After picking up the video's one of which would show all of the camera footage that the DECEDENT was in and the other would be pictures taken of his room after being locked out. The first video showed the DECEDENT'S arrival to the hotel on November 2, 2015. The car that drops the DECEDENT off appears to be a Mercury Sable with what appears to be Virginia tags. The tags are unreadable and the video might have to be enhanced.

Case: HO15-853

On January 5, 2016, the undersigned responded to the Electronic Surveillance Unit located at 401 E Street NW. The undersigned was met by Officer [REDACTED]. Officer [REDACTED] was the officer that downloaded all of the footage from the cameras at the Dupont Hotel. Both the undersigned and Officer [REDACTED] then began to watch all of the footage. When you see the DECEDENT come into view in the lobby you can see the contusion under the left eye. The first time you see the DECEDENT in the lobby after checking in is after 9:00am on the 4th when the DECEDENT attempts to get staff at the hotel to buy him some liquor. After these failed attempts the DECEDENT is escorted back to his room by security officer [REDACTED].

The next time you see the DECEDENT is when the DECEDENT leaves the hotel and goes to a liquor store and buys the liquor that was found in his room the next day. After buying the two bags of liquor the DECEDENT gets into a cab and goes back to the Four Season's Hotel where the DECEDENT is confronted by security. After speaking with security at the Four Season's the DECEDENT gets back into a cab and goes back to the Dupont Hotel. You see the DECEDENT get out of a cab and walk into the lobby area. Again the only visible injury is to the left eye. It should also be noted that when you see the DECEDENT walking in the lobby the DECEDENT does not appear to be in any pain.

The undersigned called the DECEDENT'S [REDACTED]. For the past month the DECEDENT had tried to call [REDACTED] but never could reach him. [REDACTED] stated that the DECEDENT was in DC for business but neither [REDACTED] nor [REDACTED] could reach him. The reason that the [REDACTED] called [REDACTED] was that the DECEDENT had a habit of getting drunk every time that he goes on a business trip.

Subject: Visit the scene

On Friday, March 18, 2016, AUSA [REDACTED], Capt. [REDACTED], Det. [REDACTED] and I responded to 1500 New Hampshire Avenue NW (Dupont Hotel) for pre-arranged meeting. The purpose of the meeting was to visit the scene where the decedent was discovered.

We were met by [REDACTED] who escorted us to a private elevator in which a key card is required to enter. The elevator stopped on the 9th floor and [REDACTED] informed us that the 9th floor was designed for their guest to have private meeting inside and out on the terrace area. [REDACTED] escorted us to room 903, where the decedent was found. The first thing that's noticeable is how small the room is, the bed is to the right and the bathroom is to the left. There is a sink with a small refrigerator beneath it, and a small counter. The bathroom door is glass but covered by a frost tint. There's a closet on the same wall as the door and sink, and in the closet is a iron and board. There's a safe and wooden shelves. In the ceiling there are two openings secured by two screws each. [REDACTED] had the engineer open the latches so that we could see, no one could fit through those spaces. The windows are built into the frames, they can't open. The only way in the room is the door.

The photos from the original scene captured a broken piece of wood from the leg of the bed, laying on the floor beneath the bed. The bed in the room today is missing a piece of wood from the same leg, looks like they stained the leg and didn't repair it. Also there appears to be a similar round table in the room, as in the photos from the original scene. The previous table had a metal piece broken off, this table did not.
