 **King County
METRO**

Twelve bus routes will change paths after the Alaskan Way Viaduct closes. They will go to the same places and serve the same or similar stops, but trips will take much longer. **Plan ahead and take an earlier bus.** See maps on the following pages:

1 Before viaduct closes—current/old path on viaduct

2 After viaduct closes, before northbound Dearborn ramp opens—temporary path through SODO

3 After new SR-99 tunnel opens, new path on First Avenue S

Metro is evaluating whether we can serve bus stops in this area.

Northbound buses will stop in this area only when traffic conditions permit.
