Jana Miller from DWR

Client representatives from the City of Aspen and Wilderness Workshop also appeared. Mr. Gardner-Smith a reporter from The Aspen Times appeared.

Appl stated that it is working on finalizing reports regarding the location of the storage structures and its municipal demands/supply. Appl provided a settlement proposal to all ops on 9/20/17 and has received responses from the ops regarding that proposal. There is an executive session with the City Council scheduled on 11/13/17 to discuss the ops' responses. Appl would like to keep the cases on the Referee's docket.

Ops agree that progress is being made in the cases. Op Larsen Family LP does not have client approval to agree to extend the cases on the Referee's docket past the one year disposition deadline, but does agree to attend a status conference after that deadline.

Several ops requested that the appl respond to the summary of consultation. The Referee clarified that a substantive, written response to the summary of consultation is required regardless of settlement with the ops. The Referee also noted that the deadline of disposition is 12/31/17, but that progress is being made towards settlement in the case.

The Court set the following deadlines:

(1) Appl shall file a substantive response to the Summary of Consultation in both cases: 12/29/17
(2) Next joint status conference: 1/4/18 at 11:00AM

Appl shall provide notice of the next TSC.
