PLEASE ALSO COMPLETE AND SIGN THE ENCLOSED "NO GLOBAL WARMING PENALTY PLEDGE")

# National Gun Owners Alliance Montana 2010 Gun Rights Candidate Survey

1. Many localities have attempted to discourage gun ownership by creating a web of differing local ordinances and regulations. These rules often trap innocent and unaware sportsmen who are merely passing through a neighboring county or town.

**Should state law prohibit Montana localities from placing limitations on the rights of citizens to purchase or carry firearms?**  Yes  No

2. The Firearms Freedom Act declared firearms made and retained in-state are beyond the authority of the U.S. Congress to regulate under its constitutional power to regulate commerce among the states. It also repealed antiquated, poorly written and inconsistently enforced gun laws.

**Would you support efforts to strengthen Montana's Firearms Freedom Act to make it a felony for federal agents to serve warrants in Montana in violation of this new law?**  Yes  No

3. A Justice Department survey of perpetrators of crimes with handguns showed that 93% had obtained their guns in ways other than buying them at gun stores where waiting periods could be imposed. In short, waiting periods do not stop criminals from obtaining guns but do increase the paperwork burden on police, keeping them from patrolling the streets.

**Would you oppose legislation mandating a waiting period before the purchase of a firearm?**  Yes  No

4. Originally, New York City "only registered" rifles and shotguns. Shortly thereafter, police used their ready-made list of gun owners to confiscate those registered weapons, demonstrating how registration leads to confiscation.

**Would you oppose legislation that would require firearms purchased by private citizens to be registered with law enforcement and tracked by a centralized record system administered by government agencies?**  Yes  No

5. Media hysteria has promoted confiscation of semi-automatic firearms that have certain cosmetic features falsely stigmatizing them. However, all semi-automatic firearms function essentially the same.

**Do you oppose legislation banning the manufacture, sale or possession of semi-automatic firearms?**  Yes  No

6. In many jurisdictions politically-appointed police chiefs who serve at the pleasure of anti-gun politicians arbitrarily deny law-abiding citizens the ability to obtain a firearm for self-defense. Of course, criminals do not ask permission.

**Do you oppose laws that would require that the police give permission prior to a person buying a firearm?**  Yes  No

7. The power to tax is the power to destroy. When anti-gun politicians are unable to achieve their aims directly, they frequently resort to taxes to deviously achieve the same result.

**Do you oppose laws which would impose any punitive taxes on the ownership, purchase or use of firearms or ammunition currently available to law-abiding citizens?**  Yes  No

8. Gun control advocates push increasingly complicated licensing systems with background checks, fingerprinting, high fees, arbitrary "training" requirements, and other hurdles that effectively make law-abiding gun ownership difficult, if not impossible -- all without reducing crime.

**Do you oppose government licensing to buy a gun?**  Yes  No

9. Vermont has one of the lowest violent crime rates in the nation. Their law simply says that every citizen has the right to carry a gun except to commit a crime. Thus, with no government bureaucracy, Vermont citizens can defend themselves. Criminals who use arms are more severely punished.

**Would you support Vermont-style legislation which would eliminate all requirements to pay fees and register weapons, and simply allow law-abiding citizens to carry firearms for any reason except for the commission of a crime?**  Yes  No

# National Gun Owners Alliance Montana 2010 Gun Rights Candidate Survey

1. Many localities have attempted to discourage gun ownership by creating a web of differing local ordinances and regulations. These rules often trap innocent and unaware sportsmen who are merely passing through a neighboring county or town.

**Should state law prohibit Montana localities from placing limitations on the rights of citizens to purchase or carry firearms?**  
 Yes  No

2. The Firearms Freedom Act declared firearms made and retained in-state are beyond the authority of the U.S. Congress to regulate under its constitutional power to regulate commerce among the states. It also repealed antiquated, poorly written and inconsistently enforced gun laws.

**Would you support efforts to strengthen Montana's Firearms Freedom Act to make it a felony for federal agents to serve warrants in Montana in violation of this new law?**  Yes  No

3. A Justice Department survey of perpetrators of crimes with handguns showed that 93% had obtained their guns in ways other than buying them at gun stores where waiting periods could be imposed. In short, waiting periods do not stop criminals from obtaining guns but do increase the paperwork burden on police, keeping them from patrolling the streets.

**Would you oppose legislation mandating a waiting period before the purchase of a firearm?**  
 Yes  No

4. Originally, New York City "only registered" rifles and shotguns. Shortly thereafter, police used their ready-made list of gun owners to confiscate those registered weapons, demonstrating how registration leads to confiscation.

**Would you oppose legislation that would require firearms purchased by private citizens to be registered with law enforcement and tracked by a centralized record system administered by government agencies?**  
 Yes  No

5. Media hysteria has promoted confiscation of semi-automatic firearms that have certain cosmetic features falsely stigmatizing them. However, all semi-automatic firearms function essentially the same.

**Do you oppose legislation banning the manufacture, sale or possession of semi-automatic firearms?**  
 Yes  No

6. In many jurisdictions politically-appointed police chiefs who serve at the pleasure of anti-gun politicians arbitrarily deny law-abiding citizens the ability to obtain a firearm for self-defense. Of course, criminals do not ask permission.

**Do you oppose laws that would require that the police give permission prior to a person buying a firearm?**  Yes  No

7. The power to tax is the power to destroy. When anti-gun politicians are unable to achieve their aims directly, they frequently resort to taxes to deviously achieve the same result.

Do you oppose laws which would impose any punitive taxes on the ownership, purchase or use of firearms or ammunition currently available to law-abiding citizens?  Yes  No

8. Gun control advocates push increasingly complicated licensing systems with background checks, fingerprinting, high fees, arbitrary "training" requirements, and other hurdles that effectively make law-abiding gun ownership difficult, if not impossible -- all without reducing crime.

Do you oppose government licensing to buy a gun?  Yes  No

9. Vermont has one of the lowest violent crime rates in the nation. Their law simply says that every citizen has the right to carry a gun except to commit a crime. Thus, with no government bureaucracy, Vermont citizens can defend themselves. Criminals who use arms are more severely punished.

Would you support Vermont-style legislation which would eliminate all requirements to pay fees and register weapons, and simply allow law-abiding citizens to carry firearms for any reason except for the commission of a crime?  Yes  No

#5 1, 2, 6 are incompatible - if all were voted in  
the state would have no income. A sales tax  
might be ok if it were used to reduce property taxes  
It would capture some money from our 10 million visitors  
each year. The whole property tax assessment system  
needs to be reworked.

Would you support Vermont-style legislation which would eliminate all requirements to pay fees and register weapons, and simply allow law-abiding citizens to carry firearms for any reason except for the commission of a crime?  Yes  No

### Gun Rights Leadership Pledge

Vermont has one of the lowest violent crime rates in the nation. Their law simply says that every citizen has the right to carry a gun except to commit a crime. Thus, with no government bureaucracy, Vermont citizens can defend themselves. Criminals who use arms are more severely punished.

Would you be willing to sponsor or cosponsor Vermont-style legislation which would eliminate all requirements to pay fees and register weapons and simply allow law-abiding citizens to carry firearms for any reason except for the commission of a crime?

- I would sponsor such legislation.  
 I would cosponsor such legislation.

- ✓ Ensure your constitutionally guaranteed personal, property and gun rights through establishing state sovereignty.
- ✓ Exercise State's Rights to stop federal and international intrusion into our ability to utilize our resources to better our state and create jobs.
- ✓ Require state agencies to purchase locally thus strengthening our state economy and providing new jobs.
- ✓ Propose legislation that would use Federal Education funds to also fund alternatives to public education such as GED programs and school vouchers.
- ✓ Propose legislation that would eliminate equipment taxes and excessive regulations on ranchers, farmers and small businesses.
- ✓ Eliminate state regulations that impose unreasonable subdivision regulations on property owners for adding barns, outbuildings and other buildings that make their property more beneficial and comfortable for their use.
- ✓ Support Montana controlled development of our natural resources. Water, energy and mining opportunities should be decided by our citizens.
- ✓ My votes will be weighed against the US and Montana Constitutions. If it is not constitutional, I will vote no.

# National Gun Owners Alliance Montana 2010 Gun Rights Candidate Survey

- 1. Many localities have attempted to discourage gun ownership by creating a web of differing local ordinances and regulations. These rules often trap innocent and unaware sportsmen who are merely passing through a neighboring county or town.

**Should state law prohibit Montana localities from placing limitations on the rights of citizens to purchase or carry firearms?**  
 Yes  No

- 2. The Firearms Freedom Act declared firearms made and retained in-state are beyond the authority of the U.S. Congress to regulate under its constitutional power to regulate commerce among the states. It also repealed antiquated, poorly written and inconsistently enforced gun laws.

**Would you support efforts to strengthen Montana's Firearms Freedom Act to make it a felony for federal agents to serve warrants in Montana in violation of this new law?**  
 Yes  No

- 3. A Justice Department survey of perpetrators of crimes with handguns showed that 93% had obtained their guns in ways other than buying them at gun stores where waiting periods could be imposed. In short, waiting periods do not stop criminals from obtaining guns but do increase the paperwork burden on police, keeping them from patrolling the streets.

**Would you oppose legislation mandating a waiting period before the purchase of a firearm?**  
 Yes  No

- 4. Originally, New York City "only registered" rifles and shotguns. Shortly thereafter, police used their ready-made list of gun owners to confiscate those registered weapons, demonstrating how registration leads to confiscation.

**Would you oppose legislation that would require firearms purchased by private citizens to be registered with law enforcement and tracked by a centralized record system administered by government agencies?**  
 Yes  No

- 5. Media hysteria has promoted confiscation of semi-automatic firearms that have certain cosmetic features falsely stigmatizing them. However, all semi-automatic firearms function essentially the same.

**Do you oppose legislation banning the manufacture, sale or possession of semi-automatic firearms?**  
 Yes  No

- 6. In many jurisdictions politically-appointed police chiefs who serve at the pleasure of anti-gun politicians arbitrarily deny law-abiding citizens the ability to obtain a firearm for self-defense. Of course, criminals do not ask permission.

**Do you oppose laws that would require that the police give permission prior to a person buying a firearm?**  
 Yes  No

7. The power to tax is the power to destroy. When anti-gun politicians are unable to achieve their aims directly, they frequently resort to taxes to deviously achieve the same result.

**Do you oppose laws which would impose any punitive taxes on the ownership, purchase or use of firearms or ammunition currently available to law-abiding citizens?**  Yes  No

8. Gun control advocates push increasingly complicated licensing systems with background checks, fingerprinting, high fees, arbitrary "training" requirements, and other hurdles that effectively make law-abiding gun ownership difficult, if not impossible -- all without reducing crime.

**Do you oppose government licensing to buy a gun?**  Yes  No

9. Vermont has one of the lowest violent crime rates in the nation. Their law simply says that every citizen has the right to carry a gun except to commit a crime. Thus, with no government bureaucracy, Vermont citizens can defend themselves. Criminals who use arms are more severely punished.

*We're going to town on another Republican.*

Date, 2010

Dear Friend:

The tax-and-spend politicians in Washington, D.C. are out of control.

Balloons. Nationalization of entire industries. Skyrocketing debt on top of record deficit spending. It seems as if there's no end in sight.

But the worst part about it is -- if you and I don't turn the tide and soon -- our children and grandchildren are the ones who will suffer the most.

They're the ones who are going to be FORCED to pay for our politicians' spend-now-pay-later actions.

That's why with the June 8, 2010 Republican Primary fast approaching, we at the Taxpayers for Liberty believe it's important you hear the truth about your candidates views on the critical issues facing our country.

You see, it's vital those of us who support low taxes, limited government, balanced budgets and fiscal responsibility do everything we can to turn things around before it's too late.

Unfortunately, in your race for U.S. Congress, Republican Congressman Chris Smith's record and public statements on critical tax-and-spend issues are cause for real worry.

First off, Chris Smith teamed up twice with Nancy Pelosi and Harry Reid and voted AGAINST making tax cuts permanent -- tax cuts that saved the average New Jersey taxpayer almost \$4,000 per year.

But he didn't stop there.

At the same time, Congressman Smith also voted to defeat a resolution that would have reduced spending by \$12 BILLION and put an immediate freeze on earmarks.

And more recently, Congressman Smith joined the radical environmentalist and voted for their cherished "Cap and Trade" Bill -- more accurately called "Cap and Tax."

If passed, so-called "Cap and Trade" would not only increase taxes by over \$350 BILLION per year, but it would also result in the loss of at least half-a-million American jobs.

Is this really the type of future Chris Smith wants for our children and grandchildren?

Instead of voting to bailout the auto industry, and throwing \$2 BILLION dollars at the so-called "Cash for Clunkers" program, shouldn't Chris Smith be trying to lower taxes on hard-working New Jersey families?

I'm sure you'll agree, there are already enough folks in Washington that believe your paycheck belongs to them.

And it's not just the big-spending Democrats either.

In recent years, you and I have seen more than a few free-wheeling Republicans who have fallen in love big government, as well.

Today, those same big spending Republicans are lining up in support of Chris Smith because they rightly recognize "he's one of them."

That's why it's vital you turn Chris Smith around IMMEDIATELY.

With a faltering economy and a federal deficit approaching \$13 TRILLION, these are serious times.

We literally can't afford any more politicians who want to have it both ways on critical tax-and-spend issues.

So please contact Chris Smith at once, and tell him to reverse his pro-tax-and-spend positions and apologize for his support of tax hikes and wasteful government spending.

And while you're at it, please contact Republican candidate Alan Bateman.

You see, Alan Bateman has said he will refuse to vote for any unbalanced budget, refuse all earmarks and pork-barrel spending and any new tax increases.

So thank Alan Bateman for his stands.

Of course, this effort isn't cheap, so if you can afford a contribution of \$250, \$100, \$50 or \$35, I'd really appreciate it.

But whatever you do, please contact Chris Smith at once, and tell him to reverse his pro-tax-and-spend positions and apologize for consistent record of supporting tax hikes before it's too late.

Sincerely,

Andrew O'Neill  
Executive Director

P.S. In your June 8 Republican Primary race, the bad news is Republican Congressman Chris Smith has a record of supporting tax increases, bailouts and increased government spending.

And just last year, he vote for "Cap and Tax."

Please contact Chris Smith at once, and DEMAND he reverse his pro-tax-and-spend positions and apologize for his support for tax hikes before it's too late.

If you have time, please thank Alan Bateman for pledging to refuse to support unbalanced budgets, refusing earmarks and pork-barrel spending and any new tax increases.

*POST: I am so pleased to have earned the endorsement of Right to Life of Montana PAC. As the people in my district know, I have been a staunch defender of life - as one cannot even discuss liberty or property without first securing this most fundamental of human rights. For this and many other reasons, it is imperative that I ask for your moral and prayer support, your volunteer and financial support, and most of all, your vote on June 8th in the Republican Primary.*

*Thanks very much! -Jerry*

Dear Candidate,

It is my pleasure to endorse your candidacy for the Legislature of Montana on behalf of the Right to Life of Montana Association Political Action Committee. As you know, Right to Life of Montana is an organization whose main purpose is to stand up against abortion, infanticide, embryonic stem cell research, and euthanasia. We are a non-violent, non-partisan group with no religious affiliation. We are very passionate about protecting the lives of the innocents, and it is our privilege to endorse and support political candidates who share our view that every innocent human life has infinite intrinsic value and is worthy of protection under the law.

A candidate's response to the RTLMT PAC questionnaire, his or her record as an incumbent, interviews, and recommendations from people who know the candidates are all criteria used in selecting the candidates we will endorse or support in their bid for election to public office.

We have a statewide mailing list of over 40,000 Montanans and we are very pleased to inform our members about the candidates who have stood proudly for pro-life causes. We rely on our pro-life legislators to be a strong voice in Helena. We depend on them to help the innocent unborn, the elderly, and the disabled to resist the growing trend to discount their lives as being worthless simply because they do not conform to an arbitrary standard of quality.

We applaud and encourage your efforts in the difficult public arena and your willingness to serve the people of Montana. We are counting on you to continue the reputation you have established as a person who cares about life itself, enough to fight for it on others' behalf. Please accept our best wishes for success in your campaign, and remember that you have the support of many, many members of Right to Life of Montana.

I am sending this letter as an attachment so that you may print and use it as part of your campaign if you wish. If you have any difficulty with opening the attachment, please let me know.

Sincerely,  
Lianna T. Karlin, President  
Right to Life of Montana  
Right to Life of Montana PAC

*Sarah:*

*Please send walk lists to the ones in the Leg Filing list with XX marked in "target" column - but only to the ones that we already have lists for. We can do the others later. That spreadsheet will serve as the basis for our contact list too. It has more than our targets because we want to throw a bone or two to some safe incumbents we are friendly with but not targeting.*

*Andrew, the "general only" races should get the tier 1 and 2 combo lists you did in the first round. The primary races should get the Tier 1 only lists you did in the second round.*

*I want Sarah to send them with the note "Christian LeFer asked me to send these walking lists to you. They contain the most recent, best likely voter data available, and have some voters ID'd on conservative issues and party affiliation. Please call me at XXX-XXXX (and give them your Montana Google number [ANDREW CAN WE USE KAROLIN'S GOOGLE NUMBER?]) if you have any questions. We have some more tools for you and will be in touch shortly."*

*Use the [SmartSimpleCampaigns.com](http://SmartSimpleCampaigns.com) for email - maybe Andrew can set up your MacMail (finally) so you can have [Sarah@SmartSimpleCampaigns.com](mailto:Sarah@SmartSimpleCampaigns.com).*

*Call me if questions. Please get this done right away, as I will be calling these guys tonight.*

September 14th, 2010

Dear Friend:

I care deeply about family and community, and that's why I've worked tirelessly for 24 years to make our local community here in Park County a better place to live, work and raise a family in.

Like many of you today, I have some serious concerns about what sort of world our children and grandchildren will have to grow up in.

My name is Philip Hoag, and in my many years as an active Park County resident, I may have met you – and if not, I hope to do so in the next 60 days...

... because I've decided to run for Sheriff of Park County, and unlike many out-of-touch politicians, I want to hear what you have to say.

Would you please fill out the enclosed survey and rush it back to me immediately?

I think my experience over the years has helped prepare me for this job.

I worked as a federally paid investigator in Billings on high profile cases.

I have worked in emergency services here in Park County, for 24 years now. I am and have been a volunteer EMT, a firefighter, an officer and an elected trustee and the secretary for the Paradise Valley Fire Service Area.

In fact, I am proud to have founded the Paradise Valley Fire Department and the volunteer ambulance service in Emigrant.

Also, I have extensive business and management experience.

But perhaps even more important, is my experience as a father of five and a grandfather. It has taught me that the most important thing in life is the well-being of our loved ones and their future.

Like you, I have major concerns about what kinds of opportunities are going to be left in this nation for our children and grandchildren as they grow up.

And when I consider the direction our elected officials in Washington, D.C. are taking us, I can't help but grow even more concerned.

Many of these politicians appear to have little concern for the eventual

consequences of the debt they are leaving our children with -- or what the loss of individual liberties could mean for their future.

Frankly, I don't believe that we can keep going down the path we're on -- bailouts and government encroachments on freedom and property rights, just to name a few -- and continue to survive as a free nation.

I believe we need common sense.

We need a return to the principles that made our nation great and prosperous.

We need to hold fast to the U.S. Constitution and to our individual liberties.

I understand that "rights" do not come from government, they are unalienable, and they come from the Creator at birth.

I think it's wonderful that we are seeing a groundswell of individuals all over the country -- many of whom had not previously participated in political action -- turning out in droves to demand responsibility from elected officials.

I believe if we're going to "right our ship of state," many more of us will have to get directly involved in local government and take a stand for traditional values.

These are some of the factors that inspired me to run for Sheriff this year, although the decision wasn't easy.

I know that stepping up to the plate may open me up to criticism from the sidelines, but the issues facing us right now are too important not to "get in the game!"

So I'm giving this Sheriff's campaign my best shot!

If elected, I will be a public servant of the people of Park County, in the purest sense of the word. I will defend your rights and interests and I will not be a passive servant for any overreaching Federal agency.

And unlike the current Sheriff, I will be a committed and full-time public servant, because that's what taxpayers and *all* residents deserve.

I also understand that law enforcement alone does not significantly prevent crime.

Statistically, the main factor that reduces crime rates is the presence of responsibly armed and aware citizens -- and that's all the more true in rural areas like much of Park County, where sheer distance increases response time.

Once a crime has been committed, law enforcement does a good job at

investigating, chasing down and jailing criminals; however by nature, police agencies are not very effective in actually *preventing* crime.

The recent case of 19 year old Park High graduate Leah Roberts, warding off a male intruder on August 26<sup>th</sup> with a .22 caliber pump rifle, clearly validates this issue. Thank God for her 4-H Club shooting instruction!

For the most part, Park County has never had a high crime rate, but even one crime -- especially a crime of violence -- is one too many.

One way to maintain both low crime rates and a sense of security for residents is to encourage responsible gun ownership and proficiency for law-abiding citizens.

As Sheriff of Park County, I will stand behind your right to self-defense and your right to keep and bear arms!

I will also work hard to:

- \*\*\* Deliver better service for less cost to taxpayers. During these tough economic times, waste and inefficiency in our County government agencies should not add to the financial burden;
- \*\*\* Focus on the largely ignored Meth problem in Park County. Methamphetamine manufacture and use is a serious problem that impacts families, and destroys lives -- and must be eradicated;
- \*\*\* Reduce Park's exposure to multi-million dollar lawsuits -- for example, our substandard jail is a huge, obvious liability that must be dealt with;
- \*\*\* Focus more Sheriff's Department resources on resolving the unsolved murders in Park County;
- \*\*\* Reduce the drunk driving problem in Park County, such as organizing a volunteer-staffed, no-questions-asked, weekend "ride home" service.

I also intend to make the Park County Sheriff's Department the very best place for employees and deputies to work, and to maximize their opportunities for personal and professional development.

Studies show that professionalism and employee development leads to lower turnover, absenteeism and burnout, while improving safety and overall performance.

And while people are my priority, all of the above will ultimately save taxpayer dollars.

I've volunteered my time and effort to run for Sheriff, but I cannot win without your vote -- and if you can, your volunteer efforts and/or your generous financial support.

Put simply, I cannot win this race unless I can get my positive agenda out to thousands of Park County residents; that takes "time, talent, and treasure".

I'm putting in the "time" -- but won't you please consider volunteering, and if you can, contributing \$160, \$100, \$50, \$25, or whatever you can afford, TODAY?

And whether you can financially support my campaign or not, I hope you'll please fill out and return the enclosed survey immediately.

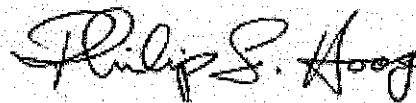

If I am to serve you, I need to know your opinions, your concerns, and your valuable experiences.

I look forward to serving the people of Park County as your next Sheriff and I will never forget that this race is not about me, it is about our children and the legacy we will leave them.

Won't you please help make Park County -- the real "last best place" -- an even better place to live, work, and enjoy?

I hope you will.

Sincerely,

Philip Hoag  
Candidate for Sheriff

P.S. As you may know, I've thrown my hat in the ring for Sheriff of Park County because I believe it's time for all freedom-loving Americans to stand up and fight for what is right!

As Sheriff, I believe I can deliver better services and public safety for less of your hard-earned tax dollars, and I am prepared to be your full-time, hands-on public servant.

If you agree, I hope you'll help support my campaign with a generous contribution of \$160, \$100, \$50, \$25 or whatever you can afford -- and vote for Philip Hoag for Park County Sheriff on November 2nd.

**WHY:** SEE BELOW!  
**CONTACT:** Tim Ravndl, 406-439-5860, [thornyacre@dishmail.net](mailto:thornyacre@dishmail.net)

Join Tim Ravndal, a Montana Tea Party organizer, other Tea Party members, and the Taxpayers for Liberty for the Baucus-Dodd Bank Bailout Bash on Tuesday, May 11 at at 11:30AM!

**Tim will conduct a Champagne Christening of the new Ship of State, the S.S. TOO BIG TO FAIL, a NON-SEAWORTHY vessel that represents the philosophy of the Federal Reserve and Banksters that are sinking the dollar, our economic freedoms and our sovereignty along with it. YES, THE BOAT HAS A HOLE IN IT!!!**

We'll be protesting the stealth Wall Street Bailout Bill, Senate Bill 3217, also known as the alleged Restoring American Financial Stability Act of 2010 and its takeover of large segments of our economy in a way that EXPANDS Wall Street's influence, and DESTROYS financial privacy.

**Here are a few highlights of Baucus-Dodd Bank Bailout Bill:**

**BANKS WILL CC: BIG BROTHER ON YOUR BANK STATEMENTS!** - This bill creates authority of banks to track and report personal account info to federal authorities -- without a warrant.

**SNEAK ATTACK ON VITAMINS AND SUPPLEMENTS?:** The House version of the bill --

Donate Now

already passed -- includes language inserted by Congressman Henry Waxman (D-CA) which goes far beyond finance. This language is clearly an attempt by Waxman to achieve his longtime goal of gutting the Dietary Supplement Health and Education Act (DSHEA), the legislation that has for many years empowered Americans to make their own decisions on dietary supplementation, by limiting regulation by the FDA.

**WRITTEN BY WALL STREET, NOT MAIN STREET:** As columnist Dana Milbank of *The Washington Post* observed with only mild exaggeration: "Lawmakers have been haggling over financial reform for 18 months, but it took Goldman Sachs just one day to get it done."

**MASSIVE UNION BOSS POWER GRAB:** One provision would give union bosses the power to influence the boardrooms and policies of our nation's largest companies, through a stealth takeover formula. **The bill robs individual states of their rights** to make rules governing how corporate boards are established and run, and hands the power to the feds through the SEC. Union bosses are expected to use the provision to obtain more "pension investor" seats on corporate boards - meaning union pension funds will suddenly have more influence on business simply because of their influence in Washington.

**CRUSHING REGULATION OF CONSUMER-FRIENDLY PRODUCT COMPANIES:** The bill would "require anybody who makes a loan of any type or amount to any consumer for any reason to register with" the CFPB and get its approval for "the structure of that loan." So any bank or store or credit card company or merchant or service provider who offered credit in any form to anyone would have to get advance approval from the CFPB. Harley-Davidson

**PUSH BUTTON TAKEOVER OF ANY COMPANY:** The House version of the bill calls for \$150 billion to fund a process in which a council of regulators would give the Treasury Department authority to take over a firm naming the Federal Deposit Insurance Corp. as the receiver.

**"WE'RE FROM THE GOVERNMENT, YOU CAN TRUST US!":** Don't worry, the Federal Reserve and **Treasury** Secretary can't authorize these funds unless "there is at least a 99 percent likelihood that all funds and interest will be paid back." Too bad the same models used to foresee the housing **meltdown** probably will be used to predict this likelihood as well.

**BOND BAILOUT:** The bill also allows the government, in a crisis, to back financial firms' debts. Bondholders can sleep easy -- there are more bailouts to come.

Concerned? You ought to be. This 1,300 page stealth bank bailout bill is hardly getting any attention and the final version is yet to be written.

Now is the time to speak out, let Baucus know we are alive, awake and aware of this stealth bank bailout bill.

Andrew and Christian,

Thank you for what you are doing for me. I really hope I win the election and don't let you down. Today I have 4 questions:

- 1) What is my username and password on votejerryoneil.com?
- 2) I am anxious to get started going door to door, but only have about 150 palm cards to hand out. When are the rest of the thousand going to show up.
- 3) After I give out the 1000 palm cards, what is the lead time for me to get more?
- 4) Do you have note pads or other handouts I might present to my constituents?

Thanks for your help,

Jerry

I will interpret that as a no.

Starting Thursday July 27th at 12:00pm, if I have not received the exact amount I am still owed in my bank account, I will start taking down everything I have worked on and not gotten paid for. This process will take place gradually over the 27th and 28th, so the sooner I receive what I am owed, the fewer the items taken down. If I have received payment before 12:00pm on the 27th, nothing will be taken down.

See payment details below. See attached invoices.

**Payment information**

Original total owed: \$2636.61  
Payments received already: \$700.00  
**Remaining total owed: \$1936.61**

**Bank account information**

Andrew J. O'Neill  
Account number: [REDACTED] 9304  
Routing number: [REDACTED] 5278

*I also **suggest** that you include, with the amount I am owed, the \$400.00 you still owe Greg Jenkins for his work in the past.*

This is be the last time I will be communicating with you until I receive the remaining total I am owed.

Next year when we've got the budget to do this, we need to come up with some kick-ass off-roading/dirtbiking shots to give to our members. I'm sure they want to see their organization "taking part" in what we're standing up for. Such as utilizing oil-consuming machines.

Consider either 4 shot (a pheasant or duck load), or if your shotgun is chambered for them, some real waterfowl magnums. If the shot is light enough (6 shot?), you're good.

But if it's that big of a concern, test it. Get some drywall, and test a bunch of loads.

That's a very interesting article. I would have never thought that 5.56 would have less penetration than a 9mm.  
Completely off-topic: Do you recommend a decent 12-gauge home-defense shell? Given the layout of my house, penetration is a big problem. One of the local gun stores here recommended using low-velocity birdshot.

**Subject:** Fwd: Thursday's List - absentee list

Christian,

This is a complete current list, The list is up-dated Mon thru Fri. They just add names to the list and mark the returned ballots etc.

I told Barb, to e-mail you the list daily as she receives it. So please e-mail her so that she has your e-mail address.

Another note - Mark French is going to be speaking on Tuesday at the Days Inn, on the corner of 7th and Oak st., sponsored by CFL.  
7:00 P.M.

If you need anything else call.

Pam
