The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from November 01 to November 03, 2018 among a sample of **1,518** respondents. The landline total respondents were 614 and there were 904 cell phone respondents. The margin of sampling error for total respondents is +/-3.1 at the 95% confidence level, for results among the **1,380** registered voters it is +/-3.2, and for results among the **1,151** likely voters it is +/-3.5. The design effect is 1.48. More information about SSRS can be obtained by visiting www.ssrs.com. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

EMBARGOED FOR RELEASE:
Monday, November 5 at 6:00 a.m.

Q1. (A1) Do you approve or disapprove of the way Donald Trump is handling his job as president?

Total Respondents	Approve	Disapprove	No opinion

Q14. In general, do you think the recent tone of America's politics and political debate is encouraging violence among some people, or is it not encouraging violence?

	Yes, tone is encouraging violence	**No, tone is not encouraging violence**	**No opinion**
November 01-03, 2018	74%	22%	4%

CBS NEWS TRENDS FOR COMPARISON

	Encouraging violence	Not encouraging violence	Don't know/No answer
2017 Jun 15-18	73%	24%	2%

MORE ON METHODOLOGY

A total of 1,518 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Among the entire sample, 36% described themselves as Democrats, 27% described themselves as Republicans, and 37% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.1 percentage points. For the sample of 1,380 registered voters and adults who plan to register to vote on/before Election Day, it is +/- 3.2 percentage points. For the sample of 1,151 likely voters, it is +/- 3.5 percentage points.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/-8.5 percentage points or less once adjusted for design effect. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a design-effect adjusted sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".
