This is why you should print the email for your members. You apparently can't read.

Mark this is the first time I have heard that the Authority is proposing a 15% and a discount of 10 % if enrolled this is a big issue if true please confirm as this could make a difference with the HSA money being funding.

I review the proposal you are offering and it says it based on 20 % which one is correct your e-mail or the proposal ?

Given the fact that I have attempted to explain all these things to you countless times and you continue to ask the same questions over and over I must conclude you lack the capacity to understand the answers. Therefore it would be a waste of my time to attempt yet another time.

Good luck at your meeting tonight. I hope you printed enough copies of our email exchange.

Mark Donaghy

Mark

Please explain how the Authority can increase none union (management) was able to approve huge increase no a raise of 2% but ten of thousands of dollars. They knew what the job paid when they were hired. Additionally the consultant you use did not confirm the amount you use were from him. The Authority has not provided to the union under the freedom of information act 149.43 any document from the consultants to suport your statement to the board.

Additionally the sales tax number still reflect the RTA will surpass the income for 2016 and you received an additional 4.6 million dollars.

How can you raise the fees for the public and take away their rides as the tax payers voted to have county wide services may be the renovations that was no needed should have been done over years when you could afford the cost with out the increase in fairs and routes cuts.

Please make public the truth on receiving the 4.6 million and sales tax amounts have not dropped 4 million. do not raise the fairs and cut the routes as you have been less than truth to your board and the public.
