Tax Law Changes Since 2011

The attached table shows the estimated fiscal effects in fiscal years 2011-12 through and 2018-19 of changes enacted since January, 2011, to general fund taxes, the economic development surcharge, and property taxes.

With limited exceptions, the amounts shown in the table are the fiscal estimates that were prepared at the time the applicable legislation was passed. These amounts generally have not been adjusted to reflect actual collection data or economic growth that has occurred since the time of enactment of the applicable legislation. The table only includes provisions that would directly increase or decrease a taxpayer's tax liability. It does not include tax enforcement provisions, income tax withholding table changes, the effect of the recent Illinois income tax increase, or the impact on general fund tax collections of the changes to state and local government employee compensation included in 2011 Act 10. The table also does not include refundable credits or provisions that have a minimal fiscal effect.

The fiscal effects of several provisions will increase over time due to delayed effective dates and phase-ins. The income tax exclusion for capital gains on Wisconsin-based assets created in 2011 Act 32, will increase to an estimated revenue loss of \$73.4 million in 2019-20 and to \$79.4 million in 2020-21 and thereafter. The impact of repealing the alternative minimum tax will increase to \$7.0 million annually beginning in 2019-20, and the fiscal effect of changing the apportionment rules for broadcasters will increase to \$13.0 million annually beginning in that year. The estimated revenue increase from limiting the state historic rehabilitation credit will increase to more than \$46 million annually by 2025-26. In addition, beginning July 1, 2020, federal law will prohibit Wisconsin from imposing the sales and use tax on internet access services. 2017 Act 59 amended state law to repeal imposition of the tax on that date. The estimated revenue loss of this provision is \$166 million annually, beginning in 2020-21

November 30, 2017
