HI Robyn,
We enjoyed our time at Taylor Creek cabins again this fall fishing trip, but, I should let you know that fishing was not very good attributed to the very high flows (300cfs.) in the Frying Pan River. These flows prevented us from wading in many areas of the river we are accustomed to fish. This was very disappointing and frustrating. We have been coming to your cabins in the spring and fall for over 10 years to fish the Pan, but, we must consider other options if these high flows continue in the future. Hope to see you again in the spring, Mike Kellogg
