***1 Note: The Total APCL count by programs may contain more than one assignment per individual, therefore the total of all columns may be greater than "Unduplicated Consumer Count", which is the total of individuals, each of which may be waiting on more than one program.**

***2 Note: Many consumers enter the system through the CCE program, and are later determined to be eligible for Medicaid or one or more of the other programs.**

***3 Note: The adjusted count represents the number of consumers who have an APCL enrollment status and not receiving any service other than Case Management.**
