

Table 5. Death rates by age, and age-adjusted death rates, for the 10 leading causes of death in 2015, drug-induced causes, alcohol-induced causes, and injury by firearms: United States, 1999–2015—Con.

[Rates on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes]
