INVESTIGATIVE SERVICES
BUREAU

TO: Sergeant Terry Freed 4357
FROM: Detective Stephen Berg 4726
SUBJECT: Cellebrite UFED

We utilize the Classic Cellebrite UFED to extract phone data for Investigative Units, especially for Violent Crime Units. We obtained the device in 2011 to assist the Homicide Unit in their investigations. Since receiving the device we have seen an increase in the number of detectives coming to PIC to have us download phone data.

Recently, I visited the RCFL to gain further knowledge about the two available UFED devices. (Classic VS. Touch). During my visit I spoke with Mr. Gatewood who is an Information Technology Specialist for the FBI. He stated the new UFED Touch is much faster. He also stated the classic device, which we have, will not be supported in the near future and we will have to upgrade to the UFED Touch. I then contacted our Cellebrite sales representative, Bryan Carroll, who confirmed that in 18-24 months the classic device will no longer be updated for newer phones because it does not have the ability to keep up with the newer phones. He confirmed the UFED Touch is much faster and has the ability to extract data from approx. 200 more cellular phone models.

We have the option of trading our Classic model for a UFED Touch. I have attached a quote from Cellebrite on the cost of the upgrade. I recommend we take advantage of the trade in option. This will significantly increase our ability to extract more data as well as obtain information in a timely manner.

Det. Stephen Berg 4726
Det. Stephen Berg 4726

Captain Caron,

The Cellebrite is the single most important piece of equipment we utilize to assist the Investigations Bureau, primarily the Homicide Unit. Last Friday, our current UFED device took approx. 8 hours to extract data from an iPhone in a homicide investigation. The extracted data was used to solve the case and lead to multiple arrests. The UFED Touch would have extracted the data in a fragment of the time. Additionally, the UFED Touch can unlock many cellular phones. Our current device has very limited unlocking capabilities. I cannot stress enough, the importance of obtaining the UFED Touch as quickly as possible. I recommend one UFED Touch be purchased immediately, utilizing KCPD general funds, for the PIC Unit. The annual licensing fees/maintenance fees will remain the same.

Sgt. Terry Freed 4357
Sgt. Terry Freed 4357

MAJOR CORWIN,

THIS IS A CRITICAL INVESTIGATIVE TOOL. I CONCUR AND RECOMMEND APPROVAL FOR PURCHASE AS LESTER.

MAJ YOUNG,

RECOMMEND REPAIRING

John Caron

To: Freed, Terry L
Subject: FW: Cellebrite Renewal

Sgt. Terry Freed,

Here is the price of the License Renewal for the UFED.

Det. Stephen Berg

From: Bryan Carroll [mailto:Bryan@cellebriteusa.com]
Sent: Friday, July 19, 2013 9:54 AM
To: KCPD_PIC
Subject: Cellebrite Renewal

Hi Det. Berg,

This is email is to notify that when you trade in for the new Touch the license renewal cost will be the same as it is now, \$2,9998.99. The renewal will be coming up on 1/28/2014. Unfortunately I do not have any additional white papers on the device, just what we have on our website. Please let me know if you have any questions. Thank you!

Best Regards,

Bryan Carroll

TO: Capt. David Lindaman, Acting Major, Violent Crimes Division
FROM: Sgt. Jeffrey Downing, Operations Sgt., Violent Crimes Division
SUBJECT: Replacement of the Homicide Unit's Cellebrite UFED System

Capt. Lindaman,

Recently it was learned that the Homicide Unit's Cellebrite UFED System quit working for a short time and that the license was set to expire. This Cellebrite system is a 2009 Model and is antiquated. It also has pieces inside the unit that is rattling and it is believed that the unit is ready to malfunction permanently.

Det. Stephen Berg of the Perpetrator Information Center recently conducted research on the Cellebrite system so that they could purchase one (See Supporting Documentation).

As you can see from the supporting documentation that the Cellebrite we currently have is outdated and that it has been confirmed that in 18-24 months it will not be serviceable. It also discovered that the Cellebrite Companies are the only vendors of this kind of technology per Faye Choate of the Purchasing Section.

The Homicide Unit uses the Cellebrite UFED System extensively and it has been a useful tool for this unit and all of Violent Crimes for that matter.

I recommend that we trade our Classic model for a new UFED Touch. I have attached an official quote from Cellebrite on the cost of the upgrade (\$5,084.00 for a UFED Touch Trade Ultimate to Ultimate). The quote was received on Sept. 23, 2013 and is shown to be good until October 31, 2013. We will also have to renew our license at a cost of \$2,998.99.

Respectfully Submitted,

Sgt. Jeffrey Downing #4354

Approved. Previous purchase made from
0100 021 1050 B 1620. Forward to
Purchasing.

Re: Replacement of Cellbrite Machine

Unit/Section Supervisor

Unit Commander

Division Commander
DC Hopkins,

I recommend approval for a sole source purchase of a new Cellbrite machine and a new Cellbrite license for use within the VCD with consideration for funding from the minor equipment account.

A/MS David W. Linderman

Bureau Commander

TO: Sergeant Terry Freed 4357
FROM: Detective Stephen Berg 4726
SUBJECT: Cellebrite UFED

We utilize the Classic Cellebrite UFED to extract phone data for Investigative Units, especially for Violent Crime Units. We obtained the device in 2011 to assist the Homicide Unit in their investigations. Since receiving the device we have seen an increase in the number of detectives coming to PIC to have us download phone data.

Recently, I visited the RCFL to gain further knowledge about the two available UFED devices (Classic VS. Touch). During my visit I spoke with Mr. Gatewood who is an Information Technology Specialist for the FBI. He stated the new UFED Touch is much faster. He also stated the classic device, which we have, will not be supported in the near future and we will have to upgrade to the UFED Touch. I then contacted our Cellebrite sales representative, Bryan Carroll, who confirmed that in 18-24 months the classic device will no longer be updated for newer phones because it does not have the ability to keep up with the newer phones. He confirmed the UFED Touch is much faster and has the ability to extract data from approx. 200 more cellular phone models.

We have the option of trading our Classic model for a UFED Touch. I have attached a quote from Cellebrite on the cost of the upgrade. I recommend we take advantage of the trade in option. This will significantly increase our ability to extract more data as well as obtain information in a timely manner.

Det. Stephen Berg 4726
Det. Stephen Berg 4726

Captain Caron,

The Cellebrite is the single most important piece of equipment we utilize to assist the Investigations Bureau, primarily the Homicide Unit. Last Friday, our current UFED device took approx. 8 hours to extract data from an iPhone in a homicide investigation. The extracted data was used to solve the case and lead to multiple arrests. The UFED Touch would have extracted the data in a fragment of the time. Additionally, the UFED Touch can unlock many cellular phones. Our current device has very limited unlocking capabilities. I cannot stress enough, the importance of obtaining the UFED Touch as quickly as possible. I recommend one UFED Touch be purchased immediately, utilizing KCPD general funds, for the PIC Unit. The annual licensing fees/maintenance fees will remain the same.

Sgt. Terry Freed 4357

MAJOR CORWIN,

THIS IS A CRITICAL INVESTIGATIVE TOOL. I CONCUR AND RECOMMEND APPROVAL FOR PURCHASE - AS LISTED.

MAJOR YOUNG,

RECOMMEND REPLACING

Subject: Cellebrite Renewal

Hi Det. Berg,

This email is to notify that when you trade in for the new Touch the license renewal cost will be the same as it is now, \$2,999.99. The renewal will be coming up on 1/28/2014. Unfortunately I do not have any additional white papers on the device, just what we have on our website. Please let me know if you have any questions. Thank you!

Best Regards,
Bryan Carroll
