MANNER OF EXECUTION

8. In my training, and experience, I have learned that cellular phones and other cellular devices communicate wirelessly across a network of cellular infrastructure, including towers that route and connect individual communications. When sending or receiving a communication, a cellular device broadcasts certain signals to the cellular tower that is routing its communication. These signals include a cellular device's unique identifiers.
9. To facilitate the execution of this warrant, law enforcement use an investigative device that sends signals to nearby cellular devices, including the Target Cellular Device, and in reply, the nearby cellular devices will broadcast signals that include their unique identifiers. The investigative device may function in some respects like a cellular tower, except that it will not be connected to the cellular network and cannot be used by a cellular device to communicate with others. Law enforcement request to use this investioative device when and where they have reason to believe that is present in the targeted area and is in possession of the target cellular device.
10. The investigative device may interrupt cellular service of cellular devices within its immediate vicinity. Any service disruption will be brief and temporary, and all operations will attempt to limit the interference of cellular devices. Once law enforcement has identified the Target Cellular Device, it will delete all information concerning non-targeted cellular devices that may have been captured when employing this investigative technique. Absent further order of the court, law enforcement will make no investigative use of information concerning non-targeted cellular devices other than distinguishing the Target Cellular Device from all other devices.

SPECIFIC DESCRIPTION OF INVESTIGATIVE TECHNIQUE USED FOR THE SEARCH:

The "Target Cellular Device" is the cellular device or devices carried by Unknown date of birth, approximately 43 years old. Pursuant to an investigation regarding violations including but not limited to 11 Del. C. § 772, Rape in the 2nd Degree, and 11 Del. C. § 778, Sexual Abuse of a Child, this warrant authorizes the officers to whom it is directed to identify and locate the Target Cellular Device by collecting radio signals, including the unique identifiers, emitted by the Target Cellular Device and other cellular devices in its vicinity for a period of three days, during all times of day and night.

Absent further notice of a court, law enforcement will make no affirmative investigative use of any identifiers collected from cellular devices other than the Target Cellular Device, except to identify the Target Cellular Device and distinguish it from the other cellular devices. Once investigators ascertain the location and identity of the Target Cellular Device, they will end the collection, and any information collected concerning cellular devices other than the Target Cellular Device will be deleted.

This warrant does not authorize the interception of any telephone calls, text messages, or other electronic communications, and this warrant prohibits the seizure of any tangible property. This Court finds reasonable necessity for the use of the technique authorized above.
