Time Capsule Interview

Even though this is a wacky time, we are living through a piece of history. We’re going to want to remember how it felt and share it with others one day. Cut out this microphone and interview your parents, siblings, or friends about what they’re going through.

Try these questions:

• What is a typical day like for you?
• What is most difficult about this time?
• What’s a change that you like?
• What do you hope goes back to the way it was? What do you hope is different?

Send your interviews (text or audio) to 626-423-6777 or engagement@scpr.org.
