Responsibility to protecting the environment

- ✓ environmental responsibility
- ✓ energy saving
- ✓ sustainable development
- ✓ recycling

FOTODIASTASI does not limit its environmental actions to only accomplish with the binding environmental laws.

In order to promote a sustainable development, FOTODIASTASI keeps studying materials and procedures in order to develop new improvements for a better care of the environment and introduce them in our manufacturing process.

Environmental Policy

At FOTODIASTASI BULGARIA we believe that we have a moral obligation to preserve our rural environment. We believe that a continued focus on good environmental management is positive not only from a sustainability and good business practice point of view, but will also help us to create a better and more healthy product.

FOTODIASTASI BULGARIA is committed to high standards of environmental performance across all of our lighting business.

We use efficient and renewable energy technologies and offer energy saving lighting products that are compliant with environmental protection laws.

Our aim is to significantly reduce environmental pollution as well as protect people from exposure to hazardous materials.

Trees being oxygen filters, providing shelter and food for humans as well as animals and their influence on the climate.

In order to help the environment, at FOTODIASTASI BULGARIA last year we have planted over 300 trees in our facilities in South part of the country.

Apart from our lighting business, our staff and specialized agronomists helping us to grow grapes and make our own wine, a wine that will be offered free of charge to FOTODIASTASI family and its clients worldwide.

FOTODIASTASI & ECOLOGY

Committed to protecting the environment

With great enthusiasm and strong social responsibility, FOTODIASTASI GREECE aspires in the illumination field for energy conservation and environmental protection.

Protecting the environment is not just sound business practice and part of our duty as a good corporate citizen, but it is also a key success factor for our company.

In our global operations, featuring a great diversity of processes, products and services, our company is concerned with sustaining the natural resources essential to life.

By employing innovative manufacturing methods, improving LED products and maintaining high environmental standards, we work to overcome environmental challenges all over the world.

In a similar way to ensuring our products meet the toughest standards, our factories and several sales points around the world, are certified according to ISO 14001, the internationally recognized Environmental Management Standard.

The comprehensive quality management system ensures that FOTODIASTASI lighting systems offer certified quality from the development phase to the materials used and the end product itself.

Individual components, plastics and metals can be re-used when a light has reached the end of its lifecycle.

Our knowledge and our solutions are helping to create a better world.

We have a responsibility to the wider community and we are committed to environmental protection.

At FOTODIASTASI GREECE just because of the benefits that our planet and ourselves get from trees, at 2011 we have planted over 200 palm trees in our Greek facilities.
