** Note: Open Choice enrollments are based on the PSIS October 1, 2015 pre-certified enrollment data. CREC continues to reconcile this data with the districts.*

***Enrollment data originally provided by Hartford in August 2015 indicated that one of the Hartford Public Schools participating in Reverse Choice was compliant with the desegregation standard of the Phase III Stipulation. After Hartford provided updated data suggesting that this school was no longer compliant, discrepancies relating to changes in racial/ethnic coding for students were discovered, and the school's data was re-examined. This process resulted in corrections to the racial/ethnic coding in the data. The final corrected data supplied by Hartford indicates that this school is short of the standard by one student. Because of this, the school's entire Hartford-Resident minority student population is not counted toward compliance in the goal calculation. Under the terms of the agreement, this changes the percentage of Hartford-Resident minority students in reduced isolation settings from 47.9 percent in the State's internal preliminary data to the 45.5 percent in the final 2015 data presented here.*
