Attestation and Disclosure Form

Attestation and Disclosure Form

This electronic system combines the annual attestation to the Code of Conduct with the disclosure form. The intent of the disclosure is to help you identify external interests* and activities you have that might affect or be affected by the roles you perform at the University of Louisville or under the auspices of the University of Louisville (Institution). This annual disclosure is collected to comply with federal regulations, state statutes and University of Louisville Policies. The main goals of these regulations, statutes and policies are to assure that a Covered Individual's external interests* and activities do not compromise the integrity of academic, business, clinical and research missions of the Institution and to maintain the public trust through disclosure and management of real or perceived conflicts of interest. These regulations, statutes and policies may not prohibit external interests* that might benefit employees, but they do require that they are fully reported to the Institution, reviewed and managed as appropriate.
