## **Section One**

#### Introduction

#### Introduction

The Education Cost Sharing (ECS) grant has been in existence since 1989-90. It continues to be Connecticut's primary education equalization aid program. With funding set at \$1.89 billion in 2008-09, ECS will account for well over 50 percent of the total state contribution to public elementary and secondary education.

This guide sets out to provide a fairly detailed explanation of the various formula factors. There is a calculation model and a table of 2008-09 ECS data elements, making it possible to compute any town's ECS fully funded aid or grant. There are two additional tables that list each town's 2008-09 ECS grant and each town's grant per resident student. (These tables do not take into account grant adjustments that may be necessary due to the recalculation of the prior year's grant as a result of audited data changes.)

There were significant changes to the ECS formula beginning in 2007-08:

- The Foundation was increased from \$5,891 to \$9,687.
- The Minimum Aid Ratio was increased from 6 percent to 9 percent.
- The State Guaranteed Wealth Level was increased from 1.55 to 1.75 times the median town wealth.
- All towns guaranteed at least a 4.4 percent increase over their previous year entitlement.
- The cap limiting grant increases was eliminated.
- Definition of Need Students was changed from 25 percent Aid to Dependent Children + 25 percent for remedial performance + 10 percent for Limited English Proficiency (LEP) to 33 percent Title I poverty + 15 percent LEP.

For 2008-09, the only significant change to the formula is that students that attend a full time magnet school are reduced by 25 percent in determining need students.

Questions about this material may be referred to Kevin Chambers at kevin.chambers@ct.gov or (860) 713-6455.

#### **Section Two**

## **ECS Fully Funded Grant Factors**

### **Town Student Need Counts**

The current definition of ECS Need Students utilizes three different measures:

**Resident Students** are those regular education and special education pupils enrolled at the expense of the town on October 1 of each school year. Extra weighting is added for an extended school year due to operating in excess of 180 days and/or providing tuitionfree summer school. Resident students are credited to the town fiscally responsible for the students' education. Although not specifically defined in statute, "enrolled at the expense of" is taken to mean that the town can document some level of fiscal support for a student's education even though funding from other sources may provide for most of a particular student's costs. Sending and receiving districts each receive half-credit for each student participating in the Open Choice interdistrict attendance program. Students sent out of district on a tuition basis remain in the sending town's count. The resident student count from the school year prior to the year in which the grant is to be paid is used (one-year-old data). Resident students account for over 90 percent of the weighted need count in most communities. Public school children enrolled in the School Readiness program funded by the state grant pursuant to Section 10-16p of the Connecticut General Statutes cannot be counted for ECS purposes.

**Poverty Students:** Because of the relationship between concentrations of poverty and educational needs, the resident student count for each town is supplemented by weighting for poverty. Beginning with the 2007-08 ECS grant, each town's Title I poverty weighted at 33 percent is used as the index of poverty within a community. Prior to this year, the 1996-97 Temporary Family Assistance (TFA) counts weighted at 25 percent were used as the poverty proxy.

Limited English Proficient (LEP) Students: State law requires that where there are at least 20 LEP students of the same language in a school, districts must establish comprehensive bilingual programs for these students. The state provides some funding for these programs through its bilingual grant. The LEP students served under the bilingual grant program represent about two-thirds of the total LEP student population. The remaining third, not funded under the bilingual grant, are included in the ECS need student count at 15 percent weighting. Two-year-old data is used. Starting with the 2007-08 ECS grant, the applicable LEP students are weighted at 15 percent, where previously they had been weighted at 10 percent.

**Magnet Students:** Magnet students have always been included in the sending districts resident student count. For the 2008-09 ECS grant 25 percent of those students will no longer be counted in determining need students.

#### **Summary of Need Students**

In summary, each town's total need student count is based on resident students adjusted for poverty (Title I), LEP and magnet students:

#### Town Wealth

Town wealth is determined based on a town's property tax base and the income of its residents. The property tax base is measured per student and per person. Income is measured on a per capita and a median household basis. These factors are then averaged and combined as shown below. The property tax base is the value of taxable real and personal property (net grand list) at 100 percent fair market value and is called the Equalized Net Grand List (ENGL). ECS uses a three-year average of ENGL. The use of an average helps to stabilize town wealth, especially for those towns experiencing significant increases or decreases in a given year, particularly during a year of revaluation. Property tax base is used because it is the form of wealth taxed by Connecticut towns. The definition of wealth also uses income, because the income from which taxes are paid has an important affect on town taxing capacity.

ENGL = Equalized Net Grand List (three-year average) (CT Office of Policy and Management)

PCI = Per Capita Income (U.S. Bureau of the Census)

HPCI = Highest Town PCI

MHI = Median Household Income (U.S. Bureau of the Census)

HMHI = Highest Town MHI

POP = Total Population (U.S. Bureau of the Census)

Need = Need Students (CT Department of Education)

The ECS formula was designed to allow towns to tax themselves at the same equalized rate to raise their relative shares of the foundation. The state makes up the difference up to the State Guaranteed Wealth Level (SGWL). In determining the state's share of the foundation for each need student, each town's wealth is compared to the SGWL. The higher the SGWL, the higher the overall state share. The original 1988 ECS legislation set the SGWL to twice the median wealth, whereby the median town would receive from the state exactly one-half of the foundation. The SGWL was reduced to 1.835 times the median in 1989-90, to 1.6551 in 1990-91, and further reduced to 1.5361 in 1991-92. In 1995-96, it was raised to 1.55, and was raised again to 1.75 in 2007-08. The state aid percentage or base aid ratio is inversely related to a town's wealth. For most towns, their base aid ratio cannot be less than 9 percent. If a town's Title I Poverty to 5-17 population rank is less than 21, then their base aid ratio cannot be less than 13 percent.

#### **Foundation**

The foundation is a per weighted student amount. The foundation began a four-year phase-in at \$3,918 in 1989-90 and increased 7 percent annually, reaching \$4,800 in 1992-93. Under the original legislation, starting in 1993-94 and for each year thereafter, the foundation was to be a function of the regular education expenditures per need student of the town where the 80th percentile student resided when all towns were ranked on expenditures per pupil from three years prior. The intent was to help further reduce spending disparities between the wealthiest and poorest districts. However, the legislature froze the foundation at \$4,800 through 1994-95. In 1995-96, the foundation was raised to \$5,711, primarily to accommodate the consolidation of special education into the ECS funding formula. The foundation was raised in 1998-99 to \$5,775, to \$5,891 in 1999-2000, and to \$9,687 beginning in 2007-08.

## **Regional Bonus**

Towns that are members of K-12 regional districts are entitled to a sum of \$100 per student enrolled. Towns that are members of secondary regional districts receive \$100 per student attending the region times the number of regional grades divided by thirteen. Elementary districts who tuition their secondary students to designated high schools are not eligible for the bonus. In Connecticut, there are currently two different secondary regional configurations: 7 - 12 and 9 - 12. The members of 7 - 12 regions receive \$46.15 per student, while 9 - 12 member towns receive \$30.77 per student.

## **Section Three**

## Fully Funded Grant and Phase-In Entitlement

## **Fully Funded Grant**

The fully funded grant is comprised of two parts: base formula aid and the regional bonus. The fully funded grant represents the basic aid that a town is entitled to under the equalization formula irrespective of the phase-in of the entitlement or statutory minimum grants.

Need Base
Base Formula Aid = Students x Aid Ratio x Foundation

Regional Regional Number of
Bonus = Enrollment x \$100 x Regional Grades / 13

Fully Funded Grant = Base Formula Aid + Regional Bonus

#### **Phase-In Entitlement**

The ECS entitlement is being phased in over a number of years. To date, the length of the phase-in has not been defined in statute. In addition, all towns are guaranteed a minimum entitlement of at least a 4.4 percent increase over their previous year's entitlement. For 2008-09, the effective phase-in percentage, after adjusting for those towns receiving their minimum 4.4 percent increase, was 15.7111 percent.

Minimum 2007-08 (2007-08 Entitlement Entitlement + x 4.4 percent)

Phase-In Greater of 0 or (Fully Funded 2006-07)
Amount = Grant - Entitlement) x .157111

Phase-In 2006-07 Phase-In Entitlement + Amount

### **Section Four**

## **ECS Entitlement**

## **ECS** Entitlement

For 2008-09, the ECS entitlement is equal to the greater of the minimum entitlement (4.4 percent increase) or the 2008-09 phase-in entitlement.

ECS Phase-In Minimum
Entitlement = Greater of Entitlement or Entitlement

On the following pages you will find a 2008-09 ECS calculation worksheet, the accompanying data elements for the 169 towns, town-by-town ECS entitlements, and entitlements per resident student.
