Diversion

HSD and system partners have changed the way diversion resources are contracted and delivered in 2019

Now available more broadly to people entering the "front door" of our services (shelter, outreach), rather than through specific diversion programs

Programs receiving City funding **successfully diverted 441 households** out of the homeless service system

City of Seattle

Rate of Exit to Housing - by Race/Ethnicity

Rate of Exit by Race/Ethnicity — 2018, 2019

- American Indian / Alaska Native: 2018 — 21%, 2019 — 33%
- Hispanic Latino: 2018 — 18%, 2019 — 27%
- Black / African American: 2018 — 31%, 2019 — 37%

City of Seattle

Conclusion

Performance outcomes continue to improve

HSD will continue to partner with providers to support program improvements and system change efforts

Permanent housing solutions such as Rapid Rehousing, Permanent Supportive Housing, and Prevention show consistently high number and rate of exit to housing
