Hi (b)(6);

Our sincere apologies for being late on this. Please see below/attached for the requested data:

**Website URL Enforcement:**

Since November 9, 2017 we have successfully removed, or otherwise enforced our IP against 211 websites. It's difficult to say which infringers cooperated, and which infringers were removed by their hosts, but I will say that Shopify has been the easiest Website Host to work with as they offer a simple Trademark/Copyright form that IP holders can fill out.

**Online Marketplace Enforcement:**

Since November 9, 2017 we have removed at least 500,242 individual listings across 71 different online marketplaces. The most "active" marketplaces that we reported on were Amazon (US and EU), Facebook/Instagram, and eBay US. Individual data per marketplace are attached.

I've also attached our most recent monthly report that includes some useful trends in our online reporting across the globe.

Please don't hesitate to reach out if you have any questions or need any additional information.

Best,

Good afternoon,

I am reaching out to you to get (b)(7)(E) on Operation Cyber Monday 2018. The U.S. along with member countries with Europol and INTERPOL will be conducting its annual Operation TransAtlantic/Cyber Monday targeting infringing websites on the internet. The IPR Center will issue a Press Release on Cyber Monday highlighting the work done by rights holders in shutting down infringing websites from Cyber Monday 2017 to Cyber Monday 2018 (November 26, 2018). By combining the work done by

rights holders and law enforcement will provide a more realistic picture that both industry and law enforcement are patrolling the internet to protect the consumers. Could you also include the number of links to E-Commerce platform (Facebook, Amazon, etc.) that were taken down? As in the past, the Press Release will indicate the total number of infringing websites civilly taken down by right holders and list the industry of the rights holders who submitted the data. It is our goal to remind consumers the danger of purchasing counterfeit/copyrighted materials online and how it hurts the U.S. economy.

Thank you,
