Re: Dylan Noble

Dear Ms. Smittcamp:

Please be advised that I represent Darren Noble, the father of Dylan Noble, who was shot and killed on June 25, 2016, by the Fresno Police Department. In addition, attorney Stuart Chandler represents Veronica Nelson, the mother of Dylan Noble.

A video has come into our possession regarding this tragedy. It is our understanding that the District Attorney's office is conducting an investigation into this shooting regarding Mr. Noble. As such, enclosed in this letter is a thumb drive that depicts a partial video of the shooting that we recently received.

Even though we have the utmost confidence in the District Attorney's office in regard to this investigation, we are asking for an outside, independent investigation. The District Attorney's office and the Fresno Police Department have a close working relationship. However, in addition to your office conducting an investigation, we would also request an outside, independent law enforcement agency to conduct an investigation, whether it be the FBI, the Grand Jury, or the State Attorney General's office, to also review the facts of this case.

Finally, the enclosed partial video only shows half of the story. On behalf of the families, we would like to review the entire video in this matter.
