John Paul Moran, an “Opportunity” Republican forging a new political movement for America, will fight for Unity, Liberty and Opportunity for citizens of all backgrounds, ages, races, ethnicities and lifestyles when elected to the Massachusetts 6th Congressional District – Opportunity for ALL.

An unconventional candidate, John Paul is a gay Republican and Irish Catholic with a large extended family in Massachusetts and from coast to coast. A 22 year resident of Billerica in the District, John Paul draws his credentials from his American dream as a lifelong entrepreneur, trained scientist, NCAA All-American athlete, MBA, digital marketer, artist, musician, filmmaker, author, producer of a TV series pilot, and founder of a nonprofit whose mission is reaching a much younger and more diverse audience of voters.

Moran came to the Boston area upon graduation with a BS in Optics from the University of Rochester, where he worked at MIT Lincoln Laboratory on Hanscom Air Force Base in Lexington, MA. There he co-designed an advanced space-based telescope for the US Air Force, deployed into orbit and used to support our US troops in the field. He went on to start a brand and digital marketing agency in Boston followed by opening an apparel screen printing and embroidery shop in Everett, founding a California youth action sports apparel and films brand, earning his MBA at Boston University, becoming a Massachusetts Realtor, and then opening Grand Opportunity USA “GOUSA”, a 501(c)4 nonprofit. John Paul wrote a book in 2016, “Cues for Conservatives – How to Engage the Millennial Generation and Unite the Conservative Movement”, where he proposes a fresh new brand update for the GOP from the “Grand Old Party” to the new “Grand Opportunity Party”.

John Paul’s diverse background and life experiences guarantee that he will be a strong and independent voice in the House of Representatives when he becomes the first Republican Congressman in a quarter century to be sent from Massachusetts to Washington. He is committed to fighting rampant government corruption and ending the one-party state rule here in the Commonwealth.

Moran understands that the needs of the constituents in his 6th District are his highest priority, a district that has been all but abandoned by the sitting Democrat Representative, Seth Moulton. Moulton has done very little for the citizens, and in addition to a long list of missteps, flip flops and bad policies, he has spent his time obstructing and impeaching – and seeking higher office for himself – instead of serving the people. He is radical and divisive and votes with Nancy Pelosi 100% of the time, rubber stamping everything she does. Moulton supports shaming and defunding our brave police and first responders, protecting dangerous MS-13 gangs from deportation, supporting AOC’s economy-killing “Green New Deal”, defending Communist China over America, pushing for higher taxes, late term abortions up to birth, and other highly unpopular policies.

In sharp contrast, John Paul will tackle the most pressing issues facing the citizens of his district, state and country, including: defending our small businesses, supporting our police and first responders including more training and other common sense police reforms, lowering taxes, growing the economy after the long shutdown, improving healthcare, bringing American industries and jobs back to the 6th District from Communist China and elsewhere, providing for choice in education, confronting the opioid crisis, banning sanctuary cities, improving public transportation, addressing student debt, supporting our veterans and US military, pushing for Congressional term limits, fighting for equal LBGTQ rights, and protecting our Constitutional liberties.
Moran understands that today’s “progressive” values are obsessed with identity politics, social intolerance and political violence, open borders, socialism, defunding our police and demanding equal results regardless of effort, sacrifice and risk. That’s like every runner crossing the finish line at the same time regardless of hard work – why work so hard for little or no reward? What is fair, equitable and just is *equal opportunity* for all regardless of background, race, age, gender or lifestyle, while giving a hand up to those most in need. John Paul will fight tirelessly for providing Opportunity for ALL and a fair and equal shot at the American Dream.

John Paul Moran has what it takes to be a strong and independent voice in the US House of Representatives and hopes to inspire a new generation of patriotic Americans. See more at: [www.JohnPaulMoran.com](http://www.JohnPaulMoran.com)
