

Me

6:57 PM, Mar 18

Hey there.

Question. Are you aware of any TRC direct matters that may or have ever come before me at EEA? Obviously there are some interactions with some of our agencies but I have been told that direct count. I've spoken to a number of lawyers about this and read the ethics guidance and don't think I need to file any disclosure because I can't think of any dealings I have ever had directly with TRC in my capacity as secretary. The only thing even close was Merrimack valley but you were working for Columbia and never had anything before me or my office.

this and the other  
guidance and don't thin

C

Let me think about it, but I think you are correct.

7:01 PM

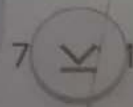

Thanks.

C

The only other, Lawrence, direct discussions we had with you about possible business issues as TRC occurred in the early months of the Administration regarding our EE Offerings, nothing ever happened due to that meeting. I think you are good to go. Any update on departure strategy?
