Good Morning!

Here is what we have come up with - obviously, it can change in any way but at least this is a start.
Pricing should be forthcoming.

Let me know what you think! Rocky

It's okay to print this email. Paper is a sustainable product made from trees. Sustainably managed forests are good for the environment, providing clean air and water, wildlife habitat and carbon storage. Thanks to responsible forest management, we have more trees in America today than we had 100 years ago.
