

The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from September 06, 2018 to September 09, 2018 among a sample of **1,003** respondents. The landline total respondents were 400 and there were 603 cell phone respondents. The margin of sampling error for total respondents is +/- 3.8 at the 95% confidence level. The design effect is 1.49. More information about SSRS can be obtained by visiting www.ssrs.com. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

EMBARGOED FOR RELEASE: Monday, September 10, 2018 at 4:00 p.m.

* Asked of half sample

Q2aa. As you may have heard, an unnamed senior official in the Trump administration wrote an op-ed for the New York Times which says many senior officials in the administration are working against some parts of the president's agenda. How widespread do you think that is? Are most administration officials working against the president's agenda, just some are doing it, or do you think it's not happening at all?

	Most are working against the president	Just some are working against the president	Not happening at all	No opinion
September 06-09, 2018	13%	59%	17%	12%

Q2ab. Regardless of how many people you think are doing this, do you think it is appropriate or inappropriate for an administration official to work against the agenda of the president for whom he or she works?

	Appropriate	Inappropriate	No opinion
September 06-09, 2018	36%	55%	9%

Q2ac. Do you think the person who wrote the op-ed should or should not identify themselves publicly?

	Should identify themselves publicly	Should not identify themselves publicly	No opinion
September 06-09, 2018	58%	30%	11%

Q8. (FV1) We'd like to get your overall opinion of some people in the news. As I read each name, please say if you have a favorable or unfavorable opinion of these people -- or if you have never heard of them.

MORE ON METHODOLOGY

A total of 1,003 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Among the entire sample, 34% described themselves as Democrats, 25% described themselves as Republicans, and 40% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.8 percentage points. For the sample of 923 registered voters and adults who plan to register to vote before Election Day, it is +/- 3.9 percentage points.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/-8.5 percentage points or less once adjusted for design effect. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a design-effect adjusted sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".
