"Backflow prevention, dispatching" Situation Clues

I. "Integrated Platform" [IOP] screening found that there are currently 1,535 people from Xinjiang who obtained foreign nationality and also applied for Chinese visas (including 344 in Turkey, see attachment), including 979 people in Urumqi, 34 in Hotan, 9 in Hami, 14 in Altay, 20 in Changji, 167 in Yili, 10 in Bozhou, 23 in Turpan, 50 in Aksu, 68 in Kashgar, 26 in Tacheng, 65 in Karamay, 22 in Bazhou, 47 in Kezhou, and 1 in Shihezi. Among the above-mentioned personnel, 637 people have recorded entries into the country since June 1, 2016 (see attachment), of which 75 are determined to be inside the country (1 person is a fugitive. Some people have close ties with key people, see attachment), and for 562 people, because of the possibility of multiple identities and other issues, it cannot be ruled out that they are still active in the country. Of the 75 people, 26 are Turkish, 23 are Australian, 3 are American, 5 are Swedish, 2 from New Zealand, 1 from the Netherlands, 3 from Uzbekistan, 2 from the United Kingdom, 5 are Canadian, 3 are Finnish, 1 is French, and 1 is from Kyrgyzstan.

All prefectures should fully draw on grassroots stability maintenance forces and ten households joint defense [note: this is a kind of grassroots unit where the CPP organizes ten households together into a defensive unit] and combine it with "Integrated" platform in series to analyze these 1,535 people who have obtained foreign nationality and have applied for Chinese visas, especially the 637 people who have recorded entry in the past one year and the 75 people who have determined to be active in the country. Personal identification verification should be inspected one by one, for those who have already cancelled their citizenship and for whom suspected terrorism cannot be ruled out, they should be deported; for those who haven't cancelled their citizenship yet and for whom for whom suspected terrorism cannot be ruled out, they should first be placed into concentrated education and training and examined.

II. The "integrated platform" screening found that there are 4,341 Xinjiang people abroad who have obtained valid certificates in our embassies and consulates (including 607 in Turkey, see attachment), including 1409 people in Urumqi, 65 in Turpan, 67 in Bazhou, 486 in Kashgar, 400 in Yili, 109 in Altay, 62 in Karamay, 34 in Hami, 61 in Changji, 71 in Aksu, 337 in Hotan, 23 in Bozhou, 1088 in Kezhou, 122 in Tacheng, 7 in the Xinjiang Production and

Construction Corps. Among the above-mentioned personnel, 1707 people have not yet left the country (including 187 valid documents obtained in Turkey, see attachment), including 354 people in Urumqi, 23 in Turpan, 31 in Bazhou, 205 in Kashgar, 148 in Ili, 14 in Altay, 17 in Karamay, 17 in Hami, 11 in Changji, 15 in Aksu, 178 in Hotan, 9 in Bozhou, 662 in Kezhou, 21 in Tacheng and 2 in the Xinjiang Production and Construction Corps.

All prefectures should fully draw on grassroots stability maintenance forces and ten households joint defense and combine it with "Integrated" platform in series to analyze these 4,341 people who have obtained valid certificates in our embassies and consulates abroad, especially the 1707 people who have not yet left the country. Personal identification verification should be inspected one by one. For those still outside the country for whom suspected terrorism cannot be ruled out, the border control reading will be carried out by hand to ensure that they are arrested the moment they cross the border. For those who have entered the country and for whom suspected terrorism cannot be ruled out, they should first be placed into concentrated education and training for examination.

III. In the future, apart from those verified by public security organs, for any person originally from Xinjiang who obtains foreign nationality or a foreign passport, applies for a visa at our Chinese embassies or consulates abroad, or for any Xinjiang people who applies for replacements of valid documents at our Chinese embassies or consulates abroad, the local party committee political and legal committee should take the lead, fully take advantage of grassroots stability maintenance forces, the ten household joint defense and the "integrated" platform in series to analyze them, strengthen research and judgment, and for those whom suspected terrorism cannot be ruled out, border control should be implemented to carry out arrest or to refuse approval.
