Planning Assumptions & Considerations

- 1 Providing a safe environment for students and staff is paramount.
- 2 The virus that causes COVID-19 will remain in circulation until a vaccine is developed and widely used.
- 3 At this time, mitigation of the spread of COVID-19 is the best protection.
- 4 Experts believe there will be a “second wave” of COVID-19 infection in late fall and through the winter.
- 5 Students and staff with significant health conditions will continue to be vulnerable towards COVID-19 infection.
- 6 The economic impact of the pandemic will have significant and lasting impacts on schools.
- 7 Student learning outcomes going into the 2020-21 year will be uneven and vary broadly.
