

Mr. Richardson:

Many male officers have applied for training, only to be denied by Chief Moir. But, about a month ago, Chief Moir took a contingent of 2 female officers and two female Lieutenants to a conference in Palm Springs. It's been told by many officers that these female officers, including Lt. [REDACTED] and Lt. [REDACTED] spent their city of Tempe per-diem drinking at a topless bar until early morning hours. Not sure if Chief Moir attended with them. A female Detective that was in attendance [REDACTED] has been telling others about this wild "girl's night out". It's been told that the Chief is doing everything possible to shut down the gossip about the "girls" going to a topless bar while on city business.

According to Ex-TOA President, Sgt. Millen, Moir is showing extreme favoritism to female employees. A recent Sgt test, a female candidate went from 6<sup>th</sup> place to 1<sup>st</sup> place after she had her 1 on 1 meeting with the Chief.

Chief Moir is out of the office a lot. Ever since she got here, she takes extended trips out of state on city time, training, conferences, etc. She went to a Chiefs conference last month, then a week later gone again out of state. Take a look at her out of state travel costs since she has been our Chief, you will be amazed! In fact, take a look at all the crazy out of state travel involving all cops since she got here and you will be amazed. Like sending Motor Officers on duty, to San Diego to participate in motorcycle skill competition! Yep, city motorcycles, city trailer, trucks, gas, lodging....

Maybe if she cut back on her travel, and didn't let her female cop friends drink in topless bars while out of state training, we could afford to hire more cops and NOT put G4-S security in parks!
