15	Sent	To +1513 Harry Black* Direction: Outgoing	3/15/2018 9:36:28 PM(UTC-4)		Sent	I just received this text from Juech "I was invited to the city managers office today. I received a call during another meeting I was leading in my office on a matter of city business. I did not volunteer anything. I was told that the solicitor was right to be concerned about her job. Then I was asked for a loyalty pledge to the manager and a letter of support. When I said that I had to think about that - not even a yes or no - I was told by the manager that I had "made clear" where I stand. I want the record to be very clear. I want there to be no doubt on the facts of what happened today. I have told my personal, out of state lawyer all the same. This is all codified with multiple attorneys and will be public record." **Source file**: Chris See bach's iPhone/var/mobile/Library/SMS/sms.db : 0xC1F8FEC (Table: message, handle, Size: 342745088 bytes)

Dear Mayor Cranley, City Manager Black, Members of the Public, and Members of the Media:

We have watched this unfortunate saga unfold in recent days, and feel strongly that it is now on us - the Council Majority - to bring order and a fair process to this situation.

To be clear, anyone who wishes to bring forward concerns or report misconduct must feel safe and comfortable doing so. We actively want your voice to be heard.

We also believe strongly in due process. No one's name or reputation should be tarnished without there being clear evidence (beyond just "he said, she said") as well as a fair opportunity for that individual to respond.

We share the serious concern of organizations I ke the Urban League, Community Action Agency, NAACP, Black Agenda, National Action Network, Black United Front, and others that present behavior is rolling back the clock on race relations in Cincinnati; we will not abet the intentional denigration of another black leader in our community.

We also do not support forcing the taxpayers to pay out of their own pockets for what is currently a broken relationship. We believe there are much better immediate next steps.

First, this situation clearly must be de-politicized and taken out of the hands of those most directly in the fog of war: Therefore, we are calling for the appointment of an outside Special Counsel (appointed by a majority of City Council), to collect and investigate the concerns raised by the Mayor, any and all counter-factuals from the City Manager, and testimony from city employees or any other directly involved stakeholders. This Special Counsel will then write a report to be submitted to City Council for our review.

At the same time, we are calling for a ceasefire between the Mayor and City Manager, during which they both agree to say nothing more on the subject and to focus on the City's work. During this ceasefire, Council will bring in a pro bono mediator to privately help the Mayor and Manager navigate their relationship and return to getting things done for the citizens of Cincinnati. Lastly, during this ceasefire, we call for no personnel changes.

Council will control this process as it unfolds, and if the need and desire for what the Mayor has called a "public trial" remains, then Council will control the time, date, and location of such a special meeting. Because of the significant interest from concerned members of the community, such a specially-called meeting would occur in the evening, be held out in the community, and be posted with at least two weeks notice to the public.

We look forward to cool heads prevailing, these issues being properly addressed, and everyone getting back to work for the city we love.

Sincerely,

Tamaya Dennard

P.G. Sittenfeld

FYI, Harry's email of 7:16pm is textbook retaliation--attacking her professionalism for doing her job--btw, the opinion represents the office, not just her. As a lawyer, their analysis is spot on. Council can give Harry money for his own lawyer if a public purpose (it is not), or can just give him a bonus (bad idea but legal). Not sure why he's mad--his interests are better served by a personal lawyer that council can give him money to pay for. I think it's nuts but clear path forward outlined.

My issues with him. Especially responsible bidder. That I've worked on it for almost 6 years, I've made compromise after compromise when the other side wouldn't given an inch. Had 1,000 meetings. And then he goes last week and testifies for hours about it will basically bankrupt the city and prevent all AA people from getting work....without even talking to me. And also his lack of any kind of leadership on fixing the streetcar.

3/12/2018 4:17:12 PM(UTC-4)Direction:Incoming, +1513 Chris Seelbach)
And I agree with Greg that we need to put goals in place that we can hold him accountable to.

3/12/2018 4:18:50 PM(UTC-4)Direction:Incoming, +1513 (Wendell Young)
We need to convene the Rules Committee to formalize these things.

I can't see Greg's comments.

3/12/2018 4:20:26 PM(UTC-4)Direction:Incoming, +1513 (Chris Seelbach)
He's in Israel, but when we talked yesterday, he mentioned putting in place specific goals for Harry.

Wendell, also, I agree with the sentiment that rather than some trial style format where people are called up one by one to smear Harry, any
grievances from John should be submitted as a written document, and Council can then proceed to handle on its own timeline and as it sees
fit. But no more of this crap where due process if thrown out the window.

Just got a call from Harry's lawyer and then from Harry regarding their being told by John that I am the fifth vote on a separation package for Harry. I haven't spoken to that little sucker! He just flat out lied to Garry and his lawyer. Is it too late to insert into the letter something making it clear that"we" do not support a buy-out for Harry?

Absolutely

3/16/2018 2:54:28 PM(UTC-4)Direction:Incoming, +1513   P.G. Sittenfeld)

Team, I knew there was one thing I meant to bring up that I forgot to on the call. 4 of us at a time need to have a conversation with Harry about things he needs to do to improve. I've overtly told him I believe he needs to seek some sort of counseling. But he needs to hear it collectively from us, and to frankly understand that his job depends on correcting certain things.

3/16/2018 2:54:44 PM(UTC-4)Direction:Incoming, +1513   (P.G. Sittenfeld)

should we schedule a meeting with him for next week - with all of us minus Chris, who will be OOT?

3/16/2018 2:56:37 PM(UTC-4)Direction:Incoming, +151:   [Wendell Young)

Not now please. I think he would view this as a softening of support. May I suggest we reserve that conversation for after we get through this process?

3/16/2018 2:57:50 PM(UTC-4)Direction:Incoming, +1513   P.G. Sittenfeld)

Wendell, I'm okay waiting if the others agree. HOWEVER, it's a conversation that must be had - sooner rather than later. Harry struggles with some things and needs to know we support him, but also bring certain expectations. I'll defer to the group on timing.

3/16/2018 3:00:15 PM(UTC-4)Direction:Incoming, +1513   (Wendell Young)

I too will abide by what the group decides. For me there is the recognition that Harry is under an enormous amount of pressure. I worry that he would view the conversation as us piling on. The timing isn't good.

3/16/2018 3:46:14 PM(UTC-4)Direction:Incoming, +1513   P.G. Sittenfeld)

Separate FYI: the #2 at the Sentinels just called me and asked that I pass this along: she and Lou Arnold just had a meeting with John, where she said John tried to divide and conquer the Sentinels from the other African-American groups, and also intentionally misrepresented the Manager's position. Not for public consumption, but she asked that you all be notified.

3/16/2018 3:47:45 PM(UTC-4)Direction:Outgoing, +1513

Divide and conquer is his thing. He tried to do that to me twice this week

3/16/2018 3:55:17 PM(UTC-4)Direction:Incoming, +1513   Wendell Young)

You saw that on a larger scale during the Responsible Bidder wrangling. He tried to pit the Urban League, Ministers Alliance, CAA, and others against the NAACP, The Black Agenda, and more. Typical Cranley tactic. Don't forget that he will lie in a heart beat.

Is everyone good with this? Or have changes? "If the Manager wishes to move on from his current role, we respect that decision. But the Council Majority remains firm that we are not signing off on paying someone extra to not do their job. That is neither fair nor responsible to the taxpayers.

Moreover, it is our understanding that, in fact, the Manager does enjoy his job; he simply doesn't like the idea of serving under the looming threat of a smear campaign. That, too, is understandable.

But asking the taxpayers to provide significant resources in order to avoid the impact of such a smear campaign would set a dangerous precedent and enable behavior which we do not approve of.

We reiterate our call for a ceasefire, and we remain committed to the thoughtful, fair, transparent next steps we have previously laid out.

We believe in the City Charter, we believe in honesty, and we believe in collaboration. All are welcome to join us in upholding these pillars."

Sorry. I am just finishing up.

I don't think we need a statement. And I don't like commenting on what Harry might or might not think or want. Also think some of it is unnecessary inflammatory. We are trying to bring some maturity to this ridiculous situation. To deescalate.

If we do something, I would suggest something short and simple.

But again, I don't think we need a statement.

Here is what I have personally sent to people and reporters:

"My position hasn't changed and a believe that's true for the majority. I don't support a big buyout. We need all the facts, and that's the point of the independent counsel. As I've said from the beginning, the issues need to be addressed in the next couple of weeks."

Here's another crack at it, even though this feels watered down to me and doesn't speak to why a buyout is really so offensive.

I'm ok with this but it is really watered down. If this is what it takes to gain consensus then ok. I think the third paragraph is important in that it offers a rationale for our statement. Greg I hope you will reconsider your thoughts on the third paragraph.

"We believe in a collaborative process, and look forward to working through this with everyone."

The current language feels like petty, "tit for tat" stuff. Again, short and simple seems right, and the first two paragraphs feel sufficient. If people want to add more flavor, they can do that individually. Lol.

If Harry gets enough outside money to make leaving palatable, we can't make him stay. I think it's bad precedent and it fixes nothing. The issues that gave rise to this situation remain in place. I agree there is something Cranley doesn't want to deal with. Cranley is feeling the heat. Let's hold together. Stay strong!

This is an incredibly important moment of the next four years. Can they pick one of us off? If they can't, Cranley will either be forced to respect us...or he will explode. And I'd say it's 50/50 odds.

Interestingly David Mann said the same thing to me on Sunday: he said he thought this whole absurd episode is going to cause John to realize he has to be respectful and collaborative if he wants to get anything done.

needless to say, I'm fine with some grand bargain that's actually good - BUT the entire point of this is about how we govern and John needing to work collaboratively with the Democratic majority, not go running to Smitherman, Murray, Pastor and then see how we can pick off 2 more

Hey guys. I'll post my statement around 10AM. Among other things, I say the following: "I will be a no vote on any agreement beyond giving the manager the 8-months that is already in his contract if he decides to leave on his own accord." You can mention that or not.

But I did decide to travel with my family this morning, and if John wants to have a revote on Wednesday, that's on him. My position won't change.

Taking Greg off this chain so he can sleep. What do you all think about releasing a statement or tweeting that there are 5 confirmed Councilmembers who do not support firing City Manager Black or a buyout?

My position hasn't changed and a believe that's true for the majority. I don't support a big buyout. We need all the facts, and that's the point of the independent counsel. As I've said from the beginning, the issues need to be addressed in the next couple of weeks.

I'll be back on Tuesday. See you soon, Jeff!

We'll see. I'm pushing these larger City Hall and CPD reforms. I think PG's meeting with him went okay. Cranley has calmed down, and seems to appreciate the fact that his behavior isn't working for us. Time will tell, but I held no punches.

Wondering what you all think of a cease fire/cooling off period, during which they both agree to say nothing more on the subject and focus on work. We bring in a pro bono mediator (or two), to help them get through the two weeks or however long it takes for us to put together a process to address the issues that have emerged. A special committee of my committee perhaps. And we ask Harry for weekly progress reports to ensure the work is continuing unabated, and a commitment from him that he will not make any personnel decisions (e.g. firing anyone). If we get the CBC types and NAACP and others to join us, might work.

fair question. I offered him another legit reason compromise and he immediately shot it down on two occasions (it was give Harry 6 months to seek employment elsewhere; no buy-out is necessary; he leave on his own terms so there's no racial inflammation, and council is actively involved in selection of new manager) - he wasn't having it.

I'd deeply appreciate it if you 3 would cosponsor with me this ordinance that will protect city workers and allow me or city council to subpoena city workers to testify without fear of retaliation.

Confidential--Chris Jenkins told me P.G. called him a few days ago to tell him that his code members should not testify because there will never be 5 votes to fire the manager and then employees will regret coming forward. He viewed it as a threat and wants me to tell Ed board tomorrow about it to help pass the ordinance.

I think it is important to have an up or down vote on what the manager's lawyer negotiated in good faith with the city. After that vote I am unsure what our next step should be to resolve this impasse

Jeff Pastor

I would also offer, it seems as if the "council majority" wants to engage in what the NAACP calls, "public lynching" we should work to prevent this from happening

FYI, Harry's email of 7:16pm is textbook retaliation--attacking her professionalism for doing her job--btw, the opinion represents the office, not just her. As a lawyer, their analysis is spot on. Council can give Harry money for his own lawyer if a public purpose (it is not), or can just give him a bonus (bad idea but legal). Not sure why he's mad--his interests are better served by a personal

lawyer that council can give him money to pay for. I think it's nuts but clear path forward outlined.

Pg says Wendell wants Harry's lawyer to be present at witness interviews which would really make them cumbersome. At PG's suggestion I have put in a call to Wendell.
Pg suggests motion would still pass but not unanimously. Maybe we add motion to budget and finance agenda to see what happens. PG's alternative is judge jones' firm which he seems to have a more economical vision of than what we would think. You and P.G. have to agree on paid option it seems to me.

We can get a lot done working together, like FCC. We all know he will be fair. All of their work will become a public record, but will allow witnesses not to have

Mann maybe putting in a motion tomorrow to lead manager investigators with Tamaya. Mann as a lawyer has been hired to do so by companies throughout his career. He will do all the work pro bono. We all know he will be fair. All of their work will become a public record, but will allow witnesses not to have to testify in front of media

cameras and people like seelbach, harry or Wendell. There are over 24 witnesses who want to come forward but just need to know how. I'm asking for your support on this. Need to get it moving and off my desk. Should be led by council members. Supposedly this has been agreed to by pg and Tamaya. Keep confidential until Mann brings up tomorrow.

~~from the call from her boss and~~ verbally said she was stressed by the line of questioning the day before by a council member.

I am very concerned that the manager did not follow my direct instruction in not engaging in any form of retaliation against any city employee who risked coming to my special hearing of Law & Public Safety to address the 911 call center crisis. I view the phone call from the City

Mananger as insubordination.
Also, I think the "gang of 5"
text messages confirm they are
protecting this kind of behavior
over the interest of the city.
I pray Ms. Tami who was
obviously shook up yesterday
by the phone call will have the
courage to take a stand. The
"gang of 5" talk a good game
to the public about how they
care about women at marches
but when it counts they are

I had a good conversation with
Ms. Tami. I first thanked her for
her service and testimony
yesterday. Also, I wanted her to
know that I supported her.
She confirmed a phone call she
received from the City Manager
that noted her testimony at
Law and Public Safety related
to the 911 call center was not
helpful and the City Manager
did not appreciate.
She gave more details but I
think the above sentence
describes the tone.
I shared with her that we had
spoken & Councilman
Landsman but I would keep our
conversation confidential until
she was ready to share her
story. She was very stressed
from the call from her boss and
verbally said she was stressed
by the line of questioning the
day before by a council
member

"gang of 5" talk a good game to the public about how they care about women at marches but when it counts they are nowhere to be found.
I will wait to take action until I hear back from Ms. Tami. However, I am really frustrated and disappointed in the phone call Mayor. I want the truth about the 911 call center and do not want anyone to feel like they can not talk.

them.

I will always fight for those I serve, including our employees. Anyone can partner with me in that effort. What staggers me is how you continue to do things that make so many people feel you can't be trusted.

What staggers me is that you know Harry is abusing and retaliating against city workers —many of are or were friends

of yours—and you are putting your feelings about me ahead of helping them. And politics ahead of what's right for the city. Does Leigh have to "partner with you"? Or will you lead? Instead of asking how Leigh was hurt, you attack me and out the burden on her. The victim. Get your priorities straight.

Hi Dan, I'm not a father yet, so you'll have to tell me if this analogy holds up: If two of your children are behaving badly, is the approach to then go to their siblings who are behaving normally and demand that they correct they're badly behaved siblings behavior? My hunch is that you go the badly behaved children, and you demand better, and you don't enable them. Does that sound right? Would love to see the texts you're sending to John and Harry!

Juech just sent me this "get ahead.

I was invited to the city managers office today. I received a call during another meeting I was leading in my office on a matter of city business. I did not volunteer anything.

I was told that the solicitor was right to be concerned about her job. Then I was asked for a loyalty pledge to the manager and a letter of support.

When I said that I had to think about that - not even a yes or no - I was told by the manager that I had "made clear" where I stand.

I want the record to be very clear. I want there to be no doubt on the facts of what happened today.

I have told my personal, out of state lawyer all the same. This is all codified with multiple attorneys and will be public record."

Councilmember Mann Statement on Mayor Cranley and City Manager Black's Dispute

Harry Black and John Cranley are passionate public servants. I admire and respect them both.

With plenty of fault on each side, they obviously can no longer work constructively with each other. Calls for mediations, counseling, interventions and so on come too late to undo the damage in what is now a dysfunctional relationship.

The true victims are the citizens of this community and the serious and challenging issues we face, not the least of which is a huge budget shortfall for the fiscal year beginning July 1. Our city manager system (of which I am a strong supporter) assumes a strong collaborative partnership between the mayor and city manager. When that partnership does not exist, a change is essential.

Harry Black wants to leave his post. He has three possibilities.

(1)He can resign but under the ordinance hiring him, he then would entitled to no severance payments whatever.

(2)He can be terminated with the approval of five members of council. The ordinance hiring him entitles him to eight months' pay.

(3)He can separated under an agreed package, again with the approval of five members of council. (Most recently, I am advised, Mr. Black would agree to 18 months of pay, not the 24 months he presently asked for.)

My democratic colleagues will not support (2) and (3). Mr. Black could resign at considerable financial sacrifice. Otherwise, the current dysfunction continues, indefinitely I suppose.

My democratic colleagues hold the keys to unlock this impasse. I implore them to help us move beyond the current deadlock.

Situation is endless topsy-tervy clusterfuck; Harry just called, said he's going to sign paperwork for a 1.5 year buyout. Force a vote from Council. I affirmed for him I'd be a "No" vote; not bilking taxpayers because Cranley has a personality disorder.

If the Manager wishes to move on from his current role, we respect that decision. But the Council Majority remains firm that we are not signing off on paying someone extra to not do their job. That is neither fair nor responsible to the taxpayers.

Moreover, it is our understanding that, in fact, the Manager does enjoy his job; he simply doesn't like the idea of serving under the looming threat of a smear campaign. That, too, is understandable.

But asking the taxpayers to provide significant resources in order to avoid the impact of such a smear campaign would set a dangerous precedent and enable behavior which we do not approve of.

We reiterate our call for a ceasefire, and we remain committed to the thoughtful, fair, transparent next steps we have previously laid out.

We believe in the City Charter, we believe in honesty, and we believe in collaboration. All are welcome to join us in upholding these pillars.

"So I'm hearing mayor is planning a press conference the week of April 9 where public services, code and others possibly including Juech Paula and Luke will give statements about harry. I find it hard to believe the latter three would do this.

Harry's not aware of anything specific but who knows what they will say. He's trying to determine a strategy counteract someway.

Again, just speculation but wanted to share before your 11."

We're committed to implementing and overseeing that plan. People are looking for answers - not just about one person, but about this whole situation. David and PG, 2 things: 1. Berding says you guys had good meeting. I'm having legislation drafted but obviously better if we all co sponsor. As you know, they have a hard deadline in 2 weeks and we have to have some kind of public engagement. Should we release tomorrow? If not, when? I worry we get blasted for not letting Public weigh in before vote. Let me know your thoughts; 2. David has suggested to me that you, Tamaya and Wendell are ok with Mann/Dennard investigation. If so, can you guys introduce by motion today at Greg's committee. If agreement, I can shelve special counsel ordinance. Let me know. Roughly 24 people want to come forward and need a process. I'm still open to special counsel if that is preferred.
