## **Cincinnati Public Schools Releases Carson School Video**

Our hearts are broken by the loss of this child, and our thoughts are with his parents and extended family. He was an outstanding young man, and this is a great loss for his family and our school community.

In an effort to be completely transparent, we are releasing the video that was reviewed as part of an investigation by the Cincinnati Police Department. As all are aware, no charges resulted from that investigation. We have uploaded the video, in its entirety, blurring out faces of the students who appear to protect their privacy.

We ask that you review the video, in its entirety. It is our firm position that the allegations portrayed in the media are not supported by the video.

Cincinnati Public Schools is reviewing with faculty and staff the procedures regarding adult supervision in the restrooms. We are committed to student safety and ensuring that all CPS schools foster a positive, learning environment.
