

Interns-On-Call.com Offers PRSSA Students & Their Wide Range of Technical, Writing and Publicity Skills

Broadcast Interview Source (BIS), the company which publishes the Yearbook of Experts®, ExpertClick.com and runs News Release Wire.com, is welcoming students from the Public Relations Student Society of America (PRSSA) to create Interns-On-Call.com “Skill Pages” to promote their freelance skills. Giving students or fresh graduates experience while allowing PR clients, or private firms, to utilize their wide-range of affordable skills is the goal of BIS, with the help of PRSSA that has promoted the offer to their students. What’s an Interns On Call “Skill Page?” It is a web page offering their services. Students can apply to create one at www.ExpertClick.com/free.

ExpertClick.com, the action oriented online platform of Broadcast Interview Source, has a number of tools for creating news and profile content on the Internet. The printed Yearbook of Experts is published annually – see the 2020 Yearbook as PDF at www.ExpertBook.com Once a expert profile has been created on Expert Click, members take full advantage of News Release Wire.com to generate an unlimited number of Internet News Releases which are picked up the Google News and the Lexis systems. Also www.NewsTip.com is the free & fast track for a new clients to generate a release and immediately established a profile in the Expert Click system. News releases are free to create and send at www.NewsTip.com/refer/Guest_of_Mitchell_P_Davis

One of the PR Junior Partners working with BIS is Kaitlin Martinez-Hall. About to graduate with a Masters in Communication from California State University, she is utilizing her skills: press release writing, graphic design and social media management to meet client’s diverse PR needs. See her “Skill Page” at: <https://www.expertclick.com/19-5198>

Another partner is Brad Butler, experienced the in PR and has abilities in a wide-range of PR disciplines. He can produce a radio appearance on syndicated show on iHeart Radio which will then be cleaned and edited into subject based podcasts for the Expert Click Radio Sound Cloud Channel (the embed codes will then be available for use on website or in news releases to enhance online PR efforts). Butler can also perform writing, create custom graphic design, video editing or writing assignments. Having generated thousands of news releases through the Expert Click system, he is well versed in on how to utilize the system effectively. See his “Skill Page” at: <https://www.expertclick.com/19-5131>

Although Interns On Call is only 6 days old, Mitchell P. Davis the editor thought up the idea and the web site URL and Twitter handle were available. Follow us at www.Twitter.com/InternsOnCall where we tweet info on completed intern projects.

Questions? Call Mitchell. P. Davis, the Editor at (202) 333-5000 or ExpertClick@Gmail.com
