Discharge Planning signed by Julie Henige, APSW 09/07/18 1741 (continued)

---

sw consulted re: insurance lapse for family. Family was transitioning from dad's insurance which has poor coverage to mom's (badgercare). Mom has started but not completed her application, so does not have coverage on file. We discussed discharge medication. I called MAP to see if we can charge it with pending MA - they were going to investigate and follow up. Mom is aware of needing to sign financial responsibility form if insurance did not come through and was fine with that. Discharge anticipated later today. No other immediate needs identified. **Submitted by: Julie Henige, APSW - 9/7/2018 - 5:40 PM**

I notified Dr. Peto by web page about Rectal temp of 100.4f. Will continue to monitor.

Notified Dr. Peto that labs were obtained and pt had a 2 ml overdraw for the labs.

Skeletal survey completed.

Notified M Smith MD of 101.3 rectally at 1620. No new orders
