

My life and the life of my daughter and granddaughter changed on March 27, 2014, as well as my husband and other family members, your horrific actions on that day have drastically affected my families' peace, happiness and wellbeing. My daughter and granddaughter lives in constant fear, my granddaughter is afraid to sleep alone or be alone in a room by herself, my daughter is often depressed and sad as a result of your actions. You robbed us of seeing our once happy and carefree daughter, as she once was; now we see a sad and depressed individual. Her life has changed drastically for the worse, her life hasn't been the same since that horrific morning when you broke into her apartment waving your gun and demanding money at her and her child. Her marriage ended because she told me that she could no longer share intimacy with her husband, instead of seeing her husband's loving and caring face, she saw your wicked eyes and face as she described in court. She has been under a psychiatric care for the past year or so and even had to quit her job of 10 years at [REDACTED] because of the emotional wreck she has become, I have missed time off work trying to console her and have endured many sleepless nights trying to comfort her and my granddaughter who have nightmares as well as emotional issues, my granddaughter is in counseling. And we know her life will forever be affected by your miserable actions. That morning when I made it to the Citgo station where they were at, I will always remember how my granddaughter was frozen with fear, it took her hours before she said a word to anyone, My granddaughter is afraid of people and don't trust no one but her family, the damage you have done to my child that I carried for nine months and her daughter is irreversible, I heard it mentioned in court that you have 2 daughters, how would you like for someone to put a gun to their heads and do to them what you done to my child, my granddaughter was only four at the time and when I think about how she was left alone in a room while you took her mother into another room and raped her while waving a gun at her mother's head I know that was a lot of emotional turmoil and pure terror for her, I can't help but cry when I think about it. I have contempt for you and I hope you reap what you have sowed, you have destroyed a mother and a child's life by your sick behavior, as well as the lives of my family is forever affected by your sick

and depraved actions. I hope you rot in hell because our lives have become a living hell as a result of your actions; you're a worthless piece of crap in my eyes. My daughter life as well as my family life has become a night mare, my granddaughter wakes up at night screaming and crying out in fear and terror, her life is forever affected by your depraved actions, again I hope you rot in hell and while you're locked up, I hope you get what you deserve, that is to spend the rest of your miserable life in prison and I hope you never see the light of day again, you're a worthless piece of crap.
