Bill,

The number for mass gatherings stands at 72. We have asked the team to run the data again to see if there has been a change. No, I don't have an ETA, but I can guarantee you no one at the briefing will have the answer either until that metric is run.

I would love to be able to get you your answer yesterday, but we are extremely busy addressing a pandemic. When I have an update you will be the first to know.

Your patience is appreciated.

Jennifer
