### **Outstanding Service as a Detective/Investigator**

This certificate is hereby presented to Detective Mike Hine who has provided exceptional service as a criminal investigator in the apprehension and/or successful prosecution of crimes occurring within the County of York.

Over the past year you have worked diligently and tirelessly to bring justice for some of our most vulnerable victims. There were a number of cases throughout this time that your investigations ultimately led to charges and lengthy prison sentences for individuals who had sexually abused their children/stepchildren.

Despite receiving numerous reports (NYCRPD receives the second highest number of child abuse reports) of child abuse/sexual assault each day, Detective Hine would quickly begin working each case to ensure the evidence was preserved and all angles were pursued in an attempt to gather any and all relevant information.

In addition to your investigatory skills, your dedication and compassion for the victims of these horrific crimes is to be applauded. This was even more evident in the cases in which charged could ultimately not be charged.

As District Attorney of York County, I am honored to recognize you for the passion and dedication in which you display not only in your investigations, but to victims of crime.
