Although they didn't provide an incident report, did they at least notify the jail inspection division?

Ziva,

Good Morning, below is the response in regards to your question.

The jail Inspection Department received the fax on 6/10/16 at 23:57. The department employee who handles the reporting was out of the office until the morning of 14 June when the report was printed off of the server.

Tulsa did report as required.
