

## Serious Incident Report no. 256

FSC SIR Category	1 Standard
Subject	SAR case with 01 casualty
Type of SIR	4 Final SIR
JORA Incident number (if any)	
Joint Operation	Poseidon Rapid Intervention
Frontex SIR Coordinator	
Incident date/time	02/01/2016 05:30 AM
Detection date/time	02/01/2016 05:30 AM
Original source of the information	HCG
Location of the incident	Sea area of Agathonisi Island
Is latitude unknown	No
Latitude	37.485277777777800 *
Is longitude unknown	No
Longitude	27.034166666666700 *
Reference to the operational area	Yes
Frontex resources involved (Human resources / co-financed technical equipment)	No
Type of resources / involvement	HCG CPB 137, fishing vessel
Dead persons	1
Injured persons	
Missing persons	

**Commented [A1]:** The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

Serious Incident Report related to Search and Rescue action	
SAR activated date/time	02/01/2016 05:30 AM
SAR activated by whom	HCG
Boat in distress	
Type	
Flag, name, IMO if available	
Detected by	HCG CPB 137, fishing vessel
Detection done by Frontex co-financed asset	No
Intercepted by	HCG CPB 137, fishing vessel
Interception done by Frontex co-financed asset	No
Estimated people on board	40
Planned port of disembarkation	AGATHONISI
Departure country	Turkey
Involved authorities	HCG

**Fact of the case**

On 02nd of January at 05.30 LT a boat with migrants onboard crashed at Neronisi islet at the sea area of Agathonisi. \* 38 migrants disembarked ashore while one woman fell into the sea. Immediately a SAR operation was launched and she was rescued by HCG CPB 137 and safely transferred to Agathonisi Island. Later on a fishing boat detected and recovered from the sea one dead body (minor male ) which was also transferred to Agathonisi island. The rescued woman recognized the dead body as her child belonging to the same group.

**Measures**

A SAR operation was launched by HCG

**Assessment**

39 migrants (SYR) were rescued while 01 dead body (minor SYR) was recovered from the sea.

## Serious Incident Report no. 257

FSC SIR Category	1 Standard
Subject	1 CASUALTY

### Assessment

Serious Incident Report	
Subject:	Death of persons
Joint Operation:	Poseidon Sea 2014 - Extension
Reporting unit/person:	ICC Piraeus [REDACTED] D/ICC Coordinator [REDACTED]

1. General information on the incident	
Incident date/time	13-01-2015 16:05
Original informant	Hellenic Police
Finding date/time/source	13-01-2015 16:05LT by HCG
Location of the Incident:	Coastal area of "Mylarakia" in Chios island
Latitude / Longitude	
Reference to operational area	Operational Area J ' [REDACTED]
SAR activated date/time	
Involved Frontex assets	-
Distance Incident place to Frontex assets	-
Detection date/time/who	13-01-2015 16:05LT by HCG
Estimated POB	
Dead and/or injured persons	01 dead body
Embarking port	-
Involved authorities	HCG

2. Fact of the case	
On 13.01.15 at coastal area of Mylarakia in Chios a corpse of a minor girl was found in an advanced state of decay.	

3. Measures	
The dead body was transferred to the hospital of Chios.	

**Commented [A1]:**  
The non-disclosed text contains the name of an actor participating in Frontex activities. The disclosure of such information would undermine the protection of the privacy and the integrity of the individual, in particular in accordance with EU laws regarding the protection of personal data. In this regards the text is not disclosed pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) 1049/2001.

**Commented [A2]:**  
The blanked out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### 4. Assessment

The procedures of identification are still in progress and it is presumed that it is related with the human smuggling incident occurred in Lesvos (JORA no.95611) on 22.11.14, in which, 4 men and 1 minor girl were missing.

SAR related Serious Incident Report	
Subject:	SAR incident at Samos island
Joint Operation:	Poseidon Sea 2014
Reporting unit/person:	ICC Piraeus [REDACTED] - ICC Coordinator *

### 1. General information on the incident

Incident date/time	05-05-2014 at early morning hours
Original informant	FI CPB
Finding date/time/source	05-05-2014 at early morning hours by FI CPB
Location of the Incident:	4 n.m. N of [REDACTED] Samos island
Latitude / Longitude	37' 52,8' N 026' 47,8' E
Reference to operational area	Operational Area J *
SAR activated date/time	05-05-2014 at early morning hours
Involved Frontex assets	FI CPB
Distance Incident place to Frontex assets	FI CPB deployed at Samos island
Detection date/time/who	05-05-2014 at early morning hours by FI CPB
Estimated POB	unknown
Dead and/or injured persons	22 dead bodies
Embarking port	Possible Turkish coasts
Involved authorities	HCG, Hellenic Navy, FBG, Hellenic Air Force.

### 2. Fact of the case

On 05/05/2014 FI CPB detected two capsized boats north of Samos island \* and a number of migrants into the sea. Immediately a SAR operation was launched under the coordination of JRCC Piraeus (which was informed by the FI CPB) and two HCG assets also arrived to the spot. A cruise ship, a Hellenic Air Force helicopter, a Hellenic Navy helicopter and a Hellenic Navy surface asset are also participating in the SAR Operation which is ongoing. 13 migrants were rescued by FI CPB, 23 migrants were rescued by HCG PLS 604 and 4 dead bodies were recovered from the sea. All rescued migrants and the 4 dead bodies were transferred to port of Vathi-Samos island. The capsized boat was towed to port of Vathi by fishing vessels that were assisting the SAR operation, accompanied by HCG vessel. 18 dead bodies were found by HCG personnel trapped inside the boat. One man and a minor male were transferred to the local hospital and later on the minor was transferred to a hospital in Athens. Search operations are still ongoing for possible missing persons.

**Commented [A1]:** The non-disclosed text contains the name of an actor participating in Frontex activities. The disclosure of such information would undermine the protection of the privacy and the integrity of the individual, in particular in accordance with EU laws regarding the protection of personal data. In this regards the text is not disclosed pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) 1049/2001.

**Commented [A2]:** The blanked out parts contain information regarding the operational area. Their disclosure would expose law enforcement officials' in the area and harm the course of future and ongoing operations, and thus facilitate irregular migration. Therefore, public security will be affected. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001 relating to the protection of the public interest as regards public security.

### 3. Measures

FI CPB and HCG after a SAR operation rescued 36 migrants, while 22 dead bodies were found. All rescued migrants and the dead bodies were transferred to port of Vathi-Samos island. Search is still ongoing for possible missing persons.

---

### 4. Assessment

So far 36 migrants (32 males, 03 female, 01 minor male) have been rescued and 04 dead bodies (01 man, 02 women and 1 minor male) have been recovered from the sea. Moreover 18 migrants (10 women, 05 men, 02 female minors and 01 male minor) were found trapped in the capsized boat. Two of the rescued migrants were transferred to the hospital. Search is still ongoing for possible missing persons.

**From the 36 rescued migrants two SYR were arrested as facilitators.**

<b>Serious Incident Report</b>	
<b>Subject</b>	Death case
<b>Joint Operation</b>	POSEIDON SEA 2014
<b>Location</b>	IGOUMENITSA
<b>Incident date/time</b>	21/05/2014 17:50
<b>Finding date/time</b>	21/05/2014 17:50
<b>Reporting unit/person</b>	RP IGOUMENITSA

### 1. Fact of the case

On 21/05/2014 at 17:50 an Albanian driver of a truck, parked inside Igoumenitsa's port, requested a check from HCG personnel as he was informed that persons, probably migrants, were coming out of the roof of his cargo. The check revealed two cuts -narrow openings at the roof of his cargo and the existence of an unconscious person. The medical personnel that arrived immediately at the spot ascertained his death.

### 2. Measures

Check was conducted immediately after request from the driver. Medical help was provided, but the migrant's death was ascertained.

### 3. Assessment

Papers found at the migrant's pocket confirmed his identity, a minor Afghan.

SAR related Serious Incident Report	
Subject:	SAR incident at Lesvos island

**2. Fact of the case**

On 03/06/2014, 15 migrants left from Turkish coast to Greece by an inflatable rubber boat. During their trip their boat sank and the migrants fell into the sea. 14 of them managed to get on shore at the rocky area of Tsonia \* while one more was found drown at the close sea area and has been recognized from the rescued migrants. All of them were transferred to port of Mitilini.

**3. Measures**

Hellenic Coast Guard safely transferred 14 migrants to port of Mitilini - Lesvos island. Search was conducted to the area for any missing persons while later on the rescued migrants claimed that nobody else was missing beside the one dead body.

**Commented [A1]:**  
The non-disclosed text contains the name of an actor participating in Frontex activities. The disclosure of such information would undermine the protection of the privacy and the integrity of the individual, in particular in accordance with EU laws regarding the protection of personal data. Injured persons	
Missing persons	

#### Fact of the case

17.06.2015; 13:00 - 13:30

Around noon time a group of about 200 migrants (mainly SYR, IRQ) started a demonstration in an aggressive manner at the port of Mytilini close to the custom office. The migrants protested that they won't stay on the island longer and refused the specific procedures of fingerprinting, registering, screening performed by HCG and HP.

The migrants demanded to leave immediately to Athens or Piraeus.

Some migrants had taken up and thrown stones against the HCG officers which leads to the hospitalisation of one officer and one migrant.

The HCG officers informed via interpreter the migrants that it is mandatory to follow the specific procedures. After orders were given by the local prosecutor 6 of the migrants were arrested going to be transferred to the court. Most of the migrants are being transferred to Moria reception center to follow the regular procedures.

#### Measures

LCC Coordinator and interpreter have passed the message from the HCG to the migrants that it is mandatory to pass through the certain procedures.

HCG took actions to avoid further injuries.

6 of the migrants were arrested

Most of the migrants to be transferred to Moria reception center in order to follow the regular procedures.

#### Assessment

It is possible that the migrants would continue to demand faster procedures and short release. No Frontex assets involved

### SAR related Serious Incident Report

Subject:	SAR incident/Casualties at Samos island
Joint Operation:	Poseidon Sea 2014

Latitude / Longitude	11 n.m northwest of Samos island *
Reference to operational area	Operational Area J *
SAR activated date/time	11-07-2014 noon hours
Involved Frontex assets	---
Distance Incident place to Frontex assets	PT TVV and PT CPB deployed at Samos island
Detection date/time/who	11-07-2014 noon hours - A sailing boat
Estimated POB	37 migrants and 02 facilitators (according to migrants statement)
Dead and/or injured persons	2 dead persons
Embarking port	Turkish coasts
Involved authorities	HCG - Hellenic Air Force - Hellenic Navy

#### 2. Fact of the case

On 11/07/2014, noon hours a private sailing boat detected and recovered from the water two persons , 11 n.m northwest of Samos island \* and informed Hellenic Joint Rescue Coordination Center.

#### 3. Measures

Immediately a large scale SAR operation was launched under the coordination of JRCC Piraeus with the participation of 4 HCG patrol vessels, a Hellenic Air force Helicopter, a Hellenic Navy vessel and 5 private vessels.

#### Commented [A1]:

The non-disclosed text contains the name of an actor participating in Frontex activities. The disclosure of such information would undermine the protection of the privacy and the integrity of the individual, in particular in accordance with EU laws regarding the protection of personal data. In this regards the text is not disclosed pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) 1049/2001.

#### Commented [A2]:

The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### 4. Assessment

13 migrants were rescued. 7 of them were transferred to Chios island and 6 of them were transferred to Samos.

2 dead bodies (1 male and one female) have been recovered and transferred to Samos.

Among the rescued migrants one of them is hospitalized to Chios Hospital and another (a minor) is hospitalized, in critical condition, at Samos Hospital.

According to MRCC Ankara 2 more persons have been rescued by a Turkish coast Guard Boat at international waters and transferred to a Turkish port.

According to the statements of the rescued migrants they were transported onboard a boat which sank on 11/07/2014 morning at the sea area between Samos and Ikaria.

SAR Operation is ongoing for the detection of other missing persons.

Further developments will be provided via updated reports

On 12/07/2014 afternoon hours two more dead bodies (01 male and 01 male minor) have been recovered and transferred to Samos.

Nationalities of the 13 rescued migrants: 10 SYR and 03 AFG

SAR operation is ongoing.

#### Fact of the case

On 07/07/2014 JRCC Piraeus was informed via Olympia Radio about a plastic boat with approx 37 pob (according to migrants statements) capsized in morning hours due to mechanical failure and water inflow at the sea area 7 n.m. east of Farmakonisi island ' inside Turkish territorial waters. Until this moment 08 persons have been rescued by Hellenic authorities at the sea area between Agathonisi and Farmakonisi island and have been transferred to Samos island as follows: By Super Puma: 03 SYR (males), 03 IRQ (01 male, 01 female, 01 minor female), by CPB 137: 01 SYR (male), one TUR male assumed (recognized by the migrants) as the facilitator/operator of the sunk boat, who was found trapped on a rocky islet south of Samos island. MRCC Ankara reported that 13 migrants have been rescued and 01 dead body has been recovered from the sea by the Turkish authorities. The operation is still ongoing for the search and rescue of the assumed missing.

#### Measures

A large scale SAR operation was launched by JRCC Piraeus with the participation of 03 HCG vessels (SAR 512, CPB 148, CPB 137), 02 Hellenic Air Force Super Puma, 01 Hellenic Navy vessel and 01 LV HELO.

#### Assessment

SIR 3176/2015

Today during the Daily Meeting the FSO in Samos asked the HP Team Leader about the current situation at the Detention Centre and also about the result of yesterday's meeting at HP Directorate in Samos where several issues were discussed and among them, the current situation at the Detention Centre of the Island.

According with the explanations received, the main problem is that the HP (at least in Samos) doesn't have funds for buying food to migrants anymore. In addition, FSO was informed about the decisions taken in order to cope with the situation, as follows:

- To release the majority of the migrants retained in the Detention Centre (Yesterday around 600 migrants were released).
- To establish a new procedure for migrants claiming to be Syrians at the first stage, when they are apprehended by HCG. In this case, HCG will issue one document to these "Syrians", giving them a deadline of 7 days to arrive to Athens and present themselves in the Aliens Service of HP or if they are found after the expiration of this period of time they will be arrested and sent to a Detention Centre. Therefore there won't be any further procedure with Syrians in Samos Island after they are apprehended and released by HCG (no contact with HP).
- To let the migrants retained in the Detention Centre to go out from the Centre, buy food for themselves and come back. \* \*

The FSO asked the HP Team Leader about the activities of Debriefers and Screener experts and he said that they will continue with normality with all migrants except with those claiming to be Syrians.

Afterwards, according with debriefing and screening experts and also interpreters statement, at about 10:00 AM, there was a demonstration of around 60 migrants, mainly from Afghanistan, that were protesting against the HP in the Detention Center. They went into the Police Office located inside the main building and started to hit doors, windows and walls. There were some moments that they were about to start a fight with Police Officers. They were complaining about the lack of supplies of food and also asking why they were not released.

At 10:30AM a second demonstration started, a group of around 20 Africans that likewise starting to hit walls, windows and doors and entered into the Police Office and complaining about the lack of food, their long stay over there (they claimed to be there for 7 days) and also accusing them of racism alleging that they were not released because they were black.

After that second demonstration experts, interpreters and FSO came to the common conclusion that their safety and integrity couldn't be guaranteed in the Detention Centre since there are just few Police Officers, all the doors of the Centre are open, the migrants wander around freely and there are around 300 migrants inside, some of them upset. \* \*

Before the migrants in the Detention Centre used to be closed inside a compound and only the ones to be screened or interviewed or those going to doctor's office were out. But now all of them are free to move inside the camp and they can easily concentrate in a certain area such as Police Office or Frontex container and create situations of danger if they don't listen to the Police instructions or they become aggressive.

Behind this problem is the general lack of liquidity of banking system in Greece and the impossibility of HP to pay the food to the supplying company. \* Moreover some migrants in the Detention Centre don't have enough money to buy themselves their own food in the shops. Therefore, this situation can degenerate into a dangerous combination of desperation, aggressiveness and demonstrations or aggressions against Police Officers or, who knows, Frontex personnel deployed.

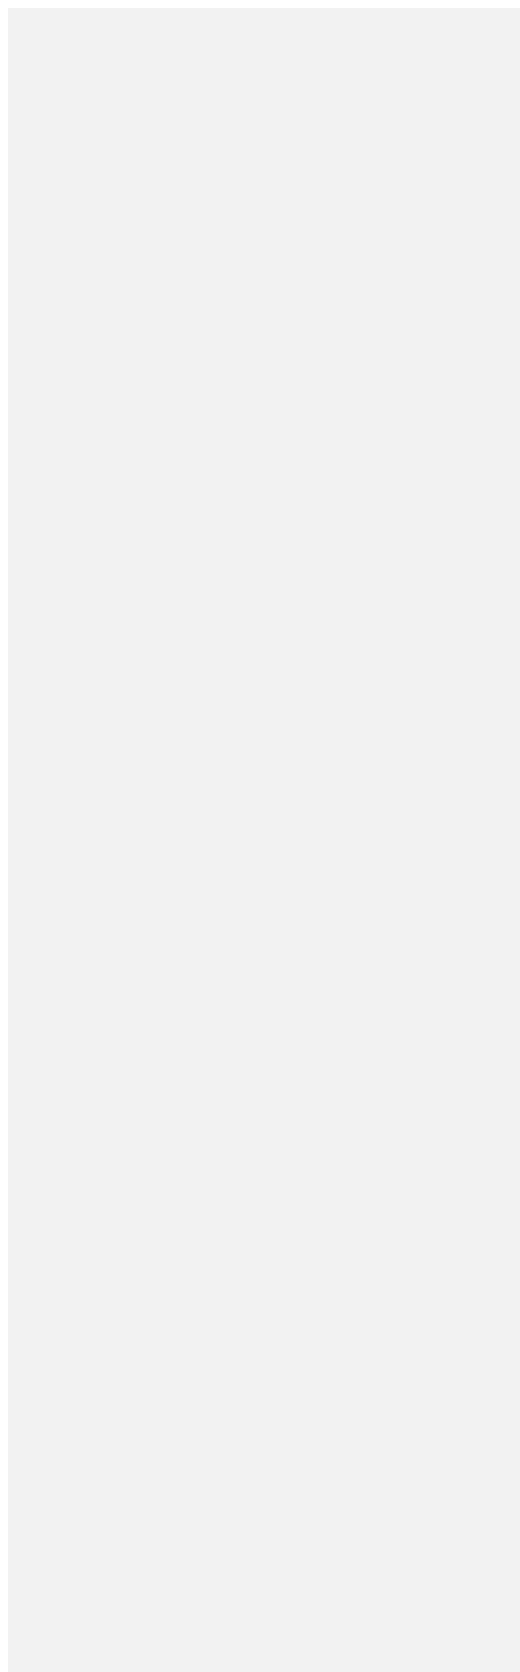

Today at 11:00AM the civilian personnel of the Centre (UNHCR, NGOs and doctors) abandoned the premises of the DC. Screening Team was performing interviews only to a group of 24 migrants and after suspended their activity. Debriefers couldn't conduct any interview either there or in the Port

**SIR 3972/2015**

9.8.2015

10 migrants onboard a speedboat were apprehended yesterday in Samos, two of whom was found that they had recent bullet injuries at their bodies.

According to their statements during the previous night 45 migrants in total had gathered at the Turkish coastlines, waiting to embark on the speed boat in order to illegally travel to Greece with the help of 2 facilitators.

During embarkation a group of men in uniform arrived and ordered the facilitators to stop.

But the facilitators did not obey, they jumped into the boat, and together with the 10 migrants who were already onboard, they tried to escape by starting the trip towards Greece in high speed.

At that moment, the men in uniform started to use fire, in order to stop the boat.

The boat did not stop but 2 migrants were injured from the bullets.

Later on the facilitators jumped into the water and after a while the migrants reached Greek territory where they were apprehended.

The 2 injured migrants were transferred to the local hospital, where they still remain, out of danger concerning the condition of their lives. \*

**Commented [A1]:** The non-disclosed text contains information that allegedly constitutes a violation fundamental rights. The situation was communicated to the competent authorities for further investigation. Disclosure of such information would undermine the purpose of national investigation procedures regarding this incident. In this regard the text is not disclosed pursuant to the exception laid down in the third indent of Article 4(2) of Regulation (EC) 1049/2001.

<b>Serious Incident Report</b>	
<b>Subject</b>	SAR at international waters
<b>Joint Operation</b>	POSEIDON SEA 2014
<b>Location</b>	E of Tilos island * - LCC Rhodes
<b>Incident date/time</b>	22/08/2014 at 09:55LT
<b>Finding date/time</b>	22/08/2014 at 09:55LT
<b>Reporting unit/person</b>	LCC Rhodes

### 1. Fact of the case

On 22/08/2014 at 09:55 LT LCC Rhodes was informed from the control tower of Rhodes airport that a boat in flames was detected 22n.m. from the airport (E of Tilos island) \* inside international waters. A large scale operation was launched by HCG with the participation of Hellenic Air force Super Puma, HCG HELO, HCG patrol vessels and Hellenic Navy. Turkish Coast Guard vessel that was also informed about the incident arrived at the spot and rescued a large number of migrants. HCG OPV 070 recovered a male dead body from the sea that it was transferred to Rhodes island.

### 2. Measures

A large scale SAR operation was launched from both rescue centres - JRCC Piraeus and MRCC Ankara.

### 3. Assessment

According to MRCC Ankara 81 migrants have been rescued and there are no other assumed missing persons.  
The male dead body was recognized as SYR by another SYR.

**Commented [A1]:** The non-disclosed text refers to sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A2]:** The blanked out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

A suspicious high speed inflatable boat with one person onboard was detected by Hellenic Coast Guard vessel close to a bay of Pserimos island. \* The HCG vessel attempted to intercept the high speed boat by the repeated usage of sound signals but the skipper of the fast boat refused to comply and also tried to escape by making dangerous manoeuvres which resulted to the ramming of the HCG boat on its left side.

#### Measures

The HCG boat crew, following the foreseen rules of engagement, tried to intercept the high speed boat, with the use of warning shots in the air (safe sector) \* As a result, the speed boat was immobilized, the HCG crew managed to embark on it and arrest the skipper/facilitator of UKR origin. Moreover, afterwards 22 migrants were detected and apprehended on Pserimos island that they had already disembarked by the facilitator.

#### Assessment

The HCG vessel involved in the incident transferred the migrants and the UKR facilitator to Kalymnos port. Among the migrants was a pregnant woman who has been urgently transported to the local hospital but later on exit the hospital after first aid provided.

#### Commented [A3]:

The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A1]:**  
The non-disclosed text contains sensitive operational information related to the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A2]:**  
The blanked-out part contains information regarding the operational area. Its disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

A suspicious yacht named "YAVUZUM 16", Turkish flag, with unk persons onboard was detected by LV CPB at Seskli island (close to Symi island). The LV CPB attempted to intercept the yacht by the repeated usage of sound signals but the skipper of the yacht not only refused to comply but also tried to escape by making dangerous manoeuvres and repeated attempts to intentionally ram the LV CPB.

#### Measures

The HCG LO onboard the LV CPB, following the foreseen rules of engagement, fired warning rounds to the air in order the facilitator to stop, but the yacht managed to escape back to Turkish coasts.

#### Assessment

The LV CPB involved in the incident didn't manage to intercept the yacht but detect and rescue from a rocky area 3 of the already disembarked migrants by the above mentioned yacht and transferred them to Symi island and they were apprehended by HP.

#### Commented [A3]:

The non-disclosed text contains the name of the yacht used to facilitate irregular migration. The disclosure of such information would affect operational activities in the area by law enforcement to prevent criminal activities, therefore it would harm the public interest as regards public security. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

#### Commented [A4]:

The blanked-out part contains information regarding the operational area. Its disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Commented [A5]:

The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A1]:** The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and facilitators, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A2]:** The blanked out part contains information regarding the operational area. Its disclosure would expose law enforcement officials in the area and harm the course of future and ongoing operations, and thus facilitate irregular migration. Therefore, public security will be affected. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001 relating to the protection of the public interest as regards public security.

### 1. Fact of the case

- LV CPB detected a suspicious target (one sailing yacht).
- Detection was reported to LCC Symi.
- The suspect target denied control and attempted to escape and crashed at the rocks
- HCG CPB was dispatched and headed to the spot
- HCG rules of engagement were deployed by HCG LO onboard LV/CPB
- Warning rounds were fired to the air in order the facilitators to stop.

**Commented [A3]:** The non-disclosed text here and below contains sensitive operational information describing the encounter between law enforcement officers and facilitators, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

### 2. Measures

- Local Public Prosecutor was informed accordingly
- All safety precautions were taken (e.g. bullet proof vests, firing in safe sector etc.)

### 3. Assessment

- Suspect boat was found to be carrying illegal migrants
- The facilitators are still wanted
- 138 migrants (all SYR) were apprehended by HCG and transferred to Symi port

**SIR 4360/2015**

24.8.2015

Just received info from ICC Coordinator about SAR close to Mytilene being performed from morning hours. A boat with 13 POB had sunk and SAR was launched by HCG. LTU HELO (co-financed by FX) is also participating in the SAR. 6 persons were rescued, 2 more were found ashore (they had informed of the sunk boat), 2 dead bodies were discovered from the sea and 3 more are still missing.

### 1. Facts of the case

**29.08.2015; 12:45; Symi Island**

Migrant died during a shooting on board a yacht between the HCG and human smugglers

**Initial SIR received at FSC**

- ! 29.08.; 16:21 from FOC Poseidon Sea
- ! First operational info to FOC Poseidon Sea was provided by FOO Intel in Kos [REDACTED]

**Involved parties:**

- ! Frontex co-financed LVA CPB; Crew: 2 LVA officer, 1 HCG LO
- ! HCG (civilian vessel not Frontex co-financed); Crew: 4 HCG officer
- ! Private yacht; On board: 2 TUR facilitator, 93 migrants

**Facts of the case (not yet finally confirmed):**

- ! 12:45 LVA CPB was patrolling along coast line of Symi observing a suspicious motor yacht in the Marthounta bay
- ! When LVA CPB reached the range of direct visibility the motor yacht started movements and took a course in direction to the Greek -Turkish sea border at high speed.
- ! LVA CPB rapidly tried to come closer with flashing lights and the usage of loudspeaker in order to stop the motor yacht. The skipper of the yacht not only refused to comply but also tried to escape by performing dangerous manoeuvres and repeated attempts to intentionally ram the LV CPB
- ! Simultaneously there was support requested from the HCG by phone.
- ! The HCG LO on board the LV CPB, pursuant to the rules of engagement, fired warning shots in the air with his service weapon.
- ! LVA CPB crew together with HCG LO managed to come closer and tied the rope on the left side of the suspected motor yacht to slow them down
- ! 13:00 with the assistance of another speedboat (civilian boat, not Frontex co-financed) with HCG staff (3-4 persons) on board, the suspect yacht was immobilized and the HCG LO and one of LVA crew member managed to board and stop the motor yacht.
- ! After the additional HCG staff boarded the boat, the LVA officer returned to the LVA CPB and remained at distance (HCG LO remained together with rest of HCG officers on board the motor yacht)
- ! According to information from the HCG the facilitator(s) attacked and injured (no gunshot wound) the LO officer of the HCG, removing temporarily his service weapon. During this interaction with the smugglers, shootings of fire gun took place

**Commented [A2]:** The non-disclosed-text contains the name of an actor participating in Frontex activities. The disclosure of such information would undermine the protection of the privacy and the integrity of the individual, in particular in accordance with EU laws regarding the protection of personal data. In this regards the text is not disclosed pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) 1049/2001.

**Commented [A3]:** The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A4]:** The remaining non-disclosed text contains sensitive operational information on the fatal incident. In accordance with the applicable law of the MS, the necessary procedures were initiated with the view to assess and determine personal responsibilities. The disclosure of such information would harm the investigations ongoing in the MS. In this regard the text is not disclosed pursuant to the exception laid down in the third indent of Article 4(2) of Regulation (EC) 1049/2001.

- ! In the following 93 migrants (76 SYR, 17 IRQ) were found on board as well as one dead 17 years old male minor died of an acute gunshot wound (confirmed info)
- ! 2 TUR facilitators were arrested, one of them were injured on the leg by a bullet from the shooting
- ! LVA CPB took on board in two ranges the migrants and transported them to the Symi port. \*

## 2. Additional information

- ! Dead migrant: Still no confirmation of the results from autopsy - what is known that minor was died being shot but not known by which bullet
- ! No one from LVA CPB crew was injured.
- ! No damages are detected to the LVA CPB
- ! Latvian officers carried their guns during that patrol but did not use them
- ! LVA officer weren't witnesses of the shooting case on board the motor yacht
- ! It is confirmed the minor was died by shot
- ! LVA crew made a written statement to the HCG
- ! HCG released a press statement on this fatal incident
- ! HCG is investigating the case
- ! HCG LO was injured but not by bullet he will remain ten days off-duty \*

**Commented [A5]:** The non-disclosed part here contains pictures of the law-enforcement assets and the boat of the facilitator involved in the incident. The disclosure of such information would harm the investigations ongoing in the MS. In this regard the text is not disclosed pursuant to the exception laid down in the third indent of Article 4(2) of Regulation (EC) 1049/2001.

## 3. Assessment

Case is under investigation by the GRC authorities

SAR activated by whom	HCG
Boat in distress	
Type	
Flag, name, IMO if available	
Detected by	A CARGO SHIP
Detection done by Frontex co-financed asset	No
Intercepted by	HCG SAR VESSEL 515-HCG CPB 611
Interception done by Frontex co-financed asset	Yes
Estimated people on board	14
Planned port of disembarkation	CHIOS
Departure country	Turkey
Involved authorities	HCG-HAF

**Fact of the case**

On 31/08/2015 at 05:20LT a cargo ship detected a group of persons into the sea at the area close to Chios port and immediately a SAR operation was launched with the participation of HCG and Hellenic Air force. HCG rescue boat 515 and HCG CPB 611 rescued 12 migrants and one dead body (male - SYR) was recovered from the sea. Later on one more migrant was detected and rescued by Hellenic Air force HELO. According to migrants statement 14 persons were onboard a speed boat that capsized.

A large scale SAR operation was launched with the participation of HCG, Hellenic Air force HELO and private vessels.

12 SYR (11 male, 01 female) and 01 SYR facilitator have been rescued and safely transferred to Lesbos Island by HCG. Also one dead body (male SYR) was recovered from the sea.

### Commented [A1]:

The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

On 30/08/2015 morning hours a suspicious motor boat was detected by LV CPB at Nimos islet - Symi island.\* The motor boat had already disembarked unk number of migrants on the rocks and was heading back to Turkish coasts. LV CPB attempted to intercept the yacht by the repeated usage of light and sound signals but the skipper of the boat refused to comply. When LV CPB attained the motor boat its driver slushed the LV CPB pontoon and deck with liquid from small tank, which smell like petrol, showed fire lighter and threatened to set a fire.

The HCG LO onboard the LV CPB, managed to board on the suspicious boat and detained the driver. The driver was handcuffed and the motor boat was stopped.

One (01) TUR facilitator was arrested and one motor boat was seized.

Embarking port	Damietta (Egypt)
Involved authorities	HCG - Hellenic Air Force

## 2. Fact of the case

On 13/09/2014 RCC Malta informed JRCC Piraeus that 2 merchant vessels (MV CPO JAPAN-UK flag and CMA CGM VERDI-Liberia flag) had rescued and took onboard 7 migrants while 1 dead body was also recovered, inside Malta SRR.

## 3. Measures

RCC Malta requested JRCC Piraeus to assist on the safe disembarkation of the migrants and a Hellenic Air Force Helicopter took off in order to pick up the migrants  
In the meanwhile the captain of CPO JAPAN informed that one of the rescued migrants (one minor female) had died.

**Commented [A1]:**  
The non-disclosed text contains the name of an actor participating in Frontex activities. The disclosure of such information would undermine the protection of the privacy and the integrity of the individual, in particular in accordance with EU laws regarding the protection of personal data. In this regards the text is not disclosed pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) 1049/2001.

**Commented [A2]:**  
The blanked-out parts contain information regarding the operational area by exclusion. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

The Hellenic Air force Helicopter, with a HCG liaison officer onboard, lifted 6 migrants (5 adults and one minor female) from the aforementioned vessels aprx 90 n.m southwest of Crete and landed them to Chania airport. Immediately the migrants were transferred to Chania Hospital.

#### 4. Assessment

6 migrants [5 adults (3 PSE-1 SYR-1 EGY) and 1 minor female (assumed PSE)] were picked up from 2 merchant vessels and transferred to Chanea Hospital.

The rescued minor female was further transferred to Heraklion Hospital and is in critical condition.

According to the statements of the rescued migrants they were onboard a vessel, together with unknown number of other migrants, which sank while travelling from Damietta (Egypt) towards Italy.

## UPDATE

5 out of total 6 rescued migrants transferred by a Hellenic Air Force Helicopter to Chania Hospital, were interviewed by local HCG personnel, yesterday.

#### **A. According to their statements:**

The estimated persons on board the vessel that sank was more than 500 (most of them EGY, PSE and SYR) They began their journey from Damietta (Egypt) in order to reach Italy.

They embarked on 4-5 small vessels during night time and they were all transferred on a bigger vessel at the sea area of Damietta which was operated by a crew of facilitators.

They headed west and changed their vessel at the sea borders between Egypt and Libya.

Then they headed north and approximately 200 n.m from Malta a big blue iron ship towing another one came next to them.

They were asked to board on the towed vessel.

A big argument followed, between the facilitators and the migrants since the migrants considered the towed boat unsafe and refused to be transferred.

The argument lasted approximately 1 hr and 30'

Then the iron boat operated by a group of 7-8 facilitators made a turn around the migrants boat and rammed it at its starboard side

The migrants boat sank within 20 minutes and the iron boat stayed at the area to make sure that the migrants boat will eventually sink.

Some migrants tried to save their lives embarking on the iron boat but they were violently pushed back by the facilitators crew members.

The 6 rescued migrants remained into the water for 3 days until they were rescued by merchant ships and then transferred by Helicopter to Chania. \*

#### **B. FURTHER UPDATES**

Among the 6 rescued migrants:

4 of them have exited Hospital

1 of them remains hospitalized in Chania Hospital

The minor (2 years old) female who was transferred to Herakleion Hospital into a special infant/child unit, remains under critical condition, since it was diagnosed of renal insufficiency.

**Commented [A1]:** The blanked out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

According to HCG, a Syrian family arrived together with other migrants in an inflatable rubber boat at the coast of Agathonisi island, \* SE of Samos. A one and a half month old boy was reportedly dead on arrival at the coast. The family was brought to Pythagorion and further to Samos hospital where the doctors could not save the baby. According to the father of the deceased boy, on 05th Sept at around 10:00 the rubber boat with about 50 people on board, hit a rock about 50 meters off the shore of Agathonisi \* Some people were thrown out of the boat, so was the boy. They searched for the boy and found him about 10 to 15 minutes later and he was still alive at that time but had surely swallowed seawater. The boy was brought to Samos hospital but could not be saved.

#### Measures

There was no Frontex involvement nor HCG or HP. The family was brought to the hospital and taken care off.

#### Assessment

**SIR 4791/2015**

7.9.2015

Please be informed that today morning during a demonstration by the gathered migrants on the island of Lesbos they set on fire to Kara Tepe. During these fires the one floor container that was transferred from Moria center to Kara tepe was entirely burned. The other container (2 floor) that was about to be transferred also to Kara tepe still remains secured at Moria center.

Serious Incident Report	
Subject	Use of firearms
Joint Operation	Poseidon Sea 2014
Location	Sea area of Pserimos island (LCC Kalymnos)
Incident date/time	22/09/2014 early morning hours
Finding date/time	22/09/2014 early morning hours
Reporting unit/person	LCC Kalymnos

**Commented [A1]:** The non-disclosed text refers to sensitive operational information during the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A2]:** The blanked out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

### 1. Fact of the case

A suspicious high speed plastic boat with one visible person onboard was detected by Hellenic Coast Guard vessel close to a bay of Pserimos island. The HCG vessel attempted to intercept the high speed boat by the repeated usage of sound signals but the skipper of the fast boat not only refused to comply but also tried to escape by making dangerous manoeuvres and repeated attempts to intentionally ram the HCG boat, which resulted to the injury of one HCG officer and the exposure of the other HCG officer life in direct danger.

### 2. Measures

The HCG boat crew, following the foreseen rules of engagement, tried to intercept the high speed boat, initially with the use of warning shots in the air. As the skipper of the high speed boat continued his attempts to ram the HCG boat, there was use of shots to the engine of the speed boat. As a result, the speed boat was immobilized, the HCG crew managed to embark on it and arrest the skipper/facilitator of Turkish origin. Moreover, after a search made 12 migrants were detected inside the cabin of the high speed boat or laying on the deck, 2 of them wounded and one more facilitator of Turkish origin.

**Commented [A3]:** The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

### 3. Assessment

The HCG vessel involved in the incident immediately transferred the Turkish facilitators and the migrants to Kalymnos port. Upon disembarkation, the wounded migrants and HCG officer were immediately transferred to the local hospital.

HCG officer exit the hospital after first aid provided

One of the injured migrant was transferred by helicopter to Rhodes island and the other to Thessaloniki hospital by Hellenic army airplane.

Local Public Prosecutor was informed accordingly.

Further developments on this case will be reported via a SIR update.

**Commented [A2]:** The non-disclosed parts contain sensitive information obtained in the scope of the joint operation and the cooperation with third countries related to the effectiveness of border security. The disclosure of such information would harm the future cooperation between the concerned countries and therefore the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the third indent of Article 4(1) (a) of Regulation (EC) 1049/2001.

**Commented [A3]:** The blanked out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

Fact of the case	
<b>09.09.2015</b>	
<b>03:10:</b>	LCC Samos received information regarding a plastic boat with a group of illegal migrants at position 37° 53.8'N 26° 56.5'E (see image).*
<b>03:40:</b>	The boat with approximately 70 migrants (including 10 children, 4 females) was observed sailing adrift by the LV CPB. Due to bad weather conditions (strong wind) the children and females were taken on board of the LV CPB board. The migrants boat itself with the remaining migrants on board was towed by a HCG vessel in order to be transported to Vathy port.
<b>04:56</b>	A Turkish coast guard vessel came with high speed close to HCG vessel and dangerously rocked the boat with migrants on board due to the backwave it creates. The migrant boat was about to capsize and taking on water. It looked like the TUR Vessel tried to sail between the HCG vessel and the migrant boat but realized in the very last moment, that the migrant boat was towed by the HCG CPB. If the vessel would have continued its course, it would most probably have capsized with the migrant boat. Afterwards the Turkish coast guard vessel made dangerous maneuver around the LV CPB and almost collided with the LV vessel. * After 10 minutes the Turkish coast guard vessel left. The number/name of the Turkish coast guard vessel wasn't seen.
<b>06:30</b>	The group of migrants and the boat were safely transported to Vathy port and handed over to HCG.

**Commented [A4]:** The non-disclosed parts contain sensitive information obtained in the scope of the joint operation and the cooperation with third countries related to the effectiveness of border security. The disclosure of such information would harm the future cooperation between the concerned countries and therefore the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the third indent of Article 4(1) (a) of Regulation (EC) 1049/2001.

Assessment
According to IMO regulations, the TKCG vessel was obliged to contact the HCG CPB to ask if assistance is needed, if he has seen the life rescue boat. The TKCG never contacted or HCG CPB. Instead, with the maneuvers the TKCG Vessel was executing, the captain must have known that this is dangerous for all other boats at the scene of the incident. *

Detection done by Frontex co-financed asset	Yes
Intercepted by	HCG
Interception done by Frontex co-financed asset	Yes
Estimated people on board	
Planned port of disembarkation	Leros
Departure country	Turkey
Involved authorities	LV, HCG,HN, Hellenic Air Force

**Fact of the case**

On September 13th early morning hours JRCC Piraeus received information about a boat with migrants onboard in danger at Farmakonisi sea area. Immediately a large scale SAR operation was launched with the participation of HCG CPBs, HCG OPV, 02 Hellenic Air Force SUPER PUMA HELOs, Hellenic Navy vessel and LV HELO. 34 dead bodies were recovered

**Measures**

A large scale SAR operation was launched with the participation of HCG CPBs, OPV, LV HELO, 2 Hellenic Air Force SUPER PUMA HELO and Hellenic Navy Vessel. A HCG special diving team was immediately transferred to Farmakonisi for assisting the SAR operation

**Assessment**

99 migrants(36SYR,62IRQ,01PSE)-(60 male,17 female,12 male minors and 10 female minors ) were rescued . 34 dead bodies were recovered (4 infants,5 minor females,6 minor males,10 females and 09 males). SAR operation continued for the detection of possible more missing persons.All rescued migrants were transferred to Leros island.All dead bodies were transferred to Rhodes

**SIR 4993/2014**

Last night (26 to 27 September 2014) 75 migrants were transferred and disembarked at Symi island, at the coastal area of Marathunda, by a sailing boat which managed to return back towards the Turkish coasts. \*

HCG personnel headed to the spot in order to apprehend the migrants at land.

By the time of their arrival one woman (approx. 47 years old-SYR) was already dead.

Migrants were all transferred to Symi, some of them with the assistance of the deployed LV CPB.

The dead woman was further transferred to Rhodes Hospital for post mortem.

**Commented [A1]:** The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A2]:** The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

On 15/09/2015 morning hours a suspicious speed boat named "KAPLAN 1" was detected by HR CPB at the sea area of Panagia Oinousses - Chios island. HR CPB attempted to intercept the speed boat by the repeated usage of light and sound signals but the skipper of the boat refused to comply.

#### Measures

The HR crew, following the foreseen rules of engagement, fired warning shots in the air (safe sector) and as a result the speed boat was immobilized. 27 migrants were found onboard and the skipper/facilitator of Turkish origin was arrested. \*

#### Assessment

27 SYR (11 men, 07 women and 09 minors) were apprehended and safely disembarked at Chios island. One (01) TUR facilitator was arrested and one speed boat was seized.

**Commented [A3]:** The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the former to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

#### Fact of the case

07.10.2015

A suspicious yacht (Turkish flag) with two persons onboard was detected by the Swedish coast patrol boat (SE CPB) at Aerodromio sea area. \* The SE CPB crew, following the foreseen rules of engagement attempted to intercept the yacht by the repeated usage of sound and optical signals but the skippers of the yacht refused to comply and also tried to escape by making dangerous manoeuvres which resulted to the ramming of the SE CPB.

The yacht was immobilized after the pursuit and the SE CPB crew managed to embark on it.

Two skippers, of Turkish origin, were arrested.

After search, a plastic bag with 5,67 gr of cannabis was found on the yacht which was confiscated.

#### Measures

#### Assessment

The SE CPB involved in the incident intercepted and transferred the TUR citizens to Lesvos' port. No injuries were reported. Small damages were caused to the SE boat that according to initial assessment will not affect the continuation of the patrolling activities.

**Commented [A1]:** The blanked out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

### 2. Fact of the case

22 November 2014 at about 03:30AM HCG was informed about a group of migrants in a distress situation at the sea area near Plomari (South of Lesvos). ‘  
Immediately a SAR operation was launched and HCG naval assets went to that area and found a group composed of 15 persons swimming in the sea (38° 52,065 026° 25,114°). ‘  
At 05:20AM CPB 602 rescued 13 persons from the sea and the M/V “HIZIR” (Maltese flag) which was near by helped them rescuing 2 persons more. After that CPB 602 and FIB 1007 transferred them to the Port of Plomari.  
The migrants claimed that they came to that area onboard of a polyster boat, 5-6 meters long that was sunk, and that 5 more migrants were missing.

In total 15 persons were rescued, among them 10 males, 4 females and 1 minor, 3 of them were transferred to the Hospital. Their claimed nationalities were 14 SYR and 1 UZB and according with the inquiries performed by HCG the UZB national was the facilitator so he was arrested.

A SAR Operation is still ongoing with the involvement of 4 boats (1 from the Greek Navy and 3 from HCG), 1 HCG PUMA Helicopter and the fishing and cargo vessels that are near by. Latest news said that one male was rescued from the sea and transferred to the Hospital of Plomari so according with the information provided by the migrants (not confirmed) there are still 4 persons missing (3 male and 1 minor).

---

### 3. Measures

A SAR Operation is still ongoing with the involvement of 4 boats (1 from the Greek Navy and 3 from HCG), 1 HCG PUMA Helicopter and the fishing and cargo vessels that are near by. Latest news said that one male was rescued from the sea and transferred to the Hospital of Plomari, so according with the information provided by the migrants (not confirmed) there are still 4 persons missing (3 male and 1 minor).

---

### 4. Assessment

## Serious Incident Report no. 200

FSC SIR Category	1 Standard
Subject	SAR case with 04 dead
Type of SIR	1 Initial SIR
JORA Incident number (if any)	
Joint Operation	Poseidon Sea 2015
Frontex SIR Coordinator	
Incident date/time	18/10/2015 07:30 AM
Detection date/time	18/10/2015 07:30 AM
Original source of the information	Sailing yacht
Location of the incident	Sea area south north west of Megisti island (LCC RHODES)
Is latitude unknown	Yes
Latitude	
Is longitude unknown	Yes

Reference to the operational area	Yes
Frontex resources involved (Human resources / co-financed technical equipment)	No
Type of resources / involvement	HCG FIB, sailing yacht.
Dead persons	4
Injured persons	
Missing persons	4

**Commented [A1]:** The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

Serious Incident Report related to Search and Rescue action	
SAR activated date/time	18/10/2015 07:30 AM
SAR activated by whom	JRCC PIREAUS
Boat in distress	
Type	plastic / composite
Flag, name, IMO if available	
Detected by	Sailing yacht
Detection done by Frontex co-financed asset	No
Intercepted by	HCG
Interception done by Frontex co-financed asset	No
Estimated people on board	17
Planned port of disembarkation	Megisti
Departure country	Turkey
Involved authorities	HCG

**Fact of the case**

On 18th October at 07:30 LT, 11 migrants and one facilitator were detected on a semi sunk rubber boat and rescued by a sailing boat at the sea area NW of Megisti.\* A dead infant was also recovered by the sailing boat. According to the rescued migrants statements four more persons were missing. HCG FIB 1013 performed search in the sea area and three bodies were recovered. Later on a second facilitator was detected ashore at Megisti and arrested.

**Measures**

A SAR operation was launched with the participation of HCG FIB .

**Assessment**

11 migrants (SYR)-(04 males,03 females, and 04 minors ) were rescued . 04 dead bodies were recovered from the sea (01 male,01female,01 minor male and 01 infant). 02 facilitators (SYR) were arrested .All rescued migrants and the dead bodies were transferred to Megisti island.

**Fact of the case**

On October 29th at 22.50 LT HCG FIB 1012 detected a boat capsized and group of migrants at sea at the sea area of Kalolimnos -Kalymnos island. \* Immediately a large scale SAR operation was launched by JRCC Piraeus with the participation of HCG CPBs, FIB, OPV, HAF S/P, FI CPB and fishing vessels. FI CPB rescued approx. 50 migrants and recovered one dead body from the sea while the rest were rescued and recovered dead by HCG and fishing vessels. In total 140 migrants and 01 facilitator were rescued while 17 dead bodies were recovered from the sea. Two (02) dead bodies were recovered from the capsized boat by private divers. According to migrants' statements, one person is missing. 2 of the total 141 rescued persons are hospitalized. Search is still ongoing for the assumed missing migrant.

**Measures**

A large scale SAR operation was launched with the participation of HCG CPBs, FIB, OPV, HAF S/P, FI CPB and fishing vessels.

**Assessment**

140 migrants (16 IRQ-124 SYR) and 1 SYR facilitator were rescued while 17 dead bodies were recovered from the sea and two more dead bodies from the capsized vessel by private divers. Search is still ongoing for the assumed missing SYR migrant.

**Fact of the case**

During the border surveillance patrol east of Mytilini /Lesvos \* with the Swedish Coast Guard CPB KBV 477 and the crew of Com. [REDACTED], navigator [REDACTED] and engineer [REDACTED] chief of staff [REDACTED] and LO [REDACTED] spotted a pleasure craft Azimut Yacht [REDACTED] on Greece territorial water at about 12.30. The ship was heading north, named Yuksel DE and was about 65 feet. \*

Aware of migrant smuggling and trafficking we decide to execute a border control. At 12.40 we were on the port side of the ship and we started signaling to the captain that we wanted him to stop. A man came out on the deck and shouted something about the captain not like to stop. The KBV 477 crew tried to alert the boat to stop by signaling with a stopsign, shout loud, using the horn but the captain knowingly accelerated and quickly reached at least 30 knots. Kbv 477 started to trail the ship. The ship seemed to be heading for the Turkish border and Kbv 477 caught up and continued to signaling on the starbord side and tried to force the ship to go port, away from the Turkish border. After a several attempts to stop the progression, and on a several occasions it was very close to collision. Finally KBV 477 manage to board the boat in position N39 07 22 E026 40,05 after 3NM, \* and succeeded. During the boarding a Swedish coast guard officer was squeezed between the wheelhouse and the Turkish boathull and was injured. Two crew members from Kbv 477 entered the ship and the person onboard the Turkish boat was arrested and KBV 477 took the Turkish boat to Mytilini. In Mytilini help arrived from Greek Coast Guard and they search through the Turkish ship, this because we wasn't sure if the man was alone onboard and difficulties to search the ship with only two from the Coast Guard crew. After help from Hellenic Coast Guard special forces, \* we could not found the "Captain" the arrested man was talking about. We search the vessel and no additional people was found on board. We also used a dog for searching the ship. \* Nothing of interest was found.

**Commented IA21:** The non-disclosed text contains the names of actors participating in Frontex activities. The disclosure of such information would undermine the protection of the privacy and the integrity of the individuals, in particular in accordance with EU laws regarding the protection of personal data. In this regards the text is not disclosed pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) 1049/2001.

**Commented IA31:** The non-disclosed text contains the name and type of the yacht used to facilitate irregular migration. The disclosure of such information would affect operational activities in the area by law enforcement to prevent criminal activities, therefore it would harm the public interest as regards public security. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented IA41:** The non-disclosed text here and below contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

#### Measures

The Swedish Coast Guard officer was transported by ambulance to Mytilene hospital for x-ray. They could spot a crack on the hip and further examination will be executed \*

#### Assessment

The result of the examination tells that there is a fracture on the hipbone and a operation is needed. The operation will be executed in Sweden and a medi-evac is necessary, hopefully today. After operation there will be need for a longer convalescent \*

**Commented [A5]:** This blanked out part contains information about the medical condition of an actor participating in Frontex activities. The disclosure of such sensitive information would undermine the protection of the privacy and the integrity of the individual, in particular in accordance with EU laws regarding the protection of personal data. In this regards the text is not disclosed pursuant to the exception laid down in Article 4(1)(b) of Regulation (EC) 1049/2001.

The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A2]:**

The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

On 15/11/2015 at 23:20 LT a speed boat was detected by FIN CPB at the sea area of cape Ammoglossa \* trying to escape back to Turkey after having disembarked UNK number of migrants ashore. FIN CPB attempted to intercept the speed boat by the repeated usage of light and sound signals but the skipper of the boat refused to comply.

#### Measures

The HCG liaison officer of the FIN CPB, following the foreseen rules of engagement, fired a warning shot in the air (safe sector). As a result the boat was stopped. 2 facilitators (AFG) were arrested onboard and speed boat was seized.

#### Assessment

#### Commented [A2]:

The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

### Commented [A1]:

The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

### Commented [A2]:

The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

On 24/11/2015 at 22:40 LT a suspicious fast boat was detected by FIN CPB at the sea area of cape Ammoglossa- Kos island. \* FIN CPB attempted to intercept the speed boat by the repeated usage of light and sound signals but the skipper of the boat refused to comply and performed dangerous maneuvers.

#### Measures

The HCG liaison officer of the FIN CPB, following the foreseen rules of engagement, fired warning shots in the air (safe sector). Since the facilitator (skipper of the smuggling boat) was still not complying, the HCG LO fired two targeted shots to the outboard engine of the boat and as a result the boat was immobilized. 01 facilitator (TUR) was arrested onboard. Moreover 17 migrants were detected onboard and apprehended.

#### Assessment

One (01) facilitator was arrested and one fast boat was seized. 17 migrants (6 male-3 female-8 minors) were apprehended. Smuggling boat immobilized with the use of firearms

#### Commented [A3]:

The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**SIR 7107/2015**

**Facilitator's boat crashed against HRV CPB deployed in Chios**

24.11.2015 early morning, the Croatian CPB deployed in the frame of Poseidon Sea 2015 was pursuing two facilitators in a small boat with an engine that had just disembarked ten migrants on shore. \* The facilitator's boat started to make dangerous manoeuvres and at the end crashed against the Croatian CPB. Finally the facilitators were arrested by the Greek coast guard. The Croatian CPB doesn't have serious damages but the facilitator's boat sunk.

**Initial Serious Incident Report no.**

Missing persons	0

**Commented [A1]:**

The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

**Fact of the case**

On 27/11/2015 at 07.45 HRV CPB, while patrolling off SW of Oinousses Islands close the rocky area of Prasonissia, \* detected some life jackets at sea and decided to approach the shore in order to check whether some persons/migrants were in danger due to the bad sea conditions (7 beaufort South wind), but due that, the HRV crew couldn't check the depth of water and for this reason the boat collided with some rocks at shallow-water and got stuck.

The HRV CPB got damages to the propellers and axes (see photos) and requested support from a tug boat in order to be refloated from the sea area avoiding oil pollution and additional damages to the hull.

Immediately after the incident the HCG CPB 611 reached and checked the sea area and the hull of the boat by divers.

**Measures**

The local prosecutor requested to the HCG and Port Authority of Chios to investigate for the occurred incident.

The LCC Coordinator was appointed by the Port Authority of Chios as pre-interrogator officer of the case.

**Assessment**

The LCC Coordinator stated that the HRV crew wasn't responsible for the incident, because they did their best in order to avoid the collision in argument.

The crew sailed according to the rules of navigation, highlighting that the sea area in question was very dangerous even for very experienced HCG officers.

**Commented [A1]:** The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

**Commented [A2]:** The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

On 06/12/2015 05:33 LT a fishing boat "Nautilus" reported that a suspicious boat is heading from land back to Turkish coasts, at the sea area South of Lesbos island. At 05:58 LT NOR CPV detected the suspicious boat with no lights on and attempted to intercept the boat by the repeated usage of light and sound signals but the boat refused to comply, throw a package into the water and tried to escape.

#### Measures

A crew member of the NOR CPV, following the foreseen rules of engagement, fired a warning shot in the air (safe sector). As a result the boat was immobilized. 02 facilitators (SYR) were arrested onboard. Moreover they had disembarked unknown number of migrants ashore.

#### Assessment

Two (02) SYR facilitators were arrested and one boat was seized.

#### Commented [A3]:

The non-disclosed text contains information regarding an actor involved. The disclosure of such information would place that actor in danger. Moreover if identities of those actors reporting suspicious activities were revealed publicly, it would discourage such reporting, harming the performance of future intelligence and operational tasks and thus the public interest as regards public security. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

#### Commented [A4]:

The blanked out part contains information regarding the operational area. Its disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Commented [A5]:

The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the former to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

### Commented [A1]:

The non-disclosed text contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the former to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

### Commented [A2]:

The blanked-out parts contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

#### Fact of the case

On 14/12/2015 07:10 LT SWE CPB detected a suspicious boat with approx. 12 pob heading towards Lesbos \* The SWE CPB attempted to intercept the boat by the repeated usage of light and sound signals but the driver of the suspicious boat fired two shots to unknown direction. Then a crew member of the SWE CPB, following the foreseen rules of engagement, fired two warning shots to the water (safe sector). The suspicious boat continued its course and fired again twice up in the air. Another round of warning shots were fired by SWE CPB to the water. The facilitator fired again two shots and escaped entering to Turkish territorial waters. \*

#### Measures

A crew member of the SWE CPB, following the foreseen rules of engagement, during the effort to intercept a suspicious vessel, fired in total of four warning shots to the water.

#### Assessment

The suspicious cruiser boat managed to escape back to Turkey after the pursuit by the SWE CPB.

**Commented [A3]:** The non-disclosed text here and below contains sensitive operational information describing the encounter between law enforcement officers and a facilitator, and in particular the method used by the formers to stop the latter and prevent criminal activities. The disclosure of such information would harm ongoing and future operations and thus harm the public interest. In this regard the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation (EC) 1049/2001.

Incident date/time	19/12/2015 12:50 PM
Detection date/time	19/12/2015 12:50 PM
Original source of the information	Land observatory
Location of the incident	Sea area North of Fanos (Panagia island)
Is latitude unknown	No
Latitude	38.52000000000000 *
Is longitude unknown	No
Longitude	26.277222222222200 *
Reference to the operational area	Yes
Frontex resources involved (Human resources / co-financed technical equipment)	Yes
Type of resources / involvement	HCG CPB 611 - SAR 515
Dead persons	1
Injured persons	
Missing persons	

**Commented [A1]:** The blanked-out parts here and below contain information regarding the operational area. Their disclosure would expose law enforcement officials patrolling the area and harm the course of future and ongoing operations, thus facilitating irregular migration. This would undermine the protection of the public interest as regards public security. In light of the above, the text is not disclosed pursuant to the exception laid down in the first indent of Article 4(1)(a) of Regulation No 1049/2001.

Serious Incident Report related to Search and Rescue action	
SAR activated date/time	19/12/2015 12:50 PM
SAR activated by whom	HCG
Boat in distress	
Type	
Flag, name, IMO if available	
Detected by	HCG CPB 611
Detection done by Frontex co-financed asset	No
Intercepted by	HCG CPB 611
Interception done by Frontex co-financed asset	No
Estimated people on board	63
Planned port of disembarkation	Chios
Departure country	Turkey
Involved authorities	HCG

**Fact of the case**

On December 19th at 12.50 HCG received information from a land observatory regarding a wooden boat with migrants that grounded and eventually capsized at a rocky area North of Fanos -Panagia island \* Immediately a SAR operation was launched and HCG vessels rescued 62 persons, among them a SYR facilitator and they were all transferred to the port of Chios. A missing minor's male body was later on recovered at Panagia coastal area \* and was transferred to Chios' hospital.

**Measures**

Immediately a SAR operation was launched by HCG after information received.

**Assessment**

61 migrants (51 IRQ-10 SYR) and one SYR facilitator were rescued. Moreover one dead body (IRQ/ male minor) was recovered ashore.

#### Fact of the case

A fire broke out on 24/12/2015 at 20.50 in HCG SAR vessel 512, which was anchored in Lakki Leros port. The fire was extinguished by the crew of the HCG SAR vessel with the assistance of fire fighting vehicles. No injury occurred. The causes of the fire are investigated.

#### Measures

The fire was extinguished by the crew of the HCG SAR vessel with the assistance of fire fighting vehicles

#### Assessment

No injury occurred. Extended damages at the interior of the vessel were caused. The causes of the fire are investigated.

Serious Incident Report	
Subject	Category 2 _ Use of firearms in JO Facilitator's fatality
Joint Operation	Poseidon-sea 2013 - Extension
Location	Island of Kos (LCC Kos)
Incident date/time	15-04-2014 / early morning hours
Finding date/time	
Reporting unit/person	ICC Coordinator

### 1. Fact of the case

Early hours today, the Hellenic Coast Guard (HCG) Authority of Kos was informed by an Army observation post about the disembarkation from a speedboat of several migrants, at the coastal area of Kos Island. A HCG surface asset rushed to the area and detected the speedboat with one operator, heading at high speed towards the Turkish coastline.

The HCG boat attempted to intercept the high speed boat by repeated usage of sound signals but the operator not only refused to comply but also tried to escape by making dangerous manoeuvres and repeated attempts to intentionally ram the HCG boat.

Following the foreseen rules of engagement, the HCG boat crew tried to immobilize the high speedboat, with the use of warning shots at safe areas and towards the outboard engine of the speedboat. This resulted in the fatal injury of the skipper, possibly due to projectile deflection.

### 2. Measures

The body of the deceased trafficker was transferred to Kos Local Hospital for autopsy.

An investigation of the events of the incident is being carried out by the Kos District Attorney whereas the Navy Court Marshall Attorney was also informed.

Later this morning the 7 illegal migrants disembarked at the coastal area of Psalidi/ Kos by the above mentioned speedboat, were apprehended by staff of Kos HCG Authority and transferred to Kos for further processing.

### 3. Assessment

The HCG boat is not co-financed by Frontex.

Further developments on this case will be reported via a SIR update.
