2. The times during which the variable speed limit signs are permitted to display the speed limit in column D are limited to:
 - (a) 35 minutes before the start of school until the start of school;
 - (b) 20 minutes at the end of school, beginning no earlier than 5 minutes before the end of school;
 - (c) 10 minutes at any other time when children cross the road or enter or leave vehicles at the roadside.
3. The speed limit in column E applies at all times when the variable speed limit signs near the school are not displaying the speed limit in column D.

Part C: Variable Speed Limits around rural intersections

The variable speed limit on the areas of road described in this part of the Schedule, are declared to continue in effect despite the revocation of the Auckland Transport Speed Limits Bylaw 2012, unless and until a different speed limit comes into effect under this bylaw or the Speed Limits Rule.

The speed limit will alternate between that specified in column D and column E depending on the following conditions.

1. The speed limit in column D applies at all times the variable speed limit signs near the intersection are displaying the speed limit in column D.
2. The times during which the variable speed limit signs are permitted to display the speed limit in column D are limited to:
 - (a) When vehicles are detected approaching or waiting to turn from the side road onto the main road.
 - (b) When vehicles are detected waiting to turn from the main road onto the side road.
3. The speed limit in column E applies at all times when the variable speed limit signs near the intersection are not displaying the speed limit in column D.
