Investigation Report

same way he did with Mr. [REDACTED]. He reported C had his back against the window while trying to kick him and kick the back of the bench in front. Mr. [REDACTED] denied leaning on C's leg or putting his knee on C's leg at any time. He also denied that he and Mr. [REDACTED] both restrained C together on the van. Mr. [REDACTED] said he did not recall hearing C complaining he was hurting. However, he did admit he does not speak Spanish and he would not be able to understand if C was complaining. He did admit C was yelling and screaming the whole incident. I inquired Mr. [REDACTED] if he recalled seeing Mr. [REDACTED] speaking to Mrl who was sitting on the driver seat during the restraint about they needed to let C go because he was complaining of his knee being hurt. Mr. [REDACTED] stated he did remember seeing Mr. [REDACTED] speaking to Mrl but could not recall what they were talking about. He said Mrl may have said something about letting C go but due to C's aggressiveness, he did not pay attention to what Mrl was saying. (This contradicts the information he provided earlier regarding all residents were order off the van except for C, Mr. [REDACTED], and himself.)

Mr. [REDACTED] reported during the ride to school, C continued to be aggressive and at one point slid down to the floor where he was sitting and throwing tantrum as he was unable to get out of the area due to Mr. [REDACTED] sitting on the outside. He said C eventually calmed down when they got to school and he went to his class as usual.

Mr. [REDACTED] reported staff who performs the restraint does not process with the child after the incident as it's responsibility of the supervisor. He said staff completes the incident report but the supervisor speaks with the child and completes the second part of the restraint report. (This information is verified per both EBI report obtained from the agency.)

Mr. [REDACTED] denied knowing anything about Mr. [REDACTED] asking C not to report the incident nor seeing Mr. [REDACTED] bought things for C and gave him money to keep C from talking. He reported Mr. [REDACTED] is the supervisor who is responsible for taking the kids out on shopping if they need additional clothing or personal items. He reported not seeing anything out of ordinary as far as Mr. [REDACTED] taking the kids out and buying things for the kids. He admitted seeing C being taken on a shopping trip with 2 other kids by Mr. [REDACTED] earlier this month as part of their monthly inventory.
