

***School of Public Affairs, August 13, 2020
Emergency Preparedness Survey***

Summary: Researchers at the University of South Florida conducted a statewide survey of 600 Floridians to measure emergency preparedness, as well as general opinions regarding the COVID-19 public health crisis and related policy issues. This brief summarizes responses related to the COVID-19 pandemic. The survey included a representative sample of the state's residents, fielded between July 30th and August 10th. The results are reported below with a confidence level of 95% and a margin of error +/- 4.

Floridians are still concerned about COVID-19. When it comes to COVID-19, a majority of Floridians (55%) believe that the worst is not yet behind us; less than 25% believe that it is.

Trust in Public Health Guidelines. A large majority of Floridians (82%) believe that prevention guidelines being emphasized by public health officials – such as wearing a mask in public and practicing social distancing – are effective at slowing the spread of COVID-19.

Most Floridians Would Support Closing Public Schools This Fall. Nearly three-quarters of respondents (73%) indicated that they would support a statewide decision to close public schools this Fall. A majority (54%) indicated that they would “Strongly Support” doing so.

Strong Support for a Statewide Mask Mandate: An overwhelming majority of Floridians (87%) would support a statewide mask mandate, with 73% indicating that they would “Strongly Support” such a measure.

Concerns Over Political Rallies. With election season approaching, 46% of Floridians feel that political candidates should not hold any rallies in Florida this Fall, while another 42% feel that political rallies should only be held if they can adhere to proper social distancing guidelines.

Additional Support for Mitigation Policies. A majority of Floridians would also support additional mitigation efforts to slow the spread of COVID-19, including placing stricter limits on public gatherings (85%) as well as temporarily re-closing bars and restaurants (66%), houses of worship (63%), and beaches/public parks (60%).

Small Partisan Differences on COVID-19. Majorities of both Republicans and Democrats favor enhanced mitigation efforts, though some partisan differences exist. Republicans are more likely to believe that the worst is behind us with regard to COVID-19 and slightly less likely to believe that public health guidance is effective at limiting the spread of the virus. Democrats are more supportive of a statewide mask mandate, closing public schools, and placing stricter limits on public gatherings, though majorities in both parties support each measure.

Summary of Responses

Please indicate your level of agreement with each of the following statements: ***When it comes to COVID-19, the worst is behind us.***

	Frequency	Percent
Strongly Agree	66	11.0
Somewhat Agree	74	12.3
Neither Agree nor Disagree	130	21.7
Somewhat Disagree	146	24.3
Strongly Disagree	184	30.7

Please indicate your level of agreement with each of the following statements: ***I feel more prepared to protect myself from COVID-19 than I did when the outbreak began.***

	Frequency	Percent
Strongly Agree	211	35.2
Somewhat Agree	227	37.8
Neither Agree nor Disagree	114	19.0
Somewhat Disagree	31	5.2
Strongly Disagree	17	2.8

Please indicate your level of agreement with each of the following statements: ***I believe that the prevention guidelines given by public health officials (such as wearing a mask in public and practicing social distancing) are effective in preventing the spread of COVID-19.***

	Frequency	Percent
Strongly Agree	275	45.8
Somewhat Agree	218	36.3
Neither Agree nor Disagree	55	9.2
Somewhat Disagree	28	4.7
Strongly Disagree	24	4.0

*To what extent would you support or oppose the state of Florida taking the following actions to slow the spread of COVID-19? **Placing stricter limits on the size of public gatherings.***

	Frequency	Percent
Strongly Support	406	67.7
Somewhat Support	105	17.5
Neither Support nor Oppose	46	7.7
Somewhat Oppose	22	3.7
Strongly Oppose	21	3.5

*To what extent would you support or oppose the state of Florida taking the following actions to slow the spread of COVID-19? **Requiring individuals to wear face masks in public.***

	Frequency	Percent
Strongly Support	440	73.3
Somewhat Support	79	13.2
Neither Support nor Oppose	36	6.0
Somewhat Oppose	16	2.7
Strongly Oppose	29	4.8

*To what extent would you support or oppose the state of Florida taking the following actions to slow the spread of COVID-19? **Issuing a new “Stay-at-Home” Order.***

	Frequency	Percent
Strongly Support	245	40.8
Somewhat Support	149	24.8
Neither Support nor Oppose	80	13.3
Somewhat Oppose	58	9.7
Strongly Oppose	68	11.3

*To what extent would you support or oppose the state of Florida taking the following actions to slow the spread of COVID-19? **Closing Public Schools for the Fall.***

	Frequency	Percent
Strongly Support	324	54.0
Somewhat Support	111	18.5
Neither Support nor Oppose	77	12.8
Somewhat Oppose	41	6.8
Strongly Oppose	47	7.8

*To what extent would you support or oppose the state of Florida taking the following actions to slow the spread of COVID-19? **Re-Closing Restaurants and Bars.***

	Frequency	Percent
Strongly Support	241	40.2

Somewhat Oppose	2.7	6.6	13.1
Strongly Oppose	1.6	4.8	20.0

*To what extent would you support or oppose the state of Florida taking the following actions to slow the spread of COVID-19? **Placing Stricter Limits on Public Gatherings.***

Reported as percentage of column totals

	Democrats	Independents	Republicans
Strongly Support	76.4	64.1	58.3
Somewhat Support	18.2	18.6	15.4
Neither Support nor Oppose	4.3	9.6	10.9
Somewhat Oppose	0.8	3.6	8.0
Strongly Oppose	0.4	4.2	7.4

Survey Information

For this survey, 600 residents of Florida were surveyed via an online web-panel using Prodege MR, an industry leading market research provider. The survey was fielded from July 30th through August 10th, and the results are reported with a 95% confidence level and a margin of error of +/-4.

Survey respondents were selected via a stratified, quota sampling approach in order to ensure a representative sample of Florida's population. Quotas for gender, age, race, and ethnicity were calculated based on population estimates provided by the Bureau of Economic and Business Research (BEBR). Table A1 below summarizes the USF survey sample in comparison to BEBR's 2019 population estimates.

**Table A1
Sample Comparison**

	USF Survey Sample	2019 BEBR Estimates
<i>Gender</i>		
Female	53%	51%
Male	47%	49%
<i>Age</i>		
18-24	10%	11%
25-54	48%	47%
55-64	18%	17%
65+	24%	25%
<i>Race</i>		
African American	20%	17%
White/Caucasian	71%	77%
Other	9%	6%
<i>Ethnicity</i>		
Hispanic	27%	26%
Non- Hispanic	73%	74%

The sample was stratified by region of the state to ensure geographical representativeness. [Northeast Florida-14%; Tampa Bay Metro-17%; Southwest Florida-11%; Orlando/Daytona-18%; Palm Beach/Treasure Coast-10%; Southeast Florida-23%; and Northwest Florida-7%].

About our Research Team

Robin Ersing (PhD, State University of New York at Buffalo, 2000) is Director and Associate Professor in the School of Public Affairs at the University of South Florida. She specializes in social policy with an emphasis on vulnerable populations, disaster resilience, community impact and asset assessment, and community action research. She is co-author of the book, *Surviving Disaster: The Role of Social Networks*. For more information please visit her faculty webpage at <https://www.usf.edu/arts-sciences/departments/public-affairs/about-us/faculty/rersing.aspx> Dr. Ersing can be contacted by email at rsing@usf.edu

Stephen Neely (PhD, North Carolina State University, 2013) is an Associate Professor in the School of Public Affairs at the University of South Florida. He is coordinator of the School's undergraduate program in *Leadership and Public Service*. His areas of specialization include survey research, quantitative data analysis, and public policy. He is a faculty researcher on the *Sunshine State Survey* project and has conducted survey research on behalf of local governments in the Tampa Bay region. For more information please visit <https://www.usf.edu/arts-sciences/departments/public-affairs/about-us/faculty/sneely.aspx> Dr. Neely can be contacted by email at sneely@usf.edu

Christa L. Remington (PhD, Florida International University, 2017) is an Assistant Professor in the School of Public Affairs at the University of South Florida. She specializes in nonprofit management and emergency management. Her research focuses on cultural competence, post-disaster response and recovery, and policies impacting first responders. Dr. Remington is also a nonprofit consultant and the Emergency Management Research Coordinator at the Center for Leadership Research and Action. For more information please visit her faculty webpage at <https://www.usf.edu/arts-sciences/departments/public-affairs/about-us/faculty/remington.aspx>. Dr. Remington can be contacted by email at clremington@usf.edu

About the School of Public Affairs

The School of Public Affairs (SPA) at the University of South Florida is part of USF's College of Arts and Sciences and serves as a premier community-centered hub for public affairs education and research, providing quality education, research, and public service to meet community, national, and global needs.

SPA offers graduate degree programs in Public Administration and Urban & Regional Planning, as well as graduate certificates in Public Management, Nonprofit Management, Data Science, Community Development, and Coastal Resiliency Planning. SPA also offers undergraduate minors in Public Service & Leadership as well as Urban Studies.
