As I sit here in this office that I have worked in for almost 17 yrs, I can look back and reflect on everything I have learned about the jail life and inmates. They may have broken the law at some level in the outside world but in here they are people. They are someone's dad, son, brother, husband. I have seen things that no one should have to see, lol. I have had to do things that most nurses don't even dream of doing. To shorten this, I want to thank everyone that I have had the pleasure of working with from the 4 sheriffs , 4 or 5 undersheriffs, front office people jail administrators, dispatchers(man I have so much respect for these people), jailers , kitchen personal, and inmates! There has been good times and bad but even with that , as today is my last day to work at the Ottawa County jail, I want to say I will miss you all!
