if your still searching by That mobile home, and The river side your on The wrong spot, wrong Road. if your coming from Parents drive way its The first Road on The right side of Leonard Road. This road can only be accessed from one direction. if your heading Towards Parents drive way its The last road on your left of Leonard Road before drive way. remember The gate could have been moved. if your NOT looking down The Ravine and seeing The pond, you are in wrong spot. as you go up This road on The bend of Road marked X you get a good look at pond. if The gate has been moved down lower on The Road its gonna screw The directions up.
