Hello Tom. We will continue to be supportive, however we are working on many issues at the moment that require staff time that may not allow Nick to attend a DC trip for four days. Can you tell me what exact issues are being advocated on this trip? Isn't Les Clark attending as well representing petroleum industry?

Suzanne, I hope all is well with you. I wanted to follow-up on our upcoming trip to Washington DC to advocate concerning air quality issues in the San Joaquin Valley. WSPA has been a strong supporter of our federal efforts to improve the Clean Air Act and garner resources for our air quality efforts in the San Joaquin Valley. I have reached out to Nick about attending this year's trip (March 31st-April 3rd) and haven't gotten a final response. We are holding a hotel room for a WSPA representative at this point and need to know.

WSPA adds a lot to the coalition that we take back to DC and we hope you will continue to support our efforts. If you can contact me and let me know, I would appreciate it. Thanks.
