FOR IMMEDIATE RELEASE

We are taking all possible measures to prevent the spread of the COVID-19 virus within our facility. Leadership is working closely with local and state health officials to ensure we are taking the appropriate steps at this time. Our staff and residents are following all recommendations provided by the Centers for Disease Control and Prevention, including preventative actions. We continue to restrict visitors from entering our facility, use personal protective equipment, and have implemented the use of specialty equipment to disinfect the facility and upgraded air filtration systems for the protection of all our residents and staff.

Due to patient privacy laws, we are unable to share any further specific information about the confirmed cases in our facility, but we have notified their immediate family members/guardian.
